

Appendix A– Promotion

St. James Civic Centre Expansion

The St. James Civic Centre is expanding to better meet community recreation needs. We want to know which programs and recreation activities you want to see at the St. James Civic Centre. Join us at an open house or take the survey to tell us what you think about the proposed addition and renovation.

Take the survey by February 8.

Scan the QR code to take the survey.

Public Open House

Q3 The expansion of St. James Civic Centre includes proposed improvements to the parking lot and site to make the facility more appealing and safer and more convenient for people coming by all modes of travel. Please rate the following proposed site design and parking lot aspects from 'very poor' to 'very good':

Answered: 1,473 Skipped: 81

| | VERY POOR | POOR | NEUTRAL | GOOD | VERY GOOD | TOTAL | WEIGHTED AVERAGE |
|--|-------------|-------------|---------------|---------------|---------------|-------|------------------|
| A greener parking lot with trees and landscaping | 4.01% 59 | 3.94% 58 | 20.16% 297 | 35.57% 524 | 36.32% 535 | 1,473 | 3.96 |
| A safe, accessible walkway from Ness Avenue | 2.04% 30 | 1.70% 25 | 12.42% 183 | 36.12% 532 | 47.73% 703 | 1,473 | 4.26 |
| Access to the public transit stop | 2.10% 31 | 1.83% 27 | 20.91% 308 | 35.10% 517 | 40.05% 590 | 1,473 | 4.09 |
| Outdoor seating and gathering spaces | 3.05% 45 | 5.23% 77 | 23.08% 340 | 38.70% 570 | 29.94% 441 | 1,473 | 3.87 |
| Bike parking (safe and secure) | 2.65% 39 | 3.73% 55 | 20.03% 295 | 36.93% 544 | 36.66% 540 | 1,473 | 4.01 |
| A drop-off loop for cars and buses | 3.12% 46 | 3.12% 46 | 22.81% 336 | 37.88% 558 | 33.06% 487 | 1,473 | 3.95 |
| EV charging stations | 6.52% 96 | 5.57% 82 | 44.70% 658 | 23.71% 349 | 19.50% 287 | 1,472 | 3.44 |
| Accessible parking spaces (close to the entry) | 1.83% 27 | 1.97% 29 | 20.91% 308 | 37.81% 557 | 37.47% 552 | 1,473 | 4.07 |
| Improved recycling drop off | 3.60% 53 | 3.67% 54 | 24.37% 359 | 33.06% 487 | 35.30% 520 | 1,473 | 3.93 |

Q4 If any of the aspects of the proposed site and parking lot design did not meet your expectations, please tell us why in the space below.

Answered: 365 Skipped: 1,189

| # | RESPONSES | DATE |
|----|---|-------------------|
| 1 | It looks like the recycling space doesn't allow for easy in and out, and we use that lots. Driving up beside the bins- where you can see which bin doesn't have space, so you keep going past to one that does. This design looks harder to do that- but might just be the size. Looks like it will allow for lots more dumping of people's junk too as it's more protected. | 2/9/2023 6:36 AM |
| 2 | I don't think the greener parking lot is necessary. It will require more maintenance and attract mosquitoes. This is a poor use of my tax dollars. I'm not sure what the vision is for the large outdoor seating space. This was not explained in the slides and I can't imagine many uses as it's cold most of the year. I can't support this as presented. I'd like more information. More indoor spaces would be better. | 2/9/2023 12:41 AM |
| 3 | Having enough parking should be a priority | 2/9/2023 12:05 AM |
| 4 | Needs more trees because this is an excellent opportunity to add to the City's canopy. Please make bike parking area large to accommodate active transportation, and components to deter theft. | 2/8/2023 9:01 PM |
| 5 | I do not see the loop for buses (especially school buses). The recycling area needs to be larger and away from the entrance - lots of cars park to unload. Even the existing configuration causes traffic jams, especially when the trucks come to haul the stuff away. More bike parking! Indoor bike parking or valet parking - like at soccer games. | 2/8/2023 6:54 PM |
| 6 | Move recycling drop off somewhere else. This is a poor location for it | 2/8/2023 6:23 PM |
| 7 | I love the plan so much! The walkway down the centre of the parking lot is my favourite | 2/8/2023 2:47 PM |
| 8 | lots of trees | 2/8/2023 11:14 AM |
| 9 | The crossing at Ness should improve to facilitate people on bikes better. Woodlawn has excellent potential as a neighbourhood greenway. with possible connection to Assiniboine Park, this facility. Would like to see some bike racks for long term storage. Please ensure the charging stations are provided for electric bikes. Make sure bike rack fits a range of bikes; cargo bike, trikes, etc. | 2/8/2023 11:11 AM |
| 10 | charging stations- N/A | 2/8/2023 11:01 AM |
| 11 | bike parking not secure - consider a lock up cage | 2/8/2023 10:53 AM |
| 12 | I would like to see a set of stop lights replace the crosswalk at Ness and Woodlawn. | 2/8/2023 6:46 AM |
| 13 | Worried too many parking spots removed. Hockey games fill up the site. Not sure how safe the walkway is. Do not see the need for outdoor seating as we are always going inside for all events. | 2/8/2023 12:36 AM |
| 14 | Please spend the money indoors. The parking lot is just a parking lot | 2/7/2023 9:15 PM |
| 15 | More handicapped spaces and mother & children spaces needed. Need better bus service to the Centre. | 2/7/2023 4:13 PM |
| 16 | These renovations should have been completed while the pool was under construction. | 2/7/2023 1:21 PM |
| 17 | The current parking lot already has issues with capacity during JR hockey games, this appears to be less spots with more activity being added to the building. | 2/7/2023 12:55 PM |
| 18 | Don't necessarily need so many trees in parking lot. Would be nice to have some seating space on grass area too, possibly behind where the recycling bins currently are. | 2/7/2023 12:23 PM |
| 19 | Losing too many parking spaces | 2/7/2023 11:11 AM |

| | | |
|----|---|-------------------|
| 20 | The parking lot can be so cramped. Taking away parking spots is foolish. | 2/7/2023 4:03 AM |
| 21 | No EV charge station. Needs bigger recycling center. Needs more parking spaces. | 2/7/2023 12:01 AM |
| 22 | Why has parking decreased in size? Majority of people using this site will not be using public transport. Most people participating in the sports activities being offered will not be hauling their equipment on public transport or dragging it on their bikes. Its unrealisrltic. Ev parking takes spaces away. If anything turn those stalls into additional accessible parking spaces. More important to those who truly need them. And a green space in the parking lot is pointless. It's a waste of money. Please put that to better use. Reassess. And why has the recycling area been decreased in size? That is an extremely important aspect of that center | 2/6/2023 8:39 PM |
| 23 | I feel there should be less room for cars to make room for other type of outdoor facilities. If there was a connection to the biking paths, this would increase the use of the center as well. | 2/6/2023 7:50 PM |
| 24 | I think your proposed design is excellent. Before you start with this new project, COAT RACKS IN THE WOMEN'S CHANGE ROOM WOULD BE GREATLY APPRECIATED. | 2/6/2023 3:31 PM |
| 25 | Please spare the \$ for EV vehicle chargers... please use those allocated funds for extra building improvements or possibly an indoor tennis court. People who have EV cars charge them at home... | 2/6/2023 3:02 PM |
| 26 | Don't reduce the parking space for trees. There is barely enough parking during the winter/hockey tournaments which often run concurrently with aqua. | 2/6/2023 12:31 PM |
| 27 | Add Tennis Courts if possible | 2/6/2023 10:55 AM |
| 28 | The building is still just as far from the street (bus stop) as it always has been, meaning that people have to hike from the stop to the building and back in all weather conditions and in spite of age or mobility limitations. At the very least, there should be an enclosed walkway from Ness to the building. But even better would be to rejig the building and parking lot design so that cars have to park at the side or behind the building, and pedestrians and transit users have access right from the street. It's so frustrating to see yet another design that bows to private vehicles and leaves others literally out in the cold. | 2/6/2023 2:37 AM |
| 29 | The handicapped parking--Some stalls are too far away from the entrance. This will make it difficult in the winter for those who use mobility aids. When I go to the pool generally all handicapped stalls are in use. With the more people using the facility due to the 55+ centre joining the Civic Centre, one would think more handicapped stalls and overall parking would be needed. It also looks like there will generally be less parking than currently available. On the weekends in winter, the current parking lot is full. Also, in the winter parking stalls are lost to accumulated snow piles from snow clearing. | 2/5/2023 11:22 PM |
| 30 | How is the bike area safe and secure? It's very difficult to answer any of this accurately from this picture | 2/5/2023 10:02 PM |
| 31 | Would like to see an indoor walking track which would be a safe walking alternative to outdoors in the winter and also could be used year round. | 2/5/2023 9:07 PM |
| 32 | Recycle area cramped. Question the need for outdoor seating areas. Drop off loop looks tight. Couldn't see EV stations, unless right by handicapped. There should be more, and not necessarily right by the door. Usually younger people need them. Parking spots seem to be reduced. | 2/5/2023 8:54 PM |
| 33 | I am very concerned about the illegal dumping that occurs in the parking lot. This is a major fire hazard at the best of times beside the grass fields. I am hoping that there will not be a lot of parking spots that are removed as during hockey season it's often hard to find a parking spot during peak times. Having a better system to see the parking spots in winter will help as the parking often becomes misaligned very quickly and there are lots of cars doubled parked. My main concern is that all the facilities and programs remain open during construction.. even if this means using the staff entrance to enter the building. | 2/5/2023 8:04 PM |
| 34 | I feel as though you are making it bigger and taking away a lot of parking. I have seen that parking lot FULL before with the facilities the way it is. I dont think you need all the green spaces. It's a parking lot. | 2/5/2023 10:30 AM |
| 35 | Concern that the reduced number of parking spaces will be a problem if there are multiple activities at the same time. | 2/4/2023 11:02 PM |

| | | |
|----|--|-------------------|
| 36 | Recycling will be visible from Ness? If so, that is an 'eyesore'. | 2/4/2023 6:34 PM |
| 37 | It appears that there will be parking for half as many vehicles with additional tenants and activities. It looks attractive and functional but will require an expansion to accommodate more cars | 2/4/2023 1:40 PM |
| 38 | I think having a splash pad added would be great for the area | 2/4/2023 2:26 AM |
| 39 | Wheelchair accessibility will still be very difficult in winter | 2/3/2023 4:51 PM |
| 40 | I don't see any outdoor green space that can be used. Especially not for gatherings of more than 2-4 people. a Few picnic tables at the front seems pretty basic. | 2/3/2023 10:17 AM |
| 41 | EV stations are a waste of money and subsidize the wealthy who can afford these cars. | 2/2/2023 8:48 PM |
| 42 | Wish that traffic lights were put up on Ness - either entrance/exit to facilitate safe entry. | 2/2/2023 4:42 PM |
| 43 | Having outdoor seating right by the drop-off/pick-up area is a bad mix. it's not a pleasant experience having polluting (air and noise) vehicles pull up to the seating area. In reality often cars idle while waiting for a pick up. This is a poor design choice. If a pick up area is required, place it to the east or west of the facility with no cut through in front of the centre/seating area. That space could be used as an extended micro plaza with seating and trees. Can you also consider working with WT and PW for an improved bus shelter to create a more pleasant environment for transit riders (induce demand) | 2/2/2023 10:36 AM |
| 44 | Losing parking spaces will be a detriment. Maximize number of spaces by not making it all greenery- it will be covered in snow most of the time and driven over; ongoing charges for upkeep and collection sote for blowing garbage and weeds. | 2/1/2023 7:50 PM |
| 45 | It looks good but that lot is often full now. With the added landscaping, etc., it looks like parking will be at a premium... | 2/1/2023 5:45 PM |
| 46 | Recycling overflows now, in this configuration cars dropping off will not be able to get close to the bins to unload. I worry they will just drop their loads. | 2/1/2023 4:23 PM |
| 47 | Wasn't sure if you wanted the idea ranked, your proposal ranked, or ?. For instance it is a very good idea to have drop off loop (including bus), however your proposal sucks. | 2/1/2023 3:02 PM |
| 48 | Current parking lot can be completely full when there are hockey games and other functions. Reduce the parking lot and add more tenants to the building doesn't make much sense. | 2/1/2023 10:53 AM |
| 49 | With hockey games in building along with other activities. Won't be enough parking | 2/1/2023 9:47 AM |
| 50 | I don't see the EV charging stations | 2/1/2023 9:25 AM |
| 51 | Trees in the parking lot will cause poor lighting, create coverage to allow for break-ins, mess up cars with sap/leaves/bugs, and added debris of leaves and seeds Would prefer west side sidewalk that does not go through traffic crosswalk on Ness to get to transit stop need more bike parking with a canopy where do chartered buses park I don't see the charging stations but is anyone there long enough to charge a vehicle? Would prefer accessible parking right up to the building Recycling drop off interfere with traffic lane | 2/1/2023 9:06 AM |
| 52 | More tree canopy if possible. | 2/1/2023 7:49 AM |
| 53 | It appears there are not enough EV charging stations. It would be wise to build the infrastructure now with the potential for increased capacity for EVs. | 2/1/2023 6:38 AM |
| 54 | Move the recycling spot to the back of the building or on the right side, it's such an ugly eyesore.!! | 1/31/2023 9:31 PM |
| 55 | I have an anaphylactic allergy to latex rubber. I am very restricted due to the fact that no one educates themselves about it even with the Access to Manitobans with Disabilities Act. It would be nice to have one community centre in this city that is latex safe with educated staff. | 1/31/2023 6:12 PM |
| 56 | I am quite concerned about the recycling area and if it will meet the needs of the community. Right now, it is quite the eyesore. I would want it to be easy access while being hidden from public view, or at least less obvious. | 1/31/2023 5:25 PM |
| 57 | More greenery is needed including landscaping that adds interest during winter. Provision should be made for far more EV charging stations given the Government of Canada's mandate that 20% of new vehicle sales must be EVs by 2026; 60% by 2030 and 100% by 2035. At | 1/31/2023 5:02 PM |

least some of the bicycle parking should encourage lockers. All bike storage should have a canopy for weather protection and video monitoring. Provision should be made for charging electric bikes.

| | | |
|----|--|--------------------|
| 58 | Just ensure not too many parking spots are lost to these improvements, especially as winter snow storage can already take up some spots. | 1/31/2023 4:16 PM |
| 59 | I would like to see bollards along the walkway to reduce chance of vehicles hitting pedestrians | 1/31/2023 3:27 PM |
| 60 | This looks like a park for cars instead of people. Shrink the parking lot and add more people space and expand bike parking. | 1/31/2023 2:37 PM |
| 61 | I did not see any EV charging stations, so I could not provide an opinion on them, that being said, I do not consider electric vehicles - as they are currently being made - to be a cleaner energy source solution in comparison to hybrid cars. | 1/31/2023 2:01 PM |
| 62 | There needs to be traffic lights for exiting onto NESS Ave. It is unsafe for Traffic turning left off of NESS to enter the center and when they exit trying to turn left. Lots of close calls at this location. The Civic Centre needs be connected to the bike path that runs behind the golf course. This would encourage families to take the path instead of the sidewalk on NESS, which collects snow in the winter. Will the placement of the trees cause snow to collect in drifts across NESS. | 1/31/2023 1:22 PM |
| 63 | The civic center already has a problem with insufficient parking and by this design it further decreases it. Is the recycling area really improved? or downsized as well? | 1/31/2023 12:57 PM |
| 64 | does the walkway from Ness have railings to increase mobility assistance? Could public transit drive through in front of the centre? I cannot locate the EV charging stations. If there is one, it needs to be a quick-charging, high capacity one. Are the parallel parking spaces in the drive through loop accessible spots? Could they be? The size of the accessible parking spots now is very good (maybe even a bit too big?) but there needs to be adequate space to open both driver and passenger doors, so having extra space only on one side as in the diagram will not meet all needs. | 1/31/2023 12:13 PM |
| 65 | Bike rack area needs to be bigger or more than one space. Should consider a more secure bike cage area. Parking lot is too big, and thought should be given to making it less prominent. Not everybody needs to visit by car for their regular visit. I support active transport when possible. | 1/31/2023 8:26 AM |
| 66 | We need more spaces | 1/30/2023 9:42 PM |
| 67 | Parking lot should just be that ~ a parking lot! There are numerous parks and walking trails nearby. The current parking lot may be reduced in size ~ this is counterproductive to having this site chosen for community gatherings and activities! The parking availability and area are two key components of choosing this particular space! | 1/30/2023 7:53 PM |
| 68 | The golf near the current recycling recipients got flooded last spring and resulted in a lot of mosquitoes. It needs to be dealt with, because affects the aoutdoor use of the community centre | 1/30/2023 6:39 PM |
| 69 | EV charging good for some cars but Tesla's can't use them. A parking lot should be for cars it isn't a green space. | 1/30/2023 4:07 PM |
| 70 | Currently the parking is sufficient except for hockey which doesn't seem to be big enough . If you take away the current # of parking there won't be enough fir swimming. fitness classes and 55+. Vehicles | 1/30/2023 4:06 PM |
| 71 | Bus entry onto the site will clog up mobility for cars; it should be off site but abutting the facility | 1/30/2023 4:04 PM |
| 72 | For such a large surface area it would make sense to make space for more shade trees. | 1/30/2023 3:23 PM |
| 73 | I don't see any EV charge stations on the plan. There is no safe convenient way to get from the south side of Ness to the Centre, and no east bound bus stop nearby. | 1/30/2023 3:04 PM |
| 74 | I prefer the recycling drop to remain as it is. There is no traffic flow for consumers who use this service. It looks as if it is tucked in an area close to the entrance. This may cause traffic concerns and collisions because there is no flow of traffic. I prefer that the Civic Center interior be renovated....especially the changing rooms and showers. I do not understand the flow of traffic. It seems that there is only one entrance and exit thru Ness. I do not agree with this. | 1/30/2023 1:30 PM |

