

Notice of Public Information Meeting # 3

Township of South Frontenac Verona Housing Water and Wastewater Class Environmental Assessments

The Township of South Frontenac (Township) has initiated Schedule 'B' Wastewater Class Environmental Assessment (EA) and a Schedule 'C' Water Class EA to evaluate options to service the proposed municipal housing development in Verona.

The Schedule 'B' (wastewater) and Schedule 'C' (water) Class EAs are being undertaken following the completion of the Verona Housing Water and Wastewater Master Plan, which recommended an onsite groundwater well and large subsurface sewage disposal system on Parcel B to service the proposed development. Class EAs are required to further refine the details of the proposed water and wastewater systems.

Various field work and stakeholder agency consultations have now been completed to assess the geotechnical, hydrogeological, ecological, and archaeological features of the site. The purpose of meeting No. 3 is to present the findings of these studies to the community for comment. Public and agency consultation is a key part of the Class EA process. Your input will help identify preferred design solutions and concepts that aim to reliably and sustainably service the development into the long-term. Members of the public and other interested parties are invited to Public Information Meeting No. 3 for this project, which will take place during the Township's Council meeting as follows:

Date: September 15, 2026

Time: 7:00 pm (During Council meeting)

Location: 4432 George Street, Sydenham ON, K0H 2T0

You can also contact the Class EA team members listed below with any questions or to provide input on the Class EAs throughout the project. Updates will also be provided during the Class EAs on the Township website at www.southfrontenac.net and <https://engagefrontenac.ca/verona-servicing>.

Susan Jingmiao Shi, M.Eng., P.Eng., IRP
Senior Environmental Engineer
