

QEII HALIFAX INFIRMARY EXPANSION PROJECT SURVEY RESULTS

WHAT WE HEARD

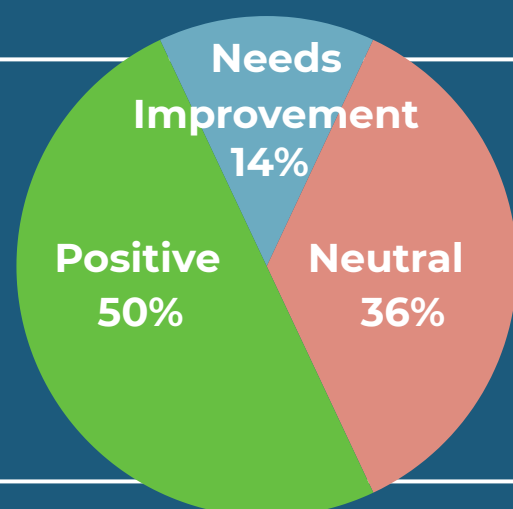

RESPONSE RATE

We received 400 + responses from Nova Scotians online and in-person.

PUBLIC RESPONSE

From wayfinding to public areas, the community's feedback highlights a positive response to the current designs.

YOUR VOICES

- Spaces that feel welcoming and warm.
- Comfortable, accessible seating for all.
- Clear, inclusive icons and colours.

OUR COMMITMENT

- We're building more than a space — we're creating an experience that is accessible, welcoming, and easy to navigate. Colours, icons, and design choices are all part of a larger strategy to support patients, families, and staff.

MOVING FORWARD TOGETHER

As we progress, we will:

- Refine our approaches and strategies using what we've heard.
- Keep accessibility and comfort at the heart of every decision.
- Continue to engage with you as this project evolves.