Fewer trees and more lighting. Trees and landscaping require maintenance. I would rather see the money used to maintain the interior of the Civic Center. This map does not meet the standards of the community.

| | | |
|----|---|--------------------|
| 75 | I don't actually see a drop-off loop in the design. How many parking spots will there be vs before the changes? It is not clear what the improved recycling drop off design is - it just looks more confined. There is currently a lot of recycling overflowing, so how will that be managed? The design just shows bike racks - what makes them safe and secure? | 1/30/2023 12:03 PM |
| 76 | we need parking space - looks like parking will be cut by half, which is alot when certain activities going on so this is NOT good. not sure we need the walkway either or so much sitting area not needed. Couple benches would do. | 1/30/2023 11:43 AM |
| 77 | Where is the EV charging station? I don't see a safe place to cross Ness either? I don't drive to the SJCC, I walk, so an actual traffic light would be safer, in my opinion, especially with small kids. | 1/30/2023 10:33 AM |
| 78 | Make sure that the parking is adequate as to what is available now. When hockey and swimming and dance are on at same time, it can get quite tight. I like the drop off area. | 1/30/2023 10:27 AM |
| 79 | All seems good | 1/30/2023 10:21 AM |
| 80 | No crosswalk on ness | 1/30/2023 10:04 AM |
| 81 | Cleared from snow | 1/30/2023 7:02 AM |
| 82 | I can't see any EV charging stations. Unless I'm wrong and just can't see them. Where are they? | 1/30/2023 12:55 AM |
| 83 | The expansion to the building at the front. I would not like to see the pool closed for another two years for construction... | 1/29/2023 11:39 PM |
| 84 | Bikes are easy to steal even in high visibility areas with lots of traffic | 1/29/2023 10:13 PM |
| 85 | Maybe more bike racks. | 1/29/2023 9:17 PM |
| 86 | More spaces are needed, not less! | 1/29/2023 9:01 PM |
| 87 | I think there are a lot more important things to deal with. Specifically programming for drop in. There are plenty of green spaces everywhere else the programs that do not need to be registered would be much more beneficial. | 1/29/2023 8:09 PM |
| 88 | The trees in the parking lot is a hazard because it blocks seeing other vehicles and falling branches, leaf litter Making it slippery whe. It rains etc. Please reconsider. This was not thought through | 1/29/2023 5:25 PM |
| 89 | Locked bike area. | 1/29/2023 5:15 PM |
| 90 | Not large enough recycling program | 1/29/2023 4:24 PM |
| 91 | Family change rooms | 1/29/2023 4:08 PM |
| 92 | Would be nice to have parking for families with small children. We have toddler twins and it's hard sometimes to find a wide enough spot to open both doors | 1/29/2023 3:34 PM |
| 93 | The young people in St James love their court sports. The greatest gift to the community would be open courts, accessible very often. Currently, if you want to play more basketball, you have to fight your way into the Y during open gym times. | 1/29/2023 1:09 PM |
| 94 | It is missing a safe walkway between parked cars. A child or seniors have no safe walk access from the parking spot to the entrance. I would recommend to have the mulch bed a walkway instead. IKEA Parking is a good example | 1/29/2023 12:17 PM |
| 95 | It is difficult to form opinions about the design from the one diagram provided. | 1/29/2023 11:44 AM |
| 96 | Indoor walking/running track please! | 1/29/2023 11:40 AM |
| 97 | Wide enough stalls to get kids/baby car seats etc out of the car safely | 1/29/2023 11:14 AM |
| 98 | The need is for another rink | 1/29/2023 11:11 AM |
| 99 | Please ensure that handicap parking is close to the entrance and there is ample space. For | 1/29/2023 10:41 AM |

| | | |
|-----|---|--------------------|
| | example, at Pan Am handicap parking is meaningless because of distance | |
| 100 | Parking spot for expecting mothers would a nice addition or if there could be a outdoor area for kids to play. If there was space for a splash pad that would be great. | 1/29/2023 10:38 AM |
| 101 | The recycling area seems small and allot of people use it, guess it couldn't be moved to the back of the bldg somehow so you could put more bins out and would be hidden from street view. | 1/29/2023 10:37 AM |
| 102 | Please include "new mom" or "with a stroller" parking spots for people with infants | 1/29/2023 10:26 AM |
| 103 | I could care less about having trees added to the parking lot. Would rather more space for parking and other amenities. Also would have liked to see an outdoor splash pad for the kids added like the one they have at the Centennial Pool. | 1/29/2023 10:26 AM |
| 104 | That recycling space is awfully small. It looks like the number of spots in the parking lot will be reduced due to all the trees. Do people need shade in the parking lot? We are not hanging out there. | 1/29/2023 10:05 AM |
| 105 | There appears to be no inclusion of an indoor track | 1/29/2023 10:05 AM |
| 106 | Accessible parking should be against the building. The drop off loop & accessible spaces should be reversed. | 1/29/2023 8:52 AM |
| 107 | Is there a cross walk from the south side of Ness from bus stop over to the pedestrian corridor ? I don't really see a drop off loop. It gets very congested when the overlap of activities happen - one team arriving, one leaving. Is the lot now all dead ends? When it is busy and people r looking for parking, r u going to have a line up of people trying to back up when they get to the end and there is no parking? Or can we drive over the pedestrian corridor? Similar concerns with the recycling area. Can people just stop and drop recycling? | 1/29/2023 8:45 AM |
| 108 | I would have expected a bike link to the Silver bike path behind the golf course. | 1/29/2023 7:25 AM |
| 109 | Concerned there willnot be enough parking spaces . We need a change room for winter boots & coats . Not in agreement with neutral gender rest rooms! Need some water bottle refill statiins | 1/28/2023 10:56 PM |
| 110 | Does not provide enough space for the many vehicles that enter the area to drop recycling. Could be a backlog of people waiting, blocking the main parking lot entrance | 1/28/2023 8:42 PM |
| 111 | Put new facility in south east Winnipeg | 1/28/2023 7:57 PM |
| 112 | Neutral | 1/28/2023 7:52 PM |
| 113 | find the walk from the parking lot long . Could the parking of larger trucks be designated to the east side ? The hockey parents seem to take a lot of the front spaces and often are in larger vehicles . I am a senior . I do not have handicap parking , however some consideration for seniors would be nice . A lot of seniors also use the facility . Once again the pool locker rooms are being ignored fro upgrades . Trees are great , however change rooms are used all year round . | 1/28/2023 6:06 PM |
| 114 | Need upgraded/more facilites in River East | 1/28/2023 5:38 PM |
| 115 | It's a parking lot. Not sure how adding trees and landscaping will improve it's functionality. | 1/28/2023 4:26 PM |
| 116 | Why don't fix change rooms leave parking lot alone | 1/28/2023 4:19 PM |
| 117 | Having used the facility for years, drop-offs at the "start" and "end" of class times or hockey games can get bananas. A lot more space should be dedicated to a drop-off loop, to avoid extreme congestion at these particularly busy periods. | 1/28/2023 3:37 PM |
| 118 | Looks like it might be a tight squeeze for the recycling area. | 1/28/2023 3:12 PM |
| 119 | Need controlled lights on Woodlawn st.....for Left turns on to Ness ave | 1/28/2023 2:55 PM |
| 120 | Needs a few more EV spaces, and some type of more secure bike barking facility. And add at least a couple of more trees! | 1/28/2023 2:43 PM |
| 121 | Remember this is a multigenerational space used by all ages and all abilities | 1/28/2023 2:43 PM |
| 122 | LOTS OF PARKING NEEDED. | 1/28/2023 2:03 PM |
| 123 | the recycling area is too small and people unloading and the angle of the exit route will be | 1/28/2023 1:58 PM |

| | | |
|-----|---|--------------------|
| | blocked especially if snow is not moved quickly | |
| 124 | Make parking spot large like the Ikea family parking spots. | 1/28/2023 1:36 PM |
| 125 | A couple "Parent parking" spots (expecting mothers and newborns) | 1/28/2023 1:29 PM |
| 126 | Disabled accessibility has been a huge issue - this needs to be addressed as I found it very difficult | 1/28/2023 1:07 PM |
| 127 | Can the bus pull to stop at the front door, the proposed stop on the south side of Ness is a long cold walk in the winter away. | 1/28/2023 1:02 PM |
| 128 | There will be less parking which is not good, yet you want more people to come. There is way to many trees. I would skip the trees, as there have never been any trees there before and put the money into building a better facility. You will also save money on the maintenance of the parking lot. There is lots of green space as you have a golf course right next door. | 1/28/2023 12:45 PM |
| 129 | Thanks for the EV charging stations. The recycling area seems a bit small for multiple vehicles driving up to the bins. It looks like it will be a beautiful space. | 1/28/2023 12:37 PM |
| 130 | Don't see EV charging station | 1/28/2023 12:29 PM |
| 131 | For handicap parking needs to be direct access from spot to building with no barriers impeding entry. This would be a problem esp in bad weather like snow or rain | 1/28/2023 12:23 PM |
| 132 | Hard to tell from the picture but traditional bike racks aren't especially safe or secure. Ensure the bus stop is right at the walkway to minimize cutting across the parking lot. Ensure recycling area has sight lines and egress to the road and parking lot so it is not a closed space to ensure safety. | 1/28/2023 12:21 PM |
| 133 | I can't see the drop off loop | 1/28/2023 12:19 PM |
| 134 | Make sure the drop off loop is sufficient for Handitranst | 1/28/2023 12:03 PM |
| 135 | Recycle depot on the side vs along Ness . Transit bus drop off directly in front of the building vs drop off on Ness as easier for the disabled population | 1/28/2023 12:01 PM |
| 136 | The pool change rooms need upgrading and expansion. It gets very crowded, lack of space to change, poor hair dry stations, lack privacy change rooms, only 2 toilet stalls- desperately needs upgrading/ expansion. | 1/28/2023 11:51 AM |
| 137 | Why expand the lot at all???? Making it greener doesn't do anything especially since the main use of the facility is hockey. Getting rid of the canteen was a huge mistake | 1/28/2023 11:44 AM |
| 138 | I strongly suggest building the outdoor pedestrian walkway through the parking lot with a heated base. This area will serve seniors and this is the most effective way to ensure their safety when walking into the building. The proposed recycling area seems like it will be quickly overwhelmed. The current space is already regularly overloaded and unsightly. Loose debris can easily be lifted by the wind and carried into traffic, the proposed design seems like it might make this more of a problem. If the redesign goes ahead, I strongly suggest increasing the pick-up for recycling to 2-3 times a week. | 1/28/2023 11:33 AM |
| 139 | I would focus more on the interior of the bldg then the outside | 1/28/2023 11:31 AM |
| 140 | Recycling area too small, disability parking spots too far away from front door, what Co is the outdoor viewing area for when parents who used the other viewing area inside never watched as they were always on their phones. Leave the pool area alone. | 1/28/2023 11:24 AM |
| 141 | The current parking lot is already full during St James Canucks games and swimming lessons among other site programming. The new proposed parking lot is smaller than before, making me wonder if there will be room for everyone. Along with this the "accessible parking spaces are still quite far from the entrance, which is now even farther from the rink, pool, and auditorium. They aren't really accessible if they are 200 metres from the facility front desk. | 1/28/2023 11:23 AM |
| 142 | I can't really see how the drop off loop works. Although it looks ok on the drawing - I can see it being congested with too much action around the cross walk. It would be good if the loop could be somewhat free of the crosswalk. I am thinking of how, at the Winnipeg airport, as people try and drop off and pick up they are not paying attention to the cross walk and it seems quite dangerous for pedestrians and those coming from the parking area. | 1/28/2023 11:17 AM |
| 143 | Additional bike racks. | 1/28/2023 11:05 AM |

| | | |
|-----|--|--------------------|
| 144 | Where is the wheelchair accessible parking? Entry? Are doors wide enough for wheelchair entry, and automatic? | 1/28/2023 11:04 AM |
| 145 | Recycling area looks small - and it's such a busy spot! | 1/28/2023 10:59 AM |
| 146 | All the proposals are good. Implementation should be better esp that side of the recycling area. Anesthetically speaking, it would give the centre a better look and more interesting to visit. | 1/28/2023 10:56 AM |
| 147 | Staff entry at back of building is too secluded. There should be a seating area for staff to relax during breaks. Having a patio area for outdoor activities to be done with children and older adults in the fresh air and slightly shaded is important to include | 1/28/2023 10:54 AM |
| 148 | Do not sacrifice parking spaces for cosmetic appearance | 1/28/2023 10:46 AM |
| 149 | There needs to be more outdoor seating. No need for EV charging stations. | 1/28/2023 10:36 AM |
| 150 | There is no family bathroom for when parents want to help change their children that aren't allowed in the other gender bathroom. I was hoping that would have changed in the renovations. | 1/28/2023 10:35 AM |
| 151 | Safer turning lane from ness into the civic center.... Maybe a set of lights where the cross walk is. Improved snow removal on the curb to improve visibility when exiting going east bound. | 1/28/2023 10:27 AM |
| 152 | Basketball is so popular amongst teens and young adults. I can see a real need for an indoor court (and a nice outdoor court with proper flooring - like the Valour Clifton Site near garbage hill). The teens also like extended hours. I'd also love a coffee and pickle ball in the am. | 1/28/2023 10:15 AM |
| 153 | And where is the [REDACTED] parking lot. Seriously stupid. There isnt enough parking now when parents are there with hockey etc. we dont need bunch of new greenspace we have winter 8 months a year | 1/28/2023 10:14 AM |
| 154 | I can not locate EV station on drawing. It looks like a car can only get from the east side to the west side of the parking lot via the front of the building. There should be another cross over further from the entrance of the building. | 1/28/2023 9:57 AM |
| 155 | DO NOT CLOSE RINK WHILE IN CONSTRUCTION!! The high school already lost a year and 1/2 of their home rink time and was forced to drive 30mins away for practices at times parents can't drive while in work. Civic is the only close rink for those sturgeon kids and hockey | 1/28/2023 9:52 AM |
| 156 | There are always piles of trash near the recycling bins. This should be monitored better. | 1/28/2023 9:49 AM |
| 157 | Please don't close the civic centre again. The parking lot is fine as is. We waited years for this facility to open back up and will be so disappointed if it has to close for an extended period of time again. Please please don't close it again. | 1/28/2023 9:49 AM |
| 158 | Why should the city be paying for people to charge their EVs. We never had free gas stations at community centers. I don't believe the city should pay for people to charge their EVs. | 1/28/2023 9:32 AM |
| 159 | Lack of any recognition, discussion on landscape maintenance and snow removal & storage | 1/28/2023 9:29 AM |
| 160 | - please provide parking spots for expectant mothers | 1/28/2023 9:29 AM |
| 161 | Bike racks need more security a small gate or other deterrent for easy access to open area of bikes | 1/28/2023 9:28 AM |
| 162 | More bike space.. make it feasible for people to actually bike there. Maybe have the recycling towards the back. Where it can be monitored better and not be an eye sore to everyone else. Have signage to where to go. I can't tell if there's an actual place to drop off at the front of the building. Also, designated parking spots for parents/children would be nice. If you have seating, will you have a cafe for people to enjoy beverages? Expanding and creating a better/bigger pool. | 1/28/2023 9:27 AM |
| 163 | The recycling area is going to be a hot mess. It's already awful and it's open. Can you imagine the amount of people that will illegally dump in that corner? Lots. | 1/28/2023 9:19 AM |
| 164 | The proposed site and parking lot design is good but there is a lack of safe infrastructure in the area for those walking or cycling. Ness Ave has a speed limit that is too high and there should be a pedestrian corridor to enable residents that live south of Ness to safely cross the street. | 1/28/2023 9:08 AM |

| | | |
|-----|---|-------------------|
| 165 | It would be great to bike and know that there was a very secure area for the bike. Perhaps with security cameras | 1/28/2023 9:07 AM |
| 166 | Just bike racks do not provide a safe and secure space. | 1/28/2023 9:06 AM |
| 167 | I think drop off space will still be overwhelmed. I admit though that you may not be able to improve that. | 1/28/2023 9:06 AM |
| 168 | Recycling should be elsewhere such as curbside at homes and apartments | 1/28/2023 9:06 AM |
| 169 | Safety and cleanliness inside and out. A lovely , inviting mural depicting the building's use | 1/28/2023 8:59 AM |
| 170 | I wish the pool was upgraded to be like walnut grove community pool in Langley, BC! | 1/28/2023 8:57 AM |
| 171 | Don't put the ev charging spaces as all the closest spots. The parking lot is terrible right now and the vast majority of families do not have electric vehicles. Plan to install them later if you want | 1/28/2023 8:50 AM |
| 172 | I think the recycling should be moved or monitored by personnel to ensure area is not over flowing and a messy area. | 1/28/2023 8:49 AM |
| 173 | The driving path to drop off recycling looks limited and tricky resulting in a bottle neck if many cars were in the area. It would be nice to have an exit path that was straighter by moving the treed parts of the parking lot over to the right more. The outdoor sitting area tables look disorganized, maybe space them out more symmetrically? And add flowers/planters | 1/28/2023 8:48 AM |
| 174 | I would have expected to see more bicycle parking to encourage active transportation from the nearby community. | 1/28/2023 8:47 AM |
| 175 | Some sort of parking for mothers with small children | 1/28/2023 8:43 AM |
| 176 | Parking lot with plugs to plug in cars in the winter | 1/28/2023 8:40 AM |
| 177 | I can't tell from the diagram where the EV charging stations are. I also am not sure how big the recycling drop off area is or how it would work. | 1/28/2023 8:33 AM |
| 178 | EV parking spaces are a luxury for some, not a necessity. | 1/28/2023 8:26 AM |
| 179 | im worried about a net loss of parking, this is a busy site. seems like a lost opportunity to include a splash pad or playground. | 1/28/2023 8:26 AM |
| 180 | It looks to be like there will be less parking and a harder time moving around the lot. Not necessary. | 1/28/2023 8:22 AM |
| 181 | Difficulty interpreting design, don't know what green circles represent | 1/28/2023 8:17 AM |
| 182 | More outdoor seating, and picnic tables, more secure way of locking bikes, with a roof to protect from the elements. | 1/28/2023 8:11 AM |
| 183 | Please consider including an outdoor basketball court | 1/28/2023 8:09 AM |
| 184 | Do not like the way rows are configured. It makes it harder to find an empty space. Finding an empty space is very easy now. Why do you need outdoor sitting? Who is going to sit there? Will there be other outdoor activities like a playground or splash pad? If not, that's wasted space. | 1/28/2023 8:05 AM |
| 185 | Mulch will get dirty and migrate | 1/28/2023 8:04 AM |
| 186 | Where are the outdoor seating and gathering spaces? Where is the bike parking? where is the EV charging stations? | 1/28/2023 7:40 AM |
| 187 | Recycling looks cramped. Could become bottleneck if card lines up to use. Could also be tight when trucks come to empty. Bad location near busy entrance/exit lane. Possibly move to another area or leave as a linear space with one way traffic flow. | 1/28/2023 7:21 AM |
| 188 | Improved car entry/exit into the parking lot. Also, in addition to recycling, a composting area/drop-off site would be great! | 1/28/2023 7:16 AM |
| 189 | I'd like to see covered parking for vehicles. | 1/28/2023 7:11 AM |
| 190 | The recycling configuration as drawn appears to indicate switching to rolling residential carts. Or the scale is extremely wrong. The recycling is heavily used by residents, there are many | 1/28/2023 7:07 AM |

| | | |
|-----|---|--------------------|
| | dumpsters that are often very full. Reducing the size could be a problem at this point. | |
| 191 | The trees are a nice touch as long as it does not impede on safety. Someone crouching in the bush while you are getting in your car. | 1/28/2023 7:03 AM |
| 192 | The raised speed bump/walkway are difficult for people with mobility issues to navigate. A lot of people mistake them for parking spots. They are also hard to keep free of ice in the winter. It would be nicer to have staff parking where staff enter the building - that walk would be unsafe at night/early morning to the parking area out front. The sitting areas are nice but facing a parking lot is loud and unattractive. Placing it on the side of the building facing green spaces is better. The ramps proposed for the accessibility parking aren't great. They require constant maintenance in the winter and the incline is too steep for someone without a powered wheelchair to navigate. This design was done at the Bill & Helen Norrie Library and every person who has accessibility issues complains about the design, the walkway, and the lack of an accessibility ramp from the parking lot (without having to climb the walkway speed bump) - the public sidewalk requires a step up instead of offering an incline as well. Hopefully the recycling area will be picked up more frequently, otherwise that area will end up being a mess. | 1/28/2023 6:55 AM |
| 193 | I think that spending money on a greener parking lot is wasteful. It's not necessary and having a seating area welcomes loiterers to hang around and cause trouble | 1/28/2023 6:45 AM |
| 194 | If this is what they want to do yes but that's not there yet | 1/28/2023 6:44 AM |
| 195 | EV parking spot is not shown on the map. | 1/28/2023 6:41 AM |
| 196 | The lot does get very full so taking up space for a greener parking lot is a wonderful idea however, I think minimizing the green space would be beneficial to everyone who uses the space including seniors who often can't walk far distances. | 1/28/2023 6:37 AM |
| 197 | 1) The entry/exits need to be wider. Find the current opening very narrow as you enter from Ness if there is a vehicle trying to exit. 2) is parking enough? Looks like inadequate parking, which will send cars into the residential side streets. | 1/28/2023 6:27 AM |
| 198 | Stalls for families with young children | 1/28/2023 6:26 AM |
| 199 | Bike parking is more secure if the racks can be seen from inside. Preferably line of site from reception. | 1/28/2023 5:11 AM |
| 200 | Please include child care for parents to use facilities | 1/28/2023 4:30 AM |
| 201 | There should be a walking track | 1/28/2023 2:31 AM |
| 202 | I can't tell if the bike rack space is big enough to allow for bike trailers etc, and if there is a clear and safe bike route through the parking lot to access them. | 1/27/2023 10:54 PM |
| 203 | I think the parking lot now is fine. It's big and lots of space for cars. I also use the recycling bins and find them very convenient. I'm more concerned about putting the money into the building rather than a parking lot. As long as there are spots for people with parking permits, I feel the lot is good. | 1/27/2023 10:50 PM |
| 204 | Please do not plan to loop city busses....just "team" busses....less frequent | 1/27/2023 10:39 PM |
| 205 | Just try not to get rid of too many parking spots | 1/27/2023 10:30 PM |
| 206 | I ranked EV as neutral because I couldn't see where it is on the picture. It's a good idea. I also couldn't see where a bus/drop-off loop might be. At the front of the building? not sure. Anyway, I can't comment on those because I don't know where they are. The bikes seem like they might be vulnerable to theft, maybe? Dunno | 1/27/2023 10:27 PM |
| 207 | The way the lot is designed looks like way less parking spaces and like people will have to walk way further even if there isn't many people parked there. That will suck in winter. | 1/27/2023 10:08 PM |
| 208 | Looks great. So excited about the outdoor studio and seating areas. So glad to see trees and a walkway - always worry about my kids in parking lots and dedicated pedestrian path is good to have. | 1/27/2023 9:15 PM |
| 209 | The drop off loop cuts through any pedestrian traffic there may be. Asp, recycling drop off will quickly become an eyesore and mess - can't it be put someplace where it's more hidden? | 1/27/2023 8:58 PM |
| 210 | I don't think it's accessibility and parking are issues. | 1/27/2023 8:39 PM |

| | | |
|-----|--|-------------------|
| 211 | I don't think people will use outdoor seating, the funding would be better used elsewhere. People come to civic for indoor recreation, then leave with family. | 1/27/2023 8:14 PM |
| 212 | Thanks for the trees but what the world needs is LESS parking. An outdoor seating area looking over a vast parking lot is not really a beautiful vista to gaze on even IF you actually manage to plant most of those trees and keep them alive. That bike parking looks extremely inadequate. There should be quintuple or more that number of spots. There should be a roof over the bike parking area so it's less unpleasant to use it in rain and snow. There should be a fixit stand and/or space on the campus for a small community run bike shop (cf Bike Lab at U of W). The bike racks need to be designed to be easy to with today's bikes (i.e. not those ridiculous long metal racks from the 1970s). That means mountain bikes AND cruisers. That means ebikes and cargo bikes of all shapes and sizes. The new recycling drop off area has insufficient detail to determine if it's better. The lack of compost facilities on site is a grave omission: I'm sure the community would love it if there were a biovator on the site so they could bring their household waste to compost all year round and take away finished compost to use in their gardens. | 1/27/2023 8:13 PM |
| 213 | I think the outdoor seating is too close to the front doors/exit. I feel smoking and loitering could be a concern as well exits blocked if an emergency occurs. I would move the seating area further away | 1/27/2023 7:53 PM |
| 214 | There is no need to spend money on outside seating. The money can be used in improving the changing rooms right now. The parking lot space for each car looks tight. People are driving bigger cars and they will take up to stalls or cause tight space unable to get in/out of the car, especially for seniors and familes. | 1/27/2023 7:25 PM |
| 215 | When Hockey practice or games are on, the parking lot is already congested. Good luck with your new design. Looks nice but I don't know how effective / user friendly it will be without having to walk a mile to get to the entrance. | 1/27/2023 6:52 PM |
| 216 | Because it will be a poplar space for seniors, could there be a bus stop just out side the doors? Meaning, could a transit bus pull into the parking lot via Woodlawn St, stop in front of the building and then leave via the exit back on to Ness Ave. Even if this only happened during business hours, it would be a great help to those who have mobility issues, especially in the winter months. | 1/27/2023 6:39 PM |
| 217 | Please bring back textile recycling! | 1/27/2023 6:35 PM |
| 218 | Drop off could be better. | 1/27/2023 6:25 PM |
| 219 | Is there enough space in the recycling area for Christmas trees? Have you actually counted how many cars are in the parking now when there is a hockey tournament, swim lessons and something going on in the auditorium? Are you adding parking spaces or just reconfiguring where people park? | 1/27/2023 6:12 PM |
| 220 | Hooks in the locker rooms | 1/27/2023 6:00 PM |
| 221 | Minimize the recycling area even more to prevent it from being another dumping ground. | 1/27/2023 5:49 PM |
| 222 | Some of the features are just hard to interpret or understand. | 1/27/2023 5:44 PM |
| 223 | Wider walkway or 2 walkways a distance apart. Would be safer when exiting vehicles to enter or when leaving building. Shorter distance to walk to building. Lighting at bus stop area. | 1/27/2023 5:36 PM |
| 224 | When it gets really busy at the Civic, the parking lot is full. Your proposed plans appear to eliminate a substantial amount of the existing parking for the sake of some greenery. This will force people onto side streets, which residents will not appreciate. The proposed extra greenery around the lot is sufficient. | 1/27/2023 4:43 PM |
| 225 | Looks exciting! | 1/27/2023 4:32 PM |
| 226 | Recycling area is always a mess. Bins are too small or not emptied often enough. We... NEED... as many parking stalls as possible. Skip the EV thing...stupid. No dumb curbs in the parking area... to hard to clean for snow removal machine operators. Everything should be low or no maintenance. | 1/27/2023 4:11 PM |
| 227 | Only that the parking lot is a longer walk to the entry doors. I have never seen it as a problem myself but people who have complained about it have given understandable reasons. | 1/27/2023 3:39 PM |
| 228 | I was hoping the expansion would improve and expand the weight room. I don't see this on the | 1/27/2023 3:36 PM |

design. Also, the greener parking lot is better but it could even be greener. I would like the City to use native plants like prairie grasses that do not require maintenance and help our environment. This is more sustainable. From the un-detailed plans released, it appears to be grass.

| | | |
|-----|---|--------------------|
| 229 | Perfect | 1/27/2023 3:17 PM |
| 230 | The proposal scares me cause u will probably shut down our access to pool etc. woman's washrooms r abhorrent. Need upgrading so close it up again. U do not think of everyday needs of citizens to access fitness facility . Very long winters . | 1/27/2023 3:15 PM |
| 231 | Increase the handicap and seniors parking areas. There can never be too many. | 1/27/2023 3:10 PM |
| 232 | Compared to existing parking lot, the proposed design is constricted and may back up traffic on Ness during peak use hours. Unit paver walkway absolutely necessary? Expecting a lot more walk-up patronage? | 1/27/2023 2:39 PM |
| 233 | There should be no leaf or tree branches dropped off in parking lot and recycling should be dropped off in the rear of civic center, not in the parking lot. | 1/27/2023 2:25 PM |
| 234 | Current parking is ok | 1/27/2023 2:04 PM |
| 235 | I would not leave my bike in the designated location without security due to high theft rate. | 1/27/2023 2:04 PM |
| 236 | It is crucial that the pedestrian walkways, including snow clearing, be maintained to a high standard to ensure accessibility for people with disabilities. | 1/27/2023 1:53 PM |
| 237 | Certainly in the 55+ area but I also hope that elsewhere in the building that there might be a common room or meeting area. A place for people just to drop in and sit, meet, talk and use the wifi.Perhaps in an enlarged cafeteria where perhaps people could sit and relax while waiting for friends/family to finish their activities. Let's make the new SJCC a model upon which future community centres are based upon. | 1/27/2023 1:45 PM |
| 238 | Expansion of the building to accommodate more people & programs but less parking space. We will need MORE parking space, not less. | 1/27/2023 1:39 PM |
| 239 | More bike racks, more trees | 1/27/2023 1:25 PM |
| 240 | spend the money on the amenities not the parking lot | 1/27/2023 1:22 PM |
| 241 | Number of spaces available. | 1/27/2023 12:51 PM |
| 242 | What is proposed looks great! | 1/27/2023 12:07 PM |
| 243 | Snow removal will be complicated with trees plantef | 1/27/2023 7:57 AM |
| 244 | More accessible parking | 1/27/2023 2:17 AM |
| 245 | Monitored Bike cage would be preferred | 1/26/2023 10:51 PM |
| 246 | I think you will be eliminating too many parking spots which are required during hockey games | 1/26/2023 8:43 PM |
| 247 | We should discourage the use of cars as much as possible. | 1/26/2023 8:32 PM |
| 248 | Was hoping to see a outdoor basketball court, which would be very well received by a large number of youth in the neighborhood. | 1/26/2023 6:44 PM |
| 249 | Eliminate recycle depot. Construct a R4 depot elsewhere in St James in industrial park off of Moray | 1/26/2023 5:41 PM |
| 250 | Increased distance to entrance | 1/26/2023 4:31 PM |
| 251 | There should be a dedicated cross street with a light. The current cross walk is still fairly dangerous as cars don't consistently stop even when the light is pushed. Pushing a button should trigger a red light for safer crossing for children and the elderly walking to use the centre. We live close by and will walk to cross and we have to cross at sharp where there is a light. Anywhere else just feels really unsafe with young kids. | 1/26/2023 4:13 PM |
| 252 | Why not have an outdoor seating area at the side of the building where the grass and trees are as well as a smaller waiting area for pick up and drop off out front. The number of parking spots must not be reduced but rather increased. A water station is essential. | 1/26/2023 3:30 PM |

| | | |
|-----|---|--------------------|
| 253 | Ensure there will be enough parking spaces before adding 'gathering' space. More greenery would be nice though | 1/26/2023 1:24 PM |
| 254 | It's really really hard to know from one schematic 2D picture whether any of this will meet my expectations. Very poor survey design. Show me photos / renderings, a digital 3D model, walk throughs... or at least just ask me what's important. Honestly this question was a waste and I don't see how you're going to get useful data as people will be mostly guessing... | 1/26/2023 12:52 PM |
| 255 | Access from local bike trails | 1/26/2023 10:56 AM |
| 256 | Guildford Street is spelled wrong on the site plan. Also, basketball court (indoor or outdoor) would be welcomed. | 1/26/2023 10:39 AM |
| 257 | I don't see a drop-off loop | 1/26/2023 10:34 AM |
| 258 | Not sure why trees and green space is being added to the middle of a parking lot. Maximum parking space should be the priority. | 1/25/2023 6:37 PM |
| 259 | Don't need trees taking up spots and shedding on cars | 1/25/2023 4:25 PM |
| 260 | Why is there no mention of upgrading the sound system in the auditorium? This would be a huge asset. Maybe you could add this idea to your think tank. | 1/25/2023 3:28 PM |
| 261 | A garbage drop off for large items that don't fit into a home bin would be good to add to the recycling area. | 1/25/2023 2:59 PM |
| 262 | The recycling area is often unkept and messy. Not sure how to fix but an observation | 1/25/2023 11:17 AM |
| 263 | I would like more information about the safe and secure bike parking. Is it inside? Is it monitored? | 1/24/2023 11:02 PM |
| 264 | As a woman going to SJCC early in the morning before the sun is up, my first thought of extra trees and bushes etc is that its more dangerous to walk in the dark in the parking lot (despite lighting) because more places for attackers to hide. I prefer the open space because I know my surroundings at all times. Clearing snow around these obstacles is going to be costly and who is going to be paying these costs? Us. | 1/24/2023 9:46 PM |
| 265 | Recycling area looks like you could get blocked in. Or 1 person pulling in could block anyone else from getting near the bins. The line of bins now allows you to pull up along side to find an less full bin. A little more like a drive thru which kind of like. Think of what a [REDACTED] would do to block off the recycling alcove and that's what will happen unfortunately. | 1/24/2023 9:32 PM |
| 266 | The expansion should not cut down on the number of parking spots. | 1/24/2023 9:11 PM |
| 267 | Size of recycling area and potential mess, not sure if that is a wall around it? | 1/24/2023 8:51 PM |
| 268 | Keep lots of parking. | 1/24/2023 8:38 PM |
| 269 | Parking may be a problem at peak uses, | 1/24/2023 8:32 PM |
| 270 | to have a greener parking lot with trees and landscaping will use up the parking spaces that is there now. | 1/24/2023 8:18 PM |
| 271 | Won't be enough parking | 1/24/2023 8:09 PM |
| 272 | It's just a giant parking lot. Super disappointing to see more investment in green space and active transportation. A "greenified" parking lot is the bare minimum. | 1/24/2023 7:32 PM |
| 273 | Doesn't look like there will be enough parking. Green space is nice, but not if it means you can't park. | 1/24/2023 7:28 PM |
| 274 | Adding trees and green islands will make snow removal in the parking area a very difficult problem. | 1/24/2023 7:06 PM |
| 275 | Why is there so much parking? I don't have a car and my first thought when looking at the image is that this place wasn't built with me in mind. I really don't want to ride my bike through that parking lot. And it looks like the bike parking would almost fit in a vehicle parking space. With the rise of cargo bikes, you need more space. I am also doubtful that secure bike parking will mean anything beyond a poorly designed bike rack | 1/24/2023 6:53 PM |
| 276 | It must be made a priority to make the crossing at Ness and Woodlawn as safe and accessible as possible! The improvement to the crosswalk is fantastic, more must be done for handicap | 1/24/2023 6:20 PM |

accessibility year round. The sidewalk leading towards this proposed expansion is currently blocked by snow (Woodlawn north of Ness). Snow clearing should also be a concern! The lot will be reduced in size, hope the east parking lot is opened!

| | | |
|-----|--|--------------------|
| 277 | The bike infrastructure is shockingly poor. There should be protected and ideally secured bike storage available. Prioritizing cars induces demand, to make cycling a viable option to get to this destination it needs to be made as easy as possible. This would also include protected cycling space in addition to the proposed walk path. That way cyclists are not fighting for space with both pedestrians and cars. Parking lots are a big safety concern as everyone has so many things to watch out for. | 1/24/2023 3:54 PM |
| 278 | Na | 1/24/2023 1:06 PM |
| 279 | Concerns about curb appeal of recycling depot. Close to front street. Possible room behind building? Fencing to contain mess and yard waste? Current area is unsightly and garbage blows all over area. | 1/24/2023 12:51 PM |
| 280 | This land should not be used for a huge parking lot. Cut it in half (at least) and make the rest a community garden, a meadow or anything else. Please please don't waste our community space on a huge parking lot. | 1/24/2023 12:20 PM |
| 281 | This design is does not seem to match your initial mandate for this center. Even some of the parts that are supposed to be finished NOW are still not done. For example, the changing areas to the pool still lack basic features like hooks and storage areas. The pool area was opened while these change rooms were unfinished. This new "surprise" addition to the front of the building does little if anything for practical use. If anything, it will limit parking severely. There is no need to add benches or trees outside. I was to believe that this project was supposed to be done this year or later this year. This architect's schematic shows a heck of a lot more work to be done. Are all these superficial things an after thought? Is this going to take another 4-5 years? The planning of this is ridiculous. I live within walking distance to this place and yet I will continue to go to Centennial Pool instead of what ever this is. | 1/24/2023 12:07 PM |
| 282 | Bike racks are not sufficient isn't. Covered secured bike parking would be preferred and cyclists would need a secure, seperated route not through a parking lot to get to it. I want my 9 year old to be safe biking to swim class, and currently there isnt a safe way for them tonget to the bik lock up. Connection to the bus stop is minimal and unless the centre walk way is raised and protected by bollards it will not be safe. | 1/24/2023 11:51 AM |
| 283 | I didn't see EV charging stations. Also the area in front didn't look like cars or busses could get through. | 1/24/2023 11:46 AM |
| 284 | indoor bike parking necessary for winter bikers and bike safety | 1/24/2023 11:45 AM |
| 285 | Biking isnt secure (a rack is still going to result in theft), insufficient EV charging (not in line with city net zero 2050 plan). excessively geared towards cars. you are re-enforcing a car centric city. | 1/24/2023 9:08 AM |
| 286 | Because I can't read this well, I would stress the importance of a bus loop directly to the front doors. Many elderly patrons cannot walk the distance from Ness Ave. | 1/24/2023 8:21 AM |
| 287 | I'd like to see more greenspaces and and outdoor gathering areas. | 1/24/2023 6:44 AM |
| 288 | I strongly oppose using such a large proportion of this land for car infrastructure. Parking lots induce demand for driving, which is inherently unsustainable aand harms us all. This space should be primarily for people, not cars. Every single parking space takes away space that could be used for people infrastructure, like outdoor exercise equipment, play structures, wading pools, and the many other things which are of far more equitable benefit than parking spaces. Parking is the worst possible use of land space. Improve transit and cycling access and keep the space given to cars to an absolute minimum. The outdoor seating area will be far more pleasant, quiet, and safe (i.e. less polluted) if it isn't next to a driveway. | 1/24/2023 1:24 AM |
| 289 | Is the pedestrian walkway something that can be driven over?Otherwise, how do cars turn around if there are no available spots? | 1/23/2023 11:14 PM |
| 290 | Recycling area possibly congested as fewer vehicles are able to access bins at the same time. | 1/23/2023 8:37 PM |
| 291 | I am interested only in the pickleball courts being expanded for indoor play and at less cost for drop in than at the other facilities in the area. The indoor courts at Norberry Comm Centre and | 1/23/2023 8:11 PM |

| | | |
|-----|---|--------------------|
| | Lindenwoods Comm Centre are good examples of what I would prefer at St James Comm Centre for indoor play. | |
| 292 | Super charger for EV | 1/23/2023 6:24 PM |
| 293 | We just don't want the transition to be a long one. We really missed it when it was closed for so long | 1/23/2023 6:22 PM |
| 294 | Recycling should be farther back or hidden behind a decorative wall as it makes the place look messy and dirty when full | 1/23/2023 5:31 PM |
| 295 | Bring public transit stop closer to the front entry off of Woodlawn and out adjacent the re - cycling exit onto Ness. Will encourage safer and more convenient drop-off for seniors, young families, and disabled users. The main entry and outdoor sitting areas need more landscaping not only to buffer the view of harsh concrete and asphalt but to soften a rather stark and sterile building facade/entry. | 1/23/2023 4:46 PM |
| 296 | Would love to see an area to watch the pool and a family change room. | 1/23/2023 4:00 PM |
| 297 | Will there be enough space for vehicles to park beside the recycling bins? It looks like the proposed spot for the recycling bins can only fit 1 vehicle at a time (maybe 2, but it would be tight). Residents usually park beside the bins because it is easier to unload their items that way. It is rare for customers to park in a stall and walk to the bins as carrying all their items would be inconvenient. | 1/23/2023 2:13 PM |
| 298 | Please remove the recycling drop off. No one uses it correctly. There are always boxes and garbage laying in the parking lot because of this. | 1/23/2023 1:13 PM |
| 299 | Would like to see more trees to shade vehicles. | 1/23/2023 1:00 PM |
| 300 | Will there still be the same number of parking stalls | 1/23/2023 12:46 PM |
| 301 | Accessible parking spots should only meet code minimum requirements as to not take away ordinary spots. With this much development of the parking lot there appears to be fewer spots than already exist. When the facility is busy and its the winter, ie parking free for all, spots are limited. If the snow clearing plan includes removal from site you'll be ok if its just push and pile, parking spots will be at a premium. While buses and active transport are great in the summer parents hauling a kid to hockey are bringing a car for sure. The unit paver sidewalk is visually pleasing but raises concerns regarding long term durability, safety, and accessibility. 1) pavers do not allow for a thorough of snow removal as cast in place concrete, 2) pavers are extremely susceptible to deicing chemicals, even the so called less corrosive ones, I just ran into the problem on a large local stadium, 3) unless installed with extreme care and diligence in preparation of the sub-base pavers move with the soil creating displaced bricks which are a trip hazard for all but especially mobility impaired people. Go all out an build a structural slab side walk on piles or at minimum a good grade beam. It will cost more now but the long term savings will be worth it. | 1/23/2023 12:43 PM |
| 302 | Keep in mind the plan for Canada is to move all new vehicle sales to fully electric vehicles by 2035. The parking lot design should allow for the quick and easy addition of more charging stations, or even the removal of the ones that are in the plan. | 1/23/2023 10:31 AM |
| 303 | more trees please! bike parking does not appear secure | 1/23/2023 9:49 AM |
| 304 | Let's be honest: there's no safe place to park a bike in Winnipeg. The drop-off loop will become a parking loop for parents that are too lazy to walk 30 feet. I don't see any EV charging stations. On the whole, I like the redesign. | 1/23/2023 9:34 AM |
| 305 | way less parking spaces. Can't access one half of the parking lots from the other half, unless you drive past the front which would mean more traffic driving where everyone is walking to the facility. | 1/23/2023 8:38 AM |
| 306 | Access from bus stop during the winter is poor due to snow piles and lack of from stop | 1/23/2023 1:58 AM |
| 307 | Greener parking lot should have tiles that let rainwater flow through. Greener parking lot could have vertical gardens instead of trees or could have fruit bearing trees. | 1/22/2023 6:55 PM |
| 308 | I find accessible parking is underutilized when too many spaces are provided, and drop-off spots are abused - people are virtually parked there for half an hour checking their cellphones, and sometimes even leave their vehicles, and there are ten cars at a time idling "dropping off" family members who are nowhere in sight. There should be NO drop-off spots at all. NONE. | 1/22/2023 3:03 PM |

Accessible parking is already there for people who can't walk far distances. Those who are able-bodied, including children, can walk from a regular parked space with their families. Adults can park, turn the car off, and walk their children to the door if they feel safety for the children is an issue.

| | | |
|-----|---|--------------------|
| 309 | The bus stop will need to line up exactly with the sidewalk area so that people will actually use it instead of walking across the parking lot diagonally. | 1/22/2023 10:31 AM |
| 310 | Bike parking looks inadequate. Covered bike parking would encourage cycling, even in winter. EV charging mentioned but I don't see it on the diagram. | 1/22/2023 9:45 AM |
| 311 | Would like the parking lot to be smaller, to allow the public space in front of the building to be larger | 1/22/2023 1:27 AM |
| 312 | Need family change rooms. I can get my disabled child dressed in the bathroom but then they still have to go through the "wrong gender" change-room with me to get to the pool. Could modernize the changing room into a universal change room with individual stalls | 1/21/2023 10:22 PM |
| 313 | Get the recycling out of there it's a total eyesore and people abuse it dropping off all kinds of garbage. it's a total eyesore for st James. If trees and green space take away parking spots forget it as expansion will already take away parking spots. get the recycling bins and programs out of that parking lot! | 1/21/2023 9:42 PM |
| 314 | It's beautiful, but because it has a southern exposure, the outdoor sitting areas would be a more usable with a canopy and/or trees for shade. In the summertime drivers always seek out the shady places to park, so the more trees the better. | 1/21/2023 4:45 PM |
| 315 | Video surveillance and enforcement of illegal dumping in the parking lot | 1/21/2023 4:17 PM |
| 316 | Please don't make the parking lot turning radius so tight that you feel like you can't move and the spots so small that you can't get into them safely. | 1/21/2023 4:02 PM |
| 317 | Exiting the lot to go east or entering from the west is difficult or challenging. Entering from the north lane holds up traffic and a left turn exiting is dangerous and challenging | 1/21/2023 3:14 PM |
| 318 | I don't like the use of paving stones. Over time, they shift and create an uneven surface. In winter it can't be cleared of snow very well except by hand, creating icy spots. Could not find the EV charging stations on the diagram. | 1/21/2023 1:23 PM |
| 319 | Looks fantastic | 1/21/2023 12:07 PM |
| 320 | Trees growing in concrete areas is not ideal. It compromises both the tree and the concrete overtime. | 1/21/2023 10:28 AM |
| 321 | Excising the parking lot onto Ness is already difficult because the fence impedes visibility of west bound traffic on Ness. Please don't add more greenery in this area that would further impede visibility. | 1/21/2023 10:13 AM |
| 322 | I think that for seniors who may have lost their license due to old age, having the public transit stop where it currently is, means that they have a long walk to get to SJCC. And especially in the winter, when the sidewalks may not always be shoveled. It would be much preferable if the bus could also use the dropoff loop similar to the loop at Grace Hospital. Or even if you can use some of the lawn on the East side next to Woodlawn street, that strip is very wide and I think that paving some of that, it can be used as a bus loop for both the curling club and Civic Center. It seems to me that this should be feasible. Access for seniors is a critical part of a community center, especially Civic since there are many seniors who prefer this facility in particular, with regards to it being a warm pool that is good for folks who get cold very easily. | 1/21/2023 10:11 AM |
| 323 | Safety of the parking lot wasn't mentioned. I would rate safety for people and their property as 'very good'. A bright, well lit and openly visible space. | 1/21/2023 7:30 AM |
| 324 | Get rid of the recycling. It is always a mess in the area with people dumping!!! | 1/21/2023 7:10 AM |
| 325 | The city must plan for how the parking will be managed in winter. This site blows in a lot due to proximity to the open area from the airport. Also how will the city manage all the illegal dumping of trash in the parking lot? | 1/21/2023 6:58 AM |
| 326 | Connection to existing bike routes would be important | 1/21/2023 6:33 AM |

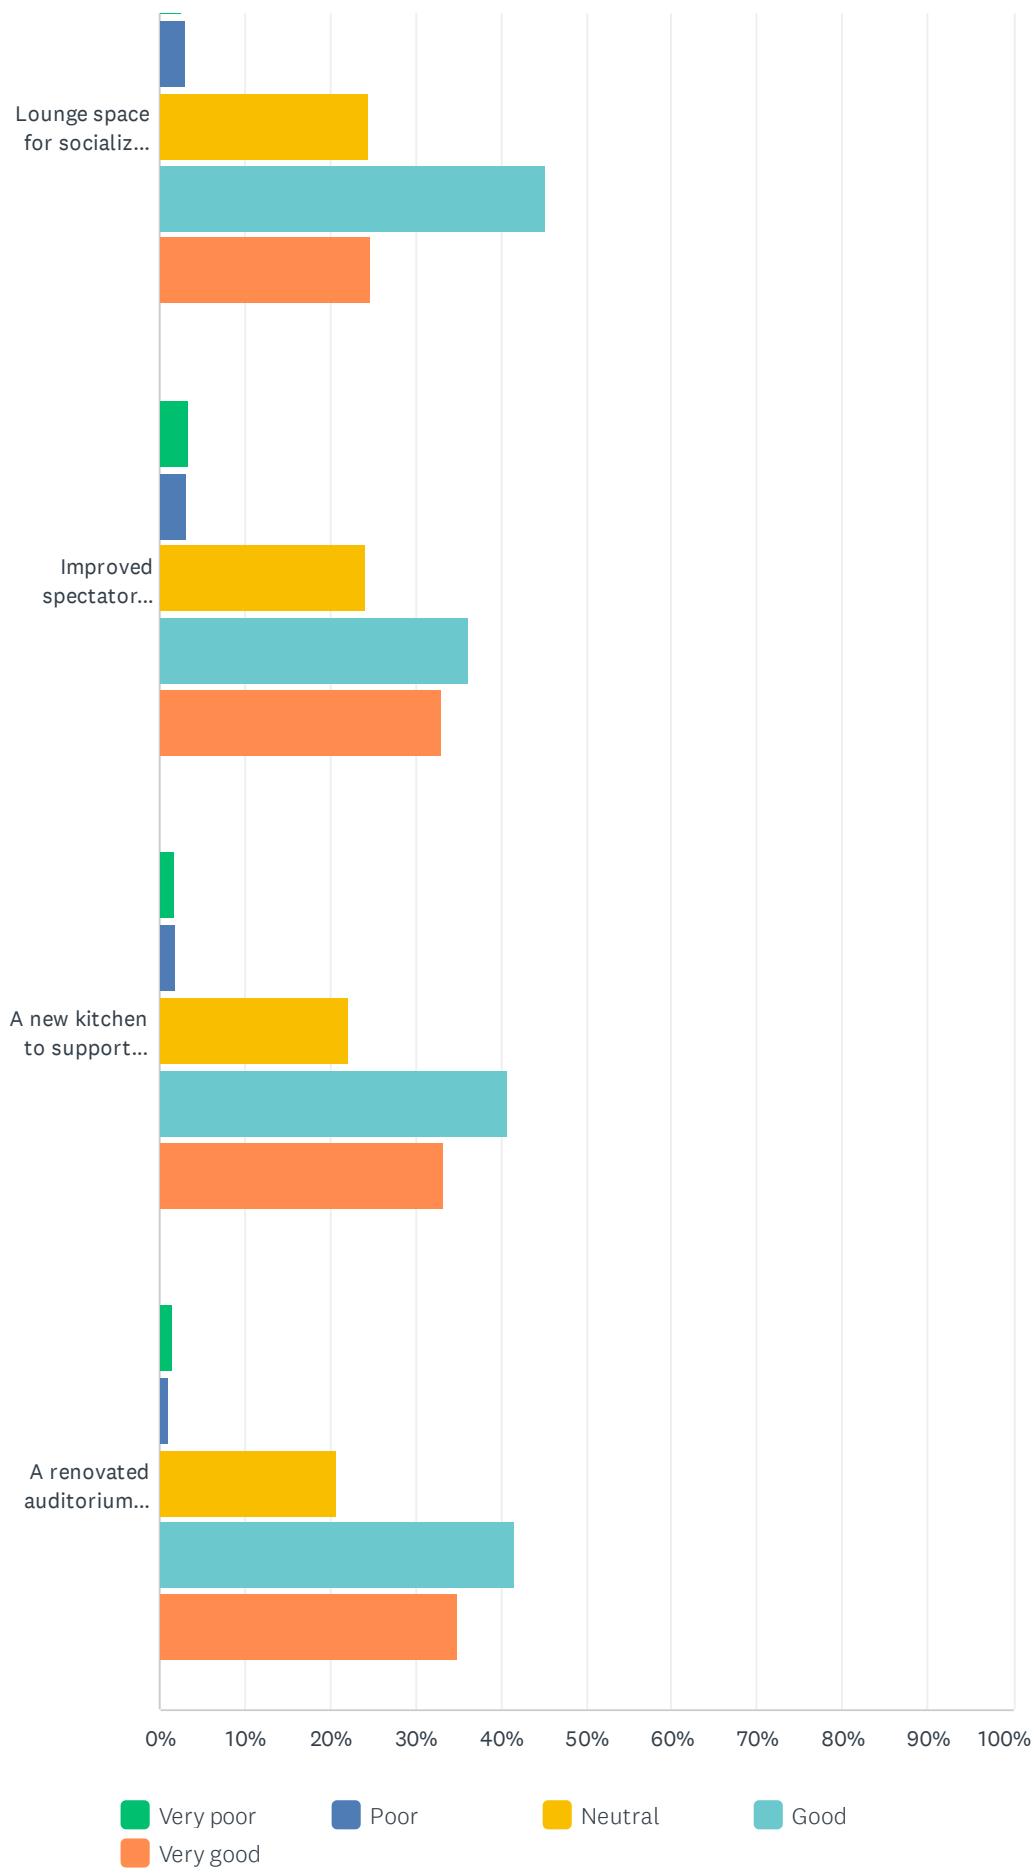

| | | |
|-----|--|--------------------|
| 327 | The crosswalk should be close to the bus stop on the south side of ness. I'm not clear from the drawing if this is the case. | 1/21/2023 4:19 AM |
| 328 | I don't think Winnipeg should continue to prioritize cars over pedestrians in urban planning. The design of the civic centre should incentivize winniepeggers to re-imagine public space and encourage people with different modes of mobility to share the space. there is no designated path way for pedestrians and cyclists to get through the parking lot safely to the centre. Again, you can design this space with multi-usage rather than single usage. Like most of the parking lots in Winnipeg, designs like this are often under used and inefficient. Urban sprawl is not what we need anymore. | 1/20/2023 11:59 PM |
| 329 | We need a 4R depot in this area of the city where we can drop leaf waste off. | 1/20/2023 11:18 PM |
| 330 | Please no need for huge cost of EV chargers and infrastructure. I would much rather see that allocated funds go into the centre it self like a nice indoor soccer area with turf would be huge. People who buy Evs have the means to charge them at home. I don't agree with free electricity to the rich people who buy them. Please put that \$ into the civic centre it self. Thanks. | 1/20/2023 10:59 PM |
| 331 | Having trees allows places for people to hide. Makes it more dangerous for night time activities | 1/20/2023 10:32 PM |
| 332 | Leave the recycling area as is | 1/20/2023 10:27 PM |
| 333 | Enclosed bike racks would be better with all of the bike thefts. Should be more EV chargers if thats the route we are taking | 1/20/2023 10:22 PM |
| 334 | I am all for adding the trees but if it reduces the amount of cars that would not be okay. It is such a busy parking lot at times and with the increased amenities there would only be more cars. Increase the amount of trees at the side if needed. Please do not get rid of spots! There is barely any street parking near. | 1/20/2023 10:16 PM |
| 335 | The recycling drop off area doesn't look very big and a U shape could traffic issues/congestion. Also I think the whole first row of parking should be accessible parking spaces. | 1/20/2023 9:52 PM |
| 336 | Handicap parking spots. Not clearly visible. Don't forget the significant increase in seniors and need for more handicap parking will increase. | 1/20/2023 9:42 PM |
| 337 | Bike racks are not secure enough. Need a cage, with video, and ideally a human guard, or better anti-bike theft laws with harsh penalties for thieves. | 1/20/2023 9:33 PM |
| 338 | With the increasing demand of electronic cars being built and bought, Winnipeg centres should look ahead to the future and ensure there are enough EV stations in their parking lot. Consider the fact that winniepeg's population and not just the surrounding community because this centre will end up attracting more people due to the EV stations and thus the centre. | 1/20/2023 8:37 PM |
| 339 | All of the expansion ideas are physical changes that a landscape architect or building architect would come up since their mindset is about physical changes in the look and feel. I am interested in better use of the facility for programming usage (steak) not look and feel (sizzle). | 1/20/2023 7:48 PM |
| 340 | Cost is too high. | 1/20/2023 6:55 PM |
| 341 | Having the accessible walkway include a bike lane. | 1/20/2023 6:17 PM |
| 342 | Reduce the size of the parking lot, it definitely doesn't need to be that big. It's a community space, so most people should feel comfortable to walk or bike from around the community. Expand the space for pedestrians and accessibility by bike. | 1/20/2023 6:13 PM |
| 343 | You have only 14 million to work with and while I appreciate many of the proposed improvements, I have 2 concerns. First, the current women's change room adjacent to the pool is totally inadequate for the number and age of the women taking aqua classes. We are packed in there like sardines and have only 2 benches to sit on while we get changed. We need a far bigger change room and more benches. (Many older women like me can't dress or undress standing up.) Secondly, I'm concerned that the facility will be closed for the renovations for another long period of time. Can there be a tempory, alternate entrance to the building while the renos are happening? | 1/20/2023 5:47 PM |
| 344 | There is still too much room designated for parking. How are we going to become a greener city if we still design buildings and space with cars primarily in mind? The bus shelter should | 1/20/2023 5:04 PM |

| | | |
|-----|--|--------------------|
| | be expanded and the 24 and 83 route should be able to loop into the lot by the entrance. And the bus shelter should be redesigned to become heated. | |
| 345 | Too much..FLUFF. Everything needs to functional. Too many trees, then later... nothing in the budget for maintenance. Forget about EV stations. Recycling needs to be very convenient for all goods. | 1/20/2023 4:26 PM |
| 346 | Make sure there are lots of spots to sit near/under trees. (So please make sure there are several benches and many trees.) In the summer, the south-facing side of the building will be hot, and particularly after exercising, while waiting for a ride, people will need shade in order to avoid heat-exhaustion. | 1/20/2023 4:19 PM |
| 347 | This place needs more parking spaces not less, there's never any parking in the lot when we go and if you're adding at this other stuff to waste space it will be even worse than it is now. | 1/20/2023 4:12 PM |
| 348 | More wheelchair accessible parking is definitely needed. And the cracks in the pavement/sidewalks need some repairs. | 1/20/2023 4:12 PM |
| 349 | Re align the boulevard to turn into the parking lot from east bound Ness. The cut needs to go further east. | 1/20/2023 3:46 PM |
| 350 | none of them are needed | 1/20/2023 3:28 PM |
| 351 | looks amazing and aligns with modern public facility features and services. | 1/20/2023 2:47 PM |
| 352 | It would be good for the expansion to connect expand upwards and connect with the next door curling club to allow for larger events, such as curling bonspiels, larger folklorama pavillions, with more space and meeting rooms. Also there is a lot of park space and roadway space at the back of the arena and on the sides of the arena that do not appear to be addressed in this plan. Can those areas be better utilized and improved. How can we ensure there is enough parking? | 1/20/2023 2:36 PM |
| 353 | I think a bare minimum, basic yet functional, safe and clean space would accomplish the purpose and save tax payer money | 1/20/2023 2:31 PM |
| 354 | I'd like to see inclosed bike parking - at least some kind of vestibule. It would also be great to see a dedicated or shared bike path from Ness Avenue to the building. Parking lots are not particularly safe for cyclists and you probably don't want bikes on the centre walkway. | 1/20/2023 2:22 PM |
| 355 | Parking lot is over designed and inefficiently utilizing the available space. Budget should be prioritized towards improving the facility itself. Can bike storage ever be "secure" in this city? Unless it was actively monitored I would not feel safe using it. Recycling layout does not provide easy access for vehicles and will be hard for multiple vehicles to use at once. | 1/20/2023 2:21 PM |
| 356 | Is the bike space really secure? It's off to one side. Is the walkway from Ness raised through out the parking lot to ensure Drivers go slow. | 1/20/2023 2:20 PM |
| 357 | Do not expand this facility | 1/20/2023 2:17 PM |
| 358 | The access to the recycling area seems tight. | 1/20/2023 1:52 PM |
| 359 | Parking lot is still way bigger than it needs to be. Bus stop should be expanded. | 1/20/2023 1:50 PM |
| 360 | Need more handicap parking | 1/20/2023 1:48 PM |
| 361 | Create a path connecting to the existing bike path. | 1/20/2023 1:31 PM |
| 362 | The current parking lot is too small when there are classes/hockey game on at the same time. This diagram of proposed changes decreases the amount of parking available. You need more not less parking. | 1/20/2023 1:26 PM |
| 363 | You should preserve and move the present concrete entrance canopy, which is a nice and attractive sculptural and historic element. | 1/20/2023 12:46 PM |
| 364 | I was hoping to see a secure bike storage area rather than bike racks outdoors. I would also like to see more outdoor seating and more natural landscaping. | 1/20/2023 12:16 PM |
| 365 | No | 1/20/2023 12:14 PM |

Q5 The expansion of St. James Civic Centre includes a proposed addition with new multi-purpose program spaces, as well as renovations of the existing lobby and auditorium spaces to provide improved program opportunities for the community. Please rate the following proposed building design aspects from 'very poor' to 'very good':

Answered: 1,382 Skipped: 172

| | VERY POOR | POOR | NEUTRAL | GOOD | VERY GOOD | TOTAL | WEIGHTED AVERAGE |
|---|-------------|-------------|---------------|---------------|---------------|-------|------------------|
| A new, welcoming entrance to the building | 2.10% 29 | 2.39% 33 | 20.48% 283 | 42.91% 593 | 32.13% 444 | 1,382 | 4.01 |
| A variety of flexible, multi-use program rooms | 1.30% 18 | 1.30% 18 | 17.15% 237 | 47.03% 650 | 33.21% 459 | 1,382 | 4.10 |
| Activity spaces for all ages and abilities | 1.23% 17 | 1.23% 17 | 15.34% 212 | 42.91% 593 | 39.29% 543 | 1,382 | 4.18 |
| Lounge space for socializing in small groups | 2.60% 36 | 2.89% 40 | 24.46% 338 | 45.30% 626 | 24.75% 342 | 1,382 | 3.87 |
| Improved spectator viewing for the swimming pool | 3.40% 47 | 3.26% 45 | 24.10% 333 | 36.18% 500 | 33.07% 457 | 1,382 | 3.92 |
| A new kitchen to support programs, community events and rentals | 1.81% 25 | 1.95% 27 | 22.21% 307 | 40.74% 563 | 33.29% 460 | 1,382 | 4.02 |
| A renovated auditorium providing more flexible program options | 1.59% 22 | 1.09% 15 | 20.69% 286 | 41.61% 575 | 35.02% 484 | 1,382 | 4.07 |

Q6 If any of the aspects of the proposed building designs do not meet your expectations, please tell us why in the space below.

Answered: 307 Skipped: 1,247

| # | RESPONSES | DATE |
|----|---|-------------------|
| 1 | How difficult is it to get program time in the gym? Is there enough demand for a second gym? Regarding the kitchen, would there be a commercial sterilizer? It makes cleanup faster and of course makes dishes cleaner than handwashing. | 2/9/2023 12:47 AM |
| 2 | It would have been more cost effective to incorporate these changes in the last renovations that were completed SO recently. | 2/8/2023 9:06 PM |
| 3 | No coffee shop! People like to have a snack post work-out or post swim with friends. Where is the entrance to pool viewing area. What if kids need to talk to caregivers? or lifeguard has to access caregiver? | 2/8/2023 6:59 PM |
| 4 | Viewing area for the pool is not needed | 2/8/2023 6:24 PM |
| 5 | The new kitchen concept is for overall general use. The current St James Assiniboia 55+ centre has cooking classes and events. they make and sell soups, chili, cookies, and baking. They wouldn't want all their stuff to disappear. Soap, towels, sponges, baking pans, packaging, and baking goods for sale. For crafting and arts 55+ should have dedicated, lockable storage, to keep stuff secure | 2/8/2023 10:57 AM |
| 6 | Please keep the existing pool glass wall. Pool really needs a family change room! | 2/8/2023 12:42 AM |
| 7 | "family" washrooms/showers are needed. As a mother of 3 young boys who swim, they shouldn't be in the women's shower room and they are too young to be left unattended in the men's. A gender neutral washroom is not an adequate solution. | 2/7/2023 9:19 PM |
| 8 | The current viewing area for the pool is atrocious with parents sitting on the floor. The new proposed design does not look like it adds enough seating and it looks very closed off. It is a great idea to add a designated viewing area with seating but maybe keeping the current window and adding seating (since it is no longer the entranceway/hazard) should be considered. | 2/7/2023 8:54 PM |
| 9 | The St. James Assiniboia Centre should be provided with a first right of refusal during daytime hours for the joint use space. Needs a separate cloak room. | 2/7/2023 4:21 PM |
| 10 | Bigger and Better viewing area of the swimming pool along with a family change rooms. | 2/7/2023 1:59 PM |
| 11 | We just need a bench in front of the current pool window. Please don't close the St James Civic centre again! It is functional now, was just renovated, and we need it open so our children and community can use it! | 2/7/2023 1:59 PM |
| 12 | viewing area could be better designed to accommodate the many parents that attend swimming for Seals practice | 2/7/2023 1:42 PM |
| 13 | A new lobby was already done in the previous renovation that took away important seating. A new pool viewing area will be great, but I don't understand why they couldn't have just left the bench by the window when the building reopened if they're going to tear it all down anyways. Will the auditorium be a proper gymnasium or still a space that is in limbo? It would be much better used as a gym than a tile floor covered in tape. | 2/7/2023 1:00 PM |
| 14 | Family change rooms for swimming. Improved viewing are for the pool is good. | 2/7/2023 12:26 PM |
| 15 | I do not feel as though all ages and abilities would feel welcomed | 2/7/2023 12:02 AM |
| 16 | Having a "third place" in the community would be excellent addition to the community. Much better than hanging out at Timmies. | 2/6/2023 7:51 PM |
| 17 | I DO NOT SEE SPACE FOR COAT RACKS IN YOUR PROPOSED DESIGNS | 2/6/2023 3:41 PM |
| 18 | Indoor tennis court would be a huge welcoming addition to this facility. It would allow seniors to | 2/6/2023 3:04 PM |

stay active in the winter.

| | | |
|----|--|-------------------|
| 19 | Why do we need spectator viewing for the pool. Also, there's is nothing wrong with the current entrance way which was already improved in the 2 year closure beginning on 2020 | 2/6/2023 12:35 PM |
| 20 | The new design does not indicate the inclusion of a family change room for the pool area. | 2/5/2023 11:24 PM |
| 21 | Are you meaning if I think the idea of this is good? | 2/5/2023 10:03 PM |
| 22 | I hope that there have been surveys to determine whether a community kitchen would be used. I can't believe that there is not an opportunity to improve the changing areas for the pool. It is very limited, and the coat rack has still not been brought back, which makes it hard during the winter. There seems to be a lot of "fluff" and not as much attention to basic needs, such as the change room. The added space seems quite cut up. Glad to see the retractable stage | 2/5/2023 9:01 PM |
| 23 | I do not support the expansion to include extra sitting and visiting areas. I don't feel this is needed in a community site and will likely be not used if there isn't a restaurant there. I don't see people coming to picnic and sit at the patio tables just to chitchat at a community site. A much better use and design of the space would include an indoor play area for children, including a play structure and Expanded pool area. We need our community centres to provide a variety of indoor activities and areas to help keep our city healthy during the long winter months. | 2/5/2023 8:07 PM |
| 24 | End for a universal washroom with an adult change bench | 2/5/2023 7:43 PM |
| 25 | There needs multiple family AND private changing facilities for the pool. I was surprised this wasn't addressed the first renovation but more surprised not included in your plan. | 2/5/2023 11:47 AM |
| 26 | Windows please | 2/5/2023 11:15 AM |
| 27 | Safety in the swim change rooms. Anyone can enter them, unseen from the current desk. | 2/4/2023 6:39 PM |
| 28 | There does not appear to be anywhere for coats/boots etc for any of the auditorium, studio rooms, multi-purpose room. | 2/4/2023 1:42 PM |
| 29 | I wish there was an indoor walking track/ route developed as a part of the overall Design. | 2/4/2023 1:17 PM |
| 30 | Why is there a need to have people watch while swimming? | 2/2/2023 8:50 PM |
| 31 | Comfortable spectator space for pool is very important. Parents/grandparents must stay while children swim. | 2/2/2023 6:24 PM |
| 32 | Not clear how much storage for equipment to be used in the auditorium there is - right now the storage room is very inadequate. | 2/2/2023 4:44 PM |
| 33 | See note from previous question. Building design does appear to be attractive in initial drawings. | 2/2/2023 10:38 AM |
| 34 | Money spent on making entrance appealing is wasted space and cost. Take a look at the monstrosity "atrium" that St Boniface Hosp put up. Never used by people- glass is freezing in winter and burning in summer, noisy dead space. Upgrade current auditorium with movable walls and tracks to make bigger or smaller rooms as need arises. Auditorium needs good audio visuals. Need charging stations (charging shelf?) for iphone tablets etc Seating for pool is essential. Currently there is none. Kitchen good idea to help entice rentals. Small rooms a waste of space and wont be used. Better to put a full size gym for volleyball and basketball- can rent it out for school tournaments/ drop in play/ community clubs. Minimise halls/ dead space. Consider adding a canteen - hockey events in particular will have opportunity for income- look wt the IcePlex- they make lots of sales of snacks/coffee/drinks. | 2/1/2023 8:02 PM |
| 35 | Where will the coats and boots go in the auditorium and other rooms? There needs to be enough space for people to be able to sit if they need to when they take off / put on their boots. | 2/1/2023 5:48 PM |
| 36 | Could not the existing bathrooms in the gym both be gender neutral to save the expense of building 1 new one. The same for the existing kitchen, why build another. | 2/1/2023 4:31 PM |
| 37 | I thought the funds were for a 55+ facility but appears that has been scrapped? | 2/1/2023 3:04 PM |
| 38 | Welcoming entrance, lounge space, etc. and no allotments where to put boots and coats. | 2/1/2023 10:57 AM |
| 39 | Maybe be that first aid room to the other side of the pool where you want to put the viewing | 2/1/2023 9:56 AM |

| | | |
|----|---|--------------------|
| | area and make that first aid room a specialty change room. Your doing all this stuff to the building and neglecting the people who use the pool who have accessibility issues. | |
| 40 | Nothing done to pool. Lack of speciality family change rooms for pool area. Lack of accessibility in change rooms for pool. No where for people who don't identify as male or female to change | 2/1/2023 9:48 AM |
| 41 | A seating area should be provided at the swimming pool viewing area | 2/1/2023 9:29 AM |
| 42 | It would've been nicer if the weight room and equipment had been expanded, and possibly an indoor running track added as well. | 2/1/2023 9:18 AM |
| 43 | questioning if it will be adequate for the 55+ centre Don't agree with a community kitchen, would prefer an onsite food service provider. Don't see a community kitchen being used frequently and question maintenance There's currently a wind tunnel through the front entrance and don't see that changing and it appears too narrow at the doors Would like to see tables and seating in the main area for pool viewing | 2/1/2023 9:14 AM |
| 44 | The pool spectator space looks small. The diagram does not indicate what makes the spaces flexible for a variety of programming. | 2/1/2023 6:46 AM |
| 45 | Please make sure there are gender neutral change rooms Please add a hot tub and sauna | 1/31/2023 7:51 PM |
| 46 | Would like to access services safely. | 1/31/2023 6:13 PM |
| 47 | It is hard from this single perspective image to meaningfully judge many of the proposed design aspects. | 1/31/2023 5:04 PM |
| 48 | multi-purpose rooms should be sound proof or noise dampening for quiet activities like yoga and meditation, but it looks like the floor planning has taken this into consideration by locating them away from high traffic/noise areas. | 1/31/2023 4:10 PM |
| 49 | The SJCC already has a new, welcoming entrance to the building. | 1/31/2023 3:33 PM |
| 50 | There is a need for a better sound system in the auditorium | 1/31/2023 12:59 PM |
| 51 | Where are change rooms for the studio? Will the floor in the multi-purpose room be multi-use (gym classes, dance, baby-friendly)? [Spectator viewing area and entrance to studio seem to be very "tunnelled" looking at the map. Have safety concerns been addressed? Is the new kitchen a commercial kitchen? | 1/31/2023 12:21 PM |
| 52 | I really appreciate you sending me this survey. I would suggest a small, ergonomic indoor playground for the little ones. Slides are very important to children but I know they would also enjoy small representations of basketball hoops to pretend to play a sport, kitchen and workbench pretending to build something. Thank you | 1/31/2023 10:55 AM |
| 53 | The last time I used the locker & fitness rooms they were cramped and awful. Both centennial and Sargent park have excellent spaces. Could something be incorporated to give the civic centre a similar feel. | 1/31/2023 9:19 AM |
| 54 | I'm not a regular visitor at old facility. It's difficult for me to compare with new layout. | 1/31/2023 8:30 AM |
| 55 | I do not see any handicapped washrooms in the swimming area. As a parent of a handicapped adult who swims 3x per week it is very important to have a toileting area that is private and large enough to facilitate changing my adult daughter. I was disappointed to see last time I was there that there is no such designated space although there are plenty of unisex washrooms and I see plans for gender neutral washrooms in the future. Are handicapped persons not deserving of this consideration? You can contact me directly if you have further information or plans that I am not aware of. I can be reached at [REDACTED] I am part of Community Venture Family Network Executive, (Salvation Army Day Programs for Adults) and will be sharing my concerns with our committee as well. One of our day services is located in the neighbourhood at the Grace Hospital. . | 1/30/2023 10:31 PM |
| 56 | No lounge space. That just attracts noisy hockey kids that roughhousing | 1/30/2023 9:43 PM |
| 57 | BEFORE THERE IS A VIEWING AREA, THERE NEEDS TO BE MONEY SPENT TO DEVELOP A FAMILY CHANGE ROOM AT THE POOL, COAT RACKS OUTSIDE THE CHANGE ROOM, HAND DRIERS IN THE CHANGE ROOMS, MORE SPACE IN THE CHANGE ROOMS, AND SOME FULL LENGTH LOCKERS. we do not need more viewing space. | 1/30/2023 8:48 PM |

| | | |
|----|--|--------------------|
| 58 | Entrance area is fine. Lounges are not necessary as there are places where people can gather in small groups close by. Spectator viewing area is sufficient as many spectators are viewing their phones more than their children! Would be interested to know what plans have been proposed to offer more flexible program options. THIS FACILITY CANNOT BE ALL THINGS TO ALL PEOPLE! Choose some areas that would be a good fit for many and do a good job with that! | 1/30/2023 8:02 PM |
| 59 | There needs to be a change room for mixed gender's. | 1/30/2023 7:27 PM |
| 60 | Please have a truly accessible washroom in the pool area with a large enough change table to change older children and adults. There should be one in the pool and one in the centre so it can be truly inclusive. My daughter has special needs and needs a dignified place to change her. Right now it's on the bathroom floor and this is not dignified never mind unsanitary. | 1/30/2023 4:49 PM |
| 61 | Weight room and locker rooms really need improvement. | 1/30/2023 4:15 PM |
| 62 | These are all good suggestions but some of us have grown families so it is hard to answer "child/sport/rec" and family related questions. | 1/30/2023 4:08 PM |
| 63 | Is there a coffee bar in the design? | 1/30/2023 4:06 PM |
| 64 | Bring back seating for swimming utterly ridiculous, hockey is not the only sport | 1/30/2023 3:54 PM |
| 65 | Family change rooms for pool usage. This would also apply for persons requiring extra assistance from caregivers of opposite genders | 1/30/2023 3:12 PM |
| 66 | Was hoping for a larger weight room and track, for walking/running. Something similar to Centennial. | 1/30/2023 2:49 PM |
| 67 | "gender neutral washrooms"? | 1/30/2023 2:35 PM |
| 68 | The old areas of the Civic Center also need to be renovated...especially the changing rooms and the showers. Clearly we need to maintain these areas. Renovations are needed to bring cohesion to the Civic Center (old and new). | 1/30/2023 1:41 PM |
| 69 | Viewing in pool area is sufficient. | 1/30/2023 1:16 PM |
| 70 | The plan looks very generic and is subject to budget allocation. The auditorium is currently used for fitness classes and there are no change rooms available. This is a big deficiency. I also wonder about space for coats, boots, etc for people attending programs. The current auditorium needs a complete upgrade - I hope that is part of the plan. | 1/30/2023 12:07 PM |
| 71 | need space for boots/coats in auditorium, studio, multi-purpose room with seating (for putting on boots). filtered water dispenser for filling water bottles. A proper sound system for music/microphone in line dancing class. Also for the line dancing class, which is large, another large space required while facility is shut down and a space reasonably close by for the people in the area. | 1/30/2023 11:52 AM |
| 72 | No canteen | 1/30/2023 11:50 AM |
| 73 | Will there be any natural light at all in the pool area? Also I will miss the awesome mid-century look the existing building has. One question - why wasn't this done all at once when the building was closed for 2 years? | 1/30/2023 10:36 AM |
| 74 | The fact that the gender neutral washrooms do not connect to the pool are a HUGE PROBLEM. I took my 7 year old daughter and 9 year old son swimming (I'm a mom) and had to send my son into the men's washroom alone. My daughter and I walked into the women's change room, and there was a middle aged man in there, helping a disabled woman. My daughter and I were very upset and spoke to the life guard staff. I was unable to safely bring my son into a 'family' change room, because there is none, and he is too old to go into the women's washroom (for good reason) and yet that man had to be in the women's washroom to help that woman. None of us found the 'gender neutral' bathrooms useful at all, as we would have had to walk into the pool lobby to change, and there are no lockers in there either. How is there no family or disabled/universal change room (with locking change rooms and a common locker room) like most every other pool in the city, at SJCC? I will not go to swim with my kids again at SJCC after than experience. | 1/30/2023 10:33 AM |
| 75 | I am not sure that the proposed changes are worth the cost. | 1/30/2023 9:26 AM |
| 76 | The city can barely maintain what exists now. I do not support new construction where | 1/30/2023 6:28 AM |

maintenance of existing facilities has not been met.

| | | |
|----|---|--------------------|
| 77 | The pool spectator area should be open to the pool to allow parents to reach their children quickly, as well as bigger to accommodate the number of people attending | 1/29/2023 9:41 PM |
| 78 | Bigger pool | 1/29/2023 9:06 PM |
| 79 | The new washrooms are not adequate. This idea was not thought out very well. | 1/29/2023 9:04 PM |
| 80 | Family changing rooms. | 1/29/2023 8:54 PM |
| 81 | As stated earlier, there are very few drop in programs at reasonable hours yet. A full membership is required to access these. There are thousands of seniors in the community that have limited access to all of these programs and are on a minimal budget. All of these registered programs are great, but when you are paying \$800 for drop in programs and very little is available in day time hours without additional cost it is extremely frustrating. | 1/29/2023 8:13 PM |
| 82 | There are 2 washrooms for the 2 existing genders, no need for a "gender neutral" washroom. Also, the centre was closed during the pandemic and millions were spent there...why that wasn't sufficient???? Playing with our money for few more years????!! | 1/29/2023 7:40 PM |
| 83 | new, safer floor in pool change rooms, many slipping accidents witnessed | 1/29/2023 7:29 PM |
| 84 | My concern is will this new design, will the construction close the pool again? The pool was closed much too long as it was with the last construction. Will it be possible to stage the construction in a way the pool and other facilities remain open | 1/29/2023 6:23 PM |
| 85 | Family change room. Family dynamics have evolved, children don't always attend swimming with same sex parent . This is important to add to the existing facility. | 1/29/2023 6:16 PM |
| 86 | The auditorium needs a coat room. There is no place to put your boots and coats. | 1/29/2023 6:13 PM |
| 87 | There is no concession area. I don't mean vending machine. | 1/29/2023 6:08 PM |
| 88 | Parent/family rooms & change areas for parents with kids. Multi purpose room should have closer access to kitchen (side by side). | 1/29/2023 6:03 PM |
| 89 | Accessible changerooms are requires. Currently there are no accessible changeroom facilities. | 1/29/2023 4:33 PM |
| 90 | A canteen is needed for spectators of sporting events | 1/29/2023 4:26 PM |
| 91 | Not enough room/seating for visitor viewing for parents etc | 1/29/2023 4:25 PM |
| 92 | Family change rooms are very necessary for this pool. I do not feel comfortable taking my 7 year old son in a women's change room that has no privacy curtains and women and girls are changing in an open space. I also do not feel comfortable sending him into the men's change room alone. My husband feels the same about taking my daughter into the men's change room. The gender neutral private bathrooms are out beside the rink and require patrons to walk out into the lobby in their swimsuit. Family change rooms with private stalls are the standard in updated facilities. They are necessary for families with young children as well as youth and adults with disabilities who may be supported by someone of a different gender. It is unacceptable that they haven't been added to these plans. | 1/29/2023 4:08 PM |
| 93 | Pool viewing area should be open to the pool so parents can reach their children easily. And be larger for the number of families it's expected to host | 1/29/2023 3:38 PM |
| 94 | We would love to see family change rooms so my husband could take our daughter swimming without having to bring her to the men's change room. | 1/29/2023 1:39 PM |
| 95 | Honestly, I think this expansion is short sighted. Winnipeg is a winter city, and we need more and accessible indoor courts for all sports including soccer, basketball, volleyball, pickleball, etc. Take a look at the Leduc Rec Centre in Leduc, AB to see what I mean. They knocked down the curling rink and expanded the pool, and built a world class fitness facility. It's incredible. It's great the St James Civic Centre is getting a facelift, but it could be so much more than a new kitchen and some multi-purpose rooms | 1/29/2023 1:15 PM |
| 96 | You need to improve your weight area if you want more users. | 1/29/2023 12:28 PM |
| 97 | Better family washrooms for families with littles is a must!! | 1/29/2023 11:34 AM |
| 98 | Entrance and spaces are accessible and welcoming to EVERYONE (including people | 1/29/2023 11:18 AM |

experiencing homelessness, substance use, mental health concerns, etc.) And staff are prepared and equipped to deal with these issues in a myriad of appropriate ways (ie. Connecting to resources, able to de-escalate situations, naloxone available and trained/competent staff team)

| | | |
|-----|---|--------------------|
| 99 | There needs to be a family change room for the swimming pool. | 1/29/2023 10:50 AM |
| 100 | If there was some way to include a walking track that would make it a desirable place to go in the winter. | 1/29/2023 10:40 AM |
| 101 | The swim spectator area looks like it's on the main isle and all standing room only. Will fill up fast and could be bad for some with health issues who can't stand long periods of time | 1/29/2023 10:39 AM |
| 102 | We need a family change room for the pool | 1/29/2023 10:08 AM |
| 103 | The gym and changing rooms are is way to small and crowded. I don't like people being able to stare at people in their bathsuits at all..natural light to the pool should be windows high up near the ceiling. | 1/29/2023 10:06 AM |
| 104 | Perhaps an indoor track could be included? | 1/29/2023 10:06 AM |
| 105 | Will the floor to ceiling windows of the pool have spectator seating? The windows on the south side look small and the space cramped. Windows need to be large enough so everyone that sits can see. | 1/29/2023 9:05 AM |
| 106 | Looks nice. | 1/29/2023 9:00 AM |
| 107 | Pool viewing too small | 1/29/2023 8:29 AM |
| 108 | Need inclusive change rooms for swimming and a way to enter the pool that isn't through gendered change rooms | 1/29/2023 8:05 AM |
| 109 | Games room. Billiards, ping pong, etc | 1/28/2023 9:39 PM |
| 110 | Put new facilities in south east winnipeg | 1/28/2023 7:57 PM |
| 111 | not at this time. | 1/28/2023 7:54 PM |
| 112 | Need upgraded/more active facilities in River East. A pool would be highly desirable | 1/28/2023 5:40 PM |
| 113 | I do not see any family change rooms for swimming | 1/28/2023 5:33 PM |
| 114 | Would like to see a family change room handicap bathroom, place to hand winter coats and boot in change rooms | 1/28/2023 4:22 PM |
| 115 | You need I prove the change room for swimming not room to small no benches no family change room or hang cap bathroom and no place coats and boots | 1/28/2023 4:22 PM |
| 116 | I do not feel that a local community space needs "lounges" for socializing. This is a space for activities and classes and learning. Spaces for socializing are plentiful in other places in the area. The 'socializing' space should be better used for more activities or support spaces. | 1/28/2023 3:40 PM |
| 117 | I feel that the lounge space will turn out to be a mistake, either being misused or unused, in the long term - ultimately a waste of otherwise-potentially-useful space. | 1/28/2023 2:50 PM |
| 118 | I want assuring that the proposed new design is multigenerational and programming for older adults is guaranteed - partnership with St James 55+ Centre | 1/28/2023 2:45 PM |
| 119 | Indoor soccer areas and indoor/outdoor basketball courts should be prioritized. Winnipeg has a lack of quality outdoor basketball options. | 1/28/2023 2:25 PM |
| 120 | Doesn't look like there's a canteen in the plan. | 1/28/2023 2:15 PM |
| 121 | Need continue excellent parking facilities | 1/28/2023 2:05 PM |
| 122 | Better swim change rooms | 1/28/2023 2:01 PM |
| 123 | Make the pool bigger! | 1/28/2023 1:37 PM |
| 124 | Skate park would be a good idea | 1/28/2023 1:13 PM |
| 125 | My wife and I swim and the change rooms are not finished: there aren't enough benches , coat hooks on the walls, provision for snowy boots or winter coats. There a space crunch in the | 1/28/2023 1:08 PM |

change rooms when one class is over and another starts. Consider combining ladies and men's change rooms together for the ladies and new change rooms on the south side of the pool for a new men's change room.

| | | |
|-----|--|--------------------|
| 126 | The change rooms need to be update with more showers a coat rack and some private space for women to change. Also need a gender neutral change room and a family change room | 1/28/2023 12:49 PM |
| 127 | Steam room or sauna needs to be added to the extension. A steam room in Winnipeg! What a concept! | 1/28/2023 12:38 PM |
| 128 | Are the change rooms improved and easily accessible to the fitness area? This is important. Sharing change rooms with the pool means everything is wet and crowded and you have to walk a distance to the fitness area. Same with the washrooms. Are they easily accessible from the fitness area? | 1/28/2023 12:29 PM |
| 129 | For pool viewing suggest some kind of seating be available esp for older adults and those with handicaps | 1/28/2023 12:28 PM |
| 130 | I can't tell if there is bench seating along the wall opposite the public art wall. If not, I would like to see a bench all along that wall. I would also like to see a gender neutral washroom close to the front entrance around the lounge area. I think parents of young kids and people with mobility issues or bladder issues would aporeciate that. | 1/28/2023 12:25 PM |
| 131 | Are the 2nd story areas accessible? | 1/28/2023 12:07 PM |
| 132 | Pool change rooms need upgrading and expansion. Area is small cramped and crowded., only two toilet stalls, lack of change areas, and gets super hot and humid | 1/28/2023 11:54 AM |
| 133 | Where are change rooms/bathrooms that are gender neutral? | 1/28/2023 11:49 AM |
| 134 | I'd love to see actual private change spaces/stalls in the change rooms for swimming. I don't like me and my children to have to strip down in front of others and the bathroom stalls are inconvenient. | 1/28/2023 11:45 AM |
| 135 | How about upgrading the women's aqua change rooms and lockers. They are terrible!!! | 1/28/2023 11:37 AM |
| 136 | A better area for viewing the pool area would be my first and biggest concern. | 1/28/2023 11:32 AM |
| 137 | No kitchen, as it requires to be cleaned and the upkeep for maintenance is too costly. | 1/28/2023 11:30 AM |
| 138 | There doesn't need to be a viewing area for the pool. Parents never watch and are on their phones.leave the viewing area as it is . This whole thing should have been done in the 3 years this complex was closed, why it was closed to begin with. Now you will have to close it again?????? Come on, get serious | 1/28/2023 11:28 AM |
| 139 | I just can't really tell what they look like from the drawing so I will be neutral on my opinion. | 1/28/2023 11:20 AM |
| 140 | Need to add Family Change Room for the Swimming Pool | 1/28/2023 11:17 AM |
| 141 | How is "the improved viewing area" inclusive to a wheelchair user/walker? | 1/28/2023 11:17 AM |
| 142 | An auditorium floor needs to be protected so what programs will be possible that are not sports related? Outdoor shaded seating please No one there who is visible to welcome arrivals to the building | 1/28/2023 11:01 AM |
| 143 | Multi plex space big interest | 1/28/2023 11:00 AM |
| 144 | It is difficult to asses the quality of these aspects from a small diagram. My one concern is having the studio space directly next to a multi use space with no hallway between the two to help with sound bleed. Multi use and studio could both be quite loud and both each other a lot. | 1/28/2023 10:35 AM |
| 145 | Improve the change rooms in the hockey area (doors on bathrooms), more informed staff at reception. | 1/28/2023 10:29 AM |
| 146 | Please renovate the pool and change rooms!!! How could this be excluded from the upgrade?? It is much needed and it is the main reason people come to the facility other than hockey. Please also expand the weights/workout area. The current room is really small in comparison to centennial pool. | 1/28/2023 10:25 AM |
| 147 | I didn't know if you would ask so I commented on the other pages. There is a huge need for basketball amongst youth today. A great outdoor flooring (like Valour Clifton site) is great; also | 1/28/2023 10:19 AM |

| | | |
|-----|--|--------------------|
| | an indoor open court. Pickle ball, and a coffee shop are welcome. | |
| 148 | More parking not less | 1/28/2023 10:16 AM |
| 149 | To bad it could not have been built with a second floor design. | 1/28/2023 10:04 AM |
| 150 | DO BOT CLOSE THE RINK WHOLE IN CONSTRUCTION FOR THE HOCKEY PLAYERS!! | 1/28/2023 9:53 AM |
| 151 | We definitely need spectator viewing for the swimming pool! I have to sit on the floor and watch my child. | 1/28/2023 9:51 AM |
| 152 | Bring back the bleachers to watch the swimming. Please don't close this facility again. My family loves going here and finally are able to after it be closed for years. | 1/28/2023 9:50 AM |
| 153 | City cannot staff Cindy Klassen, why is this even being considered | 1/28/2023 9:31 AM |
| 154 | Improve change rooms to swimming pool! | 1/28/2023 9:25 AM |
| 155 | Accessibility/ Family change rooms, lockers | 1/28/2023 9:22 AM |
| 156 | What does the pool spectator area look like? Benches? Risers? Chairs? | 1/28/2023 9:21 AM |
| 157 | More facilities for art fixtures including pottery wheels, kiln, sculpting space | 1/28/2023 9:15 AM |
| 158 | Pool spectator area looks small. As if it's just going to be a line of chairs in the hall. If this is true, then it's no improvement as there will be times when all chairs are filled. | 1/28/2023 9:10 AM |
| 159 | Will the kitchen be accessible for people using wheelchairs and walking aids? | 1/28/2023 9:10 AM |
| 160 | The covered entry plaza should also block the wind and not create a wind tunnel. A seniors and for young mothers place for meeting and chatting is where? Are there enough washrooms close by to accomodate the various needs? | 1/28/2023 9:08 AM |
| 161 | The city needs an indoor water park and/or wave pool like the one in Portage La Prairie. | 1/28/2023 9:05 AM |
| 162 | Could use more seating in the pool viewing area and rink viewing areas | 1/28/2023 8:54 AM |
| 163 | I believe the multi purpose room should include a kitchen with it to make it easier when renting it | 1/28/2023 8:43 AM |
| 164 | As a member of the St. James-Assiniboia 55+ Centre which is supposed to be moving in here, my main interest is how the Centre's programs/classes will fit into sharing spaces with the community. It's hard to tell if the facility is big enough & has enough rooms to accommodate greater demands. | 1/28/2023 8:40 AM |
| 165 | More cardio | 1/28/2023 8:33 AM |
| 166 | I'm worried that too much parking will be eliminated. I would rather see less outdoor seating space and more parking. | 1/28/2023 8:28 AM |
| 167 | the basketball and raquetball court are a great addition, the rest of it seems out of synch with community need, i would much rather have seen a pool expansion to allow for more swimming lessons which are impossible to get in this area. | 1/28/2023 8:28 AM |
| 168 | So much wasted space. The highly used areas like changing rooms, weight rooms and swimming pool have no changes. | 1/28/2023 8:26 AM |
| 169 | I think you should include family change rooms for the pool so a dad/mom could be with their opposite sex child who is too old to go in the change room with the parent but too young to go to the change room alone. | 1/28/2023 8:12 AM |
| 170 | I use currently the auditorium 3 times a week and would highly suggest that attention be paid to the lighting and sound system. | 1/28/2023 8:11 AM |
| 171 | Make spaces big not small. Little rooms for a community building does not make sense. Why is there lounge space? Is there a coffee shop or food sold here? Otherwise, it's wasted space. | 1/28/2023 8:11 AM |
| 172 | Any updates to change room and pool. Sauna? | 1/28/2023 8:09 AM |
| 173 | Ver hard to see through walls and understand space as presented | 1/28/2023 8:09 AM |
| 174 | It's another suburban amenity. | 1/28/2023 7:59 AM |

| | | |
|-----|--|--------------------|
| 175 | Could you add an indoor splash pad like the the one in Seven Oaks. This is great for small children especially in the winter. | 1/28/2023 7:53 AM |
| 176 | There should be a hot tub | 1/28/2023 7:22 AM |
| 177 | Not in regards to the new area, but, is upgrading the current hockey dressing rooms also an option? Revising the numbering system if the doors would also help players/families not have to walk from one side to the other to find their space. Additionally, the rink space used ti be heated and is now currently freezing all the time! | 1/28/2023 7:20 AM |
| 178 | It's hard to envision, but I hope that accessibility for deaf and blind will be in the plan. It would be nice to see a garden so seniors can care for flowers and veks. | 1/28/2023 7:18 AM |
| 179 | Has the arena concession space been eliminated?? | 1/28/2023 7:12 AM |
| 180 | Coffee shop required. | 1/28/2023 7:10 AM |
| 181 | Just make sure washrooms are accessible and good locations. Also ask a woman about kitchen design | 1/28/2023 7:04 AM |
| 182 | Hopefully changes to the existing change rooms is happening. Having a family changing area is needed - a lot of families are just one parent and two different gendered children. I was never comfortable sending my young son alone into the Men's change room. Please address this!! | 1/28/2023 7:03 AM |
| 183 | Existing change rooms need revamping. There is no where to go to get privacy while changing and it's crowded by the lockers with minimal places to put your bags up off the wet floor while changing | 1/28/2023 6:51 AM |
| 184 | Yes more programs and available after work hours like aqua size make available to people who work more open swimming everyday | 1/28/2023 6:46 AM |
| 185 | The pool space needs a seating area. We use the pool 6 times a week and the amount of complaints the staff get about seating is astronomical. The competitive swim club that swims out of the pool can't even host swim meets because there is no where for people to sit or stand. The pool area needs seating!! | 1/28/2023 6:43 AM |
| 186 | Is there no canteen? | 1/28/2023 6:35 AM |
| 187 | no major issues | 1/28/2023 6:28 AM |
| 188 | There should be washroom access off the lounge area as well as the other bank behind other rooms. Maybe a couple of large ones with access from the outside as well. | 1/28/2023 6:12 AM |
| 189 | The pool is so small it doesn't need a viewing area | 1/28/2023 4:54 AM |
| 190 | Please include a child care facility so parents can use facilities | 1/28/2023 4:32 AM |
| 191 | Difficult to see the pool viewing area, and where you access this from. Did not like that strangers can watch swimming lessons thru glass from lobby. | 1/28/2023 1:07 AM |
| 192 | I think the pool change rooms need to be renovated and made larger. | 1/27/2023 10:51 PM |
| 193 | Major whiplash from having to watch hockey dads wash their hands in the washrooms....seriously no one wants to watch or see others fixing their makeup from the lobby siteline. Bad decision...doors need to be put on washroom entrances...boys/girls/ others washrooms are better....make everyone comfortable....feedback from all St. James hockey parents is awful re: no doors and sharing of bathrooms...sorry...its gross...guys pee on the seats as they dont lift the lids....women are expected to use them after...little girls/boys are at risk with sharing washrooms... As well....play for a clear plexiglass "cover" for the feature wall with hockey legends...kids from St. Boniface Seals were "picking" at the foam...in 2 years the display will be destroyed if no cover. And lastly...huge shoutout for the CANTEEN!!! Canadian culture went down the tubes when this was taken out. Nothing compares to hot chocolate and popcorn nachos etc at the rink!!! If you build it...they will come....(field of dreams...get it??).... Deer Lodge / St. James hockey moms / highschool students can run these for volunteer credits....no hot chocolate machines needed....we need a canteen...hockey in Winnipeg needs it ♥ | 1/27/2023 10:51 PM |
| 194 | I hadn't expected anything, so it al seems lovely to me | 1/27/2023 10:30 PM |
| 195 | The auditorium is dismal. The lighting horrific. I can't believe after all the time the bldg was closed there is very little visible improvement. I thought this too was being done. Now the | 1/27/2023 10:00 PM |

| | | |
|-----|--|--------------------|
| | place will be closed forever again except for the crazy hockey of course🙄🙄 | |
| 196 | We live in cold muddy conditions all new indoor activities are a great investment. Personally would love a large indoor track preferably with padding for joint issues. | 1/27/2023 9:46 PM |
| 197 | Interior building and services mean more. Clean locker rooms, better swimming pool expansion and lane swimming for masters swimmers and not just geriatric and little kids. | 1/27/2023 8:43 PM |
| 198 | I would like to see family washrooms / change areas | 1/27/2023 8:38 PM |
| 199 | It would be wise to add a walking track | 1/27/2023 8:23 PM |
| 200 | Gender neutral bathrooms is a good idea. thank you. | 1/27/2023 8:14 PM |
| 201 | There is not point of using up funds to make the entrance and sitting area beautiful if the change rooms are not adequate. Families would prefer change rooms like the ymca offers oriented towards families and ample space for more ppl to fit in them. | 1/27/2023 7:30 PM |
| 202 | How many millions is this going to cost and how long will the facility be shut down once again. Big blow to tax players money and in the end, how functional will the building really be? | 1/27/2023 6:57 PM |
| 203 | As someone who has used the pool for years, the ladies change room is terrible. Swimming lessons finish right before aquafit starts which makes it chaotic. There is a need for a larger ladies room or a family change room. I feel that need is much bigger than a 'viewing area for the pool. | 1/27/2023 6:44 PM |
| 204 | The current swimming spectator area is cruel. My kid has medical needs so I have to watch attentively while she is in the water. She swims in a club ... I stand on that hard floor for 9 hrs a week. For how much the seals pay, they should also get some outside signage. | 1/27/2023 6:28 PM |
| 205 | Do not see a sauna added. Please also add a sauna with the renos! Heat therapy is great for health | 1/27/2023 6:19 PM |
| 206 | For the swim viewing area if your child is at one end of the pool and the viewing area only has a seat at the other end you can't see.....better not to have so many individual windows but one big window so anyone can view their child no matter where in the pool they are. | 1/27/2023 6:18 PM |
| 207 | Hooks and space in locker room | 1/27/2023 6:04 PM |
| 208 | There are no accessible seats in the hockey rink. Great access but have to sit in the lobby area to watch the game. Build some ramp seating like Eric Coy. Bring back Manitoba Possible wheelchair hockey and adapted sports camps. | 1/27/2023 5:52 PM |
| 209 | Need safe area to hang outdoor clothing, good sized change rooms and places to hang outside coats and store outside foot ware. Places and doors large enough to accommodate wheelchairs and walkers. | 1/27/2023 5:44 PM |
| 210 | I don't see the kitchen | 1/27/2023 5:31 PM |
| 211 | Coffee bar and snack bar in the open air public area | 1/27/2023 4:51 PM |
| 212 | None | 1/27/2023 4:44 PM |
| 213 | The weight room needs to be expanded. There are currently no windows and the space is small. | 1/27/2023 3:36 PM |
| 214 | The arena needs better railings and seating for older people. My husband and I can't do the stairs, end up watching at rink level at glass. | 1/27/2023 2:15 PM |
| 215 | We don't need spectator viewing for the pool improved or extended, that would attract pedophiles and other deviants that we don't need to observe our kids. | 1/27/2023 2:06 PM |
| 216 | I am looking for a return of our coat room with seating for hanging coats & removing boots, changing into sports footwear, just off of or close to the gym. We miss the coat room very much. | 1/27/2023 1:41 PM |
| 217 | The outdoor space looks too modern. It doesn't fit with the neighbourhood. Doesn't look like it would have a welcomign feel. | 1/27/2023 1:30 PM |
| 218 | Make sure everything is accessible | 1/27/2023 2:18 AM |
| 219 | The existing change rooms are horrible. They are way too small, unsafe when you have | 1/26/2023 11:14 PM |

multiple kids to manage. No privacy. Terrible bathrooms. The green wall needs to be designed really well or removed. Thousands were spent on the green wall at the new Women's hospital and they took it out before it even opened due to major issues. Ask for a maintenance plan and be really sure you want to spend money on that. I can 100% guarantee it will be a waste of money. Sad that a shallow pool isn't being added. The plinths used for swim lessons are really dangerous. My child at age 5 almost drown there when a child bumped him off the plinth and the instructors back was turned. Design team should review the Rady. The change rooms are amazing and the pool is much safer for preschool lessons. SJCC viewing space at the front was never an issue. Parents like to be in the pool area to escort their kids to and from the change room. Better off to combine the existing men's and women's into one bigger one and put another change room on the other side. There needs to be family change room too. It's like the designers do not have kids or have never taken any to swim lessons. This is one of the worst locations in the city for swim lessons.

| | | |
|-----|---|--------------------|
| 220 | There should be more focus on young people and less on the elderly. | 1/26/2023 8:34 PM |
| 221 | It's not clear how much more space the pool spectator area will actually create. With the loss of the hallway it doesn't feel like it's actually providing more viewing space. And the windows look small compared to what is there now, large viewing windows that are floor to ceiling. However if it provides seating that is for sure an improvement. | 1/26/2023 4:23 PM |
| 222 | No to gender shared washrooms!! Love the public art space. Not crazy about the growing wall depending on cost and maintenance, I'm not sure it's worth it based on the one I have seen at the Bill and Helen Norrie library. I would prefer to see larger multi purpose rooms than more rooms with less space. | 1/26/2023 3:38 PM |
| 223 | Lobby is already fine. It's a mistake not to update the hockey dressing rooms. Would also like to see hockey training programs contracted out and an expanded gym. | 1/26/2023 2:22 PM |
| 224 | I'm really sick of this awful survey. One single 2D schematic without illustrations, photos, 3D options, or really anything helpful isn't going to cut it. I can't answer the questions with the minimal information provided so I just rated everything very poor because I'm so pissed at how bad this process is. Honestly, hire someone with a degree in data science FFS. | 1/26/2023 12:54 PM |
| 225 | area for coats and boots | 1/26/2023 11:02 AM |
| 226 | More pickle ball courts | 1/26/2023 10:57 AM |
| 227 | The diagram is small and hard to get a good understanding of the proposal. The swimming pool viewing area seems rather small. The diagram does not show how accessible the viewing area will be nor if it's single (main floor) or multi-level. Existing Control desk will be set back and will not be obvious for visitors. Existing Viewing area to the Arena is not accessible for all spectators. Hope that will be addressed in the expansion. | 1/26/2023 10:45 AM |
| 228 | There is nothing wrong with the entrance now. The latest renovations are all that is needed. The centre was already closed for 2 years. Why were more renovations done then? Scale back on plan and let another community centre that needs upgrades get some too. | 1/25/2023 6:37 PM |
| 229 | Gym just needs new lighting and sound system | 1/25/2023 4:27 PM |
| 230 | Women's pool change room needs expansion with benches for seniors to use while dressing and a coat and boot rack area | 1/25/2023 10:48 AM |
| 231 | Pool needs more upgrades, similarities to seven oaks pool, an accessible pool and indoor splash pad | 1/25/2023 8:19 AM |
| 232 | The ceiling of auditorium needs to be raised, or flat, and definitely painted, or white washed. (sprinklers in ceiling?) | 1/24/2023 9:14 PM |
| 233 | Better lighting and brighten the auditorium with coat racks in existing space like it is now. The stage is extremely dark and needs more light and a good sound system that accommodates instructors. | 1/24/2023 8:42 PM |
| 234 | Need water dispensers | 1/24/2023 8:09 PM |
| 235 | The pool viewing area should have seating. | 1/24/2023 7:09 PM |
| 236 | Na | 1/24/2023 1:06 PM |
| 237 | Improvements to the pool area (not just an added viewing area) was expected—ie: hot tub or | 1/24/2023 12:09 PM |

| | | |
|-----|--|--------------------|
| | sauna. | |
| 238 | A whirlpool would be fantastic. | 1/24/2023 12:03 PM |
| 239 | would like to see mention of safer bathrooms (see WRHA safer bathrooms report), sharps disposal | 1/24/2023 11:47 AM |
| 240 | Improvement to the workout area needs to be done | 1/24/2023 10:57 AM |
| 241 | Auditorium space would be useful if enlarged and higher ceilings for badminton and Pickleball. Make more courts comparable to Jonathan Toews centre. Better flooring for SAFER play. | 1/24/2023 8:30 AM |
| 242 | It's not ideal that the pool viewing area is so far from the change room entrances. Also a HUGE issue is the lack of a family change room and I don't see a plan to resolve that here. | 1/24/2023 6:06 AM |
| 243 | See previous comment; this design is far too car-centric and contributes to the marginalization of pedestrians, cyclists, and transit-users. Everyone in the community will benefit from a less car-centric space, including drivers. | 1/24/2023 1:26 AM |
| 244 | Lounge area and front area provide limited seating, in practice. | 1/23/2023 11:18 PM |
| 245 | Pickleball in the city requires many more indoor courts. The existing gym lacks sufficient perimeter space; not only dangerous, but does not allow for proper play. | 1/23/2023 8:40 PM |
| 246 | I am interested only in the pickleball courts being expanded for indoor play and at less cost for drop in than at the other facilities in the area. The indoor courts at Norberry Comm Centre and Lindenwoods Comm Centre are good examples of what I would prefer at St James Comm Centre for indoor play. | 1/23/2023 8:12 PM |
| 247 | Need to get in line with the development of pickle ball in Winnipeg, Canada and USA. Winnipeg West is way behind | 1/23/2023 7:48 PM |
| 248 | Due to slant and poor lighting in auditorium not conducive to racket sports or court sports. | 1/23/2023 6:31 PM |
| 249 | Recommend 4 possible Pickleball courts in auditorium | 1/23/2023 5:37 PM |
| 250 | Could the gender neutral washrooms include change rooms also | 1/23/2023 5:35 PM |
| 251 | .1 A coffee/baked goods concession adjacent the indoor and outdoor sitting luges would be great. Perhaps incorporating it into the new kitchen area. .2 Many people young and old are walking for exercise and many resort to using indoor mall spaces which for many may not be readily accessible. An indoor walking track similar to the one in the Rady Centre and the Centennial Pool/Field-house would be a welcome addition if it can be incorporated. Perhaps the architects could have it so it looked down onto the existing pool, existing hall, new lounge, lobby and entry below. space | 1/23/2023 4:57 PM |
| 252 | Family change room | 1/23/2023 4:03 PM |
| 253 | The women's change rooms need to accommodate more people, there should be family change rooms, a spot for coats or bigger lockers to accommodate winter clothes | 1/23/2023 12:49 PM |
| 254 | The retractable stage gives me pause. The Manitoba Highland Dancing Association rents the space several times per years and has for many years. A high quality stage is of vital importance to them for dancer safety. The have had difficulties in the past with portable/retractable/temporary stages. I would assume that all dance disciplines would feel similar | 1/23/2023 12:47 PM |
| 255 | The location of the kitchen in the middle of the building could make bringing in food challenging. I like the idea overall just wonder if there might be a way to give it more direct loading access to outside | 1/23/2023 10:33 AM |
| 256 | can't tell how the pool viewing is improved. | 1/23/2023 9:50 AM |
| 257 | I note a fireplace in the new entry space drawing. While it is an attractive feature, it ought not to be fired by fossil fuels. | 1/23/2023 9:45 AM |
| 258 | It's tough to tell from the image above, but things look good. | 1/23/2023 9:36 AM |
| 259 | So more space for more activities, but less parking for those attending? How is this good planning? | 1/23/2023 8:44 AM |
| 260 | Would like access to a walking running track during inclement weather & or seasons. The | 1/23/2023 2:09 AM |

weigh room is cramp cold and needs windows for natural light. Weighs are not user friendly, and lacking for certain exercises for body parts. Not sure if they are poorer quality. Currently if u r the only one there lights go off and one needs to move around to get them on. I have to drive all the way to Westwood from King Edward to use proper fitness centre when civic is closer for me.

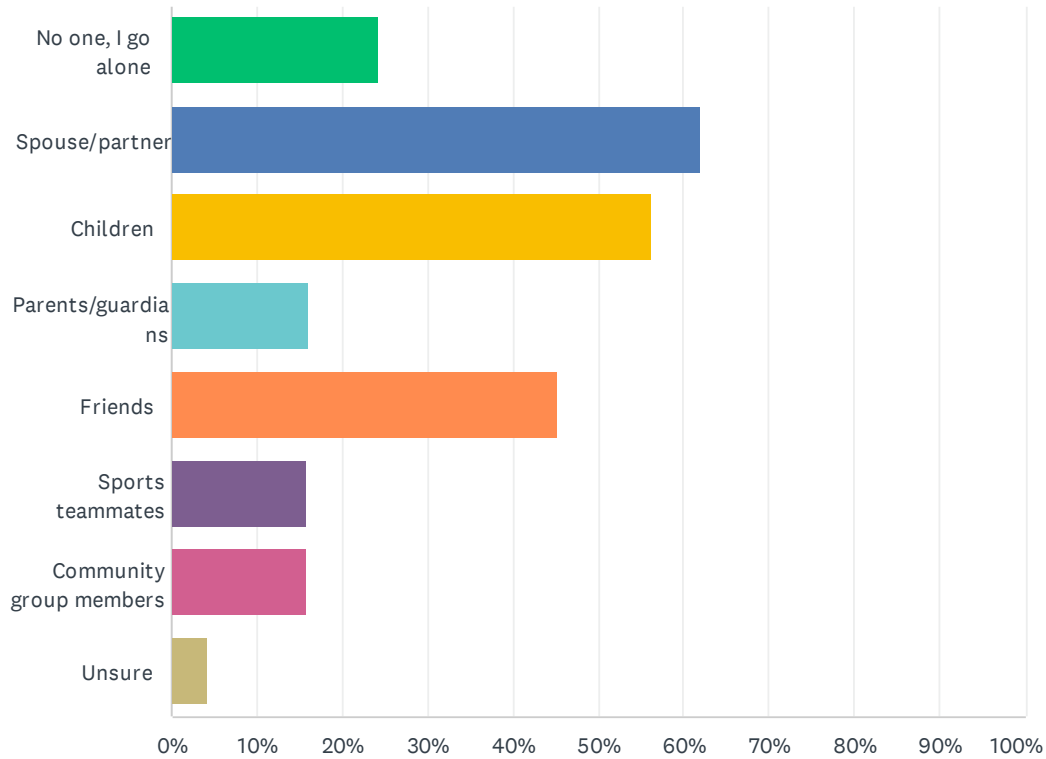

| | | |
|-----|--|--------------------|
| 261 | The kitchen should be next to a multi-purpose room. The multi-purpose room should have chairs and tables available for potlucks, cooking classes, community events. It would be good for the multi-purpose room to have many outlets. If someone wants to hold a class where electric tools are used (sewing machines, 3d printers, etc) | 1/22/2023 7:01 PM |
| 262 | Would love to see a sauna at the site | 1/22/2023 3:00 PM |
| 263 | A dedicated indoor pickleball facility would definitely be used. There is currently a real shortage of indoor space for this growing sport. | 1/22/2023 11:00 AM |
| 264 | A indoor play room with indoor climber/ playground for toddlers and small children is a MUST with this renovation. We need more toddler and small children friendly indoor climbers. The one at YMCA is not toddler friendly at all. Hide n seek is the closest one and expensive to go to | 1/21/2023 11:32 PM |
| 265 | I wish there was above the pool sitting space. Like at the Centennial pool. It's hard to see if your not in the first row. | 1/21/2023 10:43 PM |
| 266 | Family Change rooms for swimming..... | 1/21/2023 5:04 PM |
| 267 | make the pool larger so more people can use the deep and shallow ends to swim or do aqua | 1/21/2023 3:02 PM |
| 268 | I would like to see a hot tub in the pool area | 1/21/2023 2:39 PM |
| 269 | All good ideas | 1/21/2023 12:07 PM |
| 270 | For the pool viewing area, it is hard to tell what it looks like from this picture. | 1/21/2023 10:44 AM |
| 271 | It would be great if a second level was added for a running track and the weight room could be moved into the centre area of the track. Similar to the Seven Oaks Complex. The existing weight room could be used for other activities or expansion of existing services. | 1/21/2023 9:11 AM |
| 272 | Please expand the pool area specifically the women's change room plus if at some point an indoor walking track can be included that would be great | 1/21/2023 9:08 AM |
| 273 | The pool itself seems to be one element overlooked in all phases of this plan. St James can use a full size 50m or larger pool to support its citizens. | 1/21/2023 7:32 AM |
| 274 | They just put in money to upgrade the entrance. Was that not taken into account for the future???? | 1/21/2023 7:11 AM |
| 275 | Seating is needed for swimming. The old bleachers were better than the standing and crowding around a window | 1/20/2023 11:07 PM |
| 276 | Bring the canteen back!!! So silly to have a packed rink and not serve hot chocolate , coffee , cold drinks for the players , etc. the vending machines don't cut it . | 1/20/2023 10:54 PM |
| 277 | Community kitchen seems like a waste. Why are the gender neutral washrooms so big for a small fraction of people | 1/20/2023 10:24 PM |
| 278 | I do not find the entrance to be welcoming with the renovations already completed. This is just making what is large and bare already bigger. | 1/20/2023 10:20 PM |
| 279 | Why isn't there a wood shop? Or kilns for ceramics? There are multipurpose rooms everywhere. | 1/20/2023 9:16 PM |
| 280 | Ensure there are enough seating for the lounge space. Have the expansion addressed the footwear issue? When it's winter and turning into spring, the mud tracks throughout the building can be unappealing to hazardous Consider a wall of lockers for common use. If the lockers have coin slots to allow for usage, this could be a potential funding for the centre. But please keep it a dollar charge only. | 1/20/2023 9:02 PM |
| 281 | It's unclear how the pool viewing area is to be laid out but there needs to be seating and enough space for each child in a lesson to have a parent watch | 1/20/2023 8:56 PM |
| 282 | It would be lovely to see improvements to the swimming pool lighting. | 1/20/2023 8:11 PM |

| | | |
|-----|---|--------------------|
| 283 | same response as in the previous question -- All of the expansion ideas are physical changes that a landscape architect or building architect would come up since their mindset is about physical changes in the look and feel. I am interested in better use of the facility for programming usage (steak) not look and feel (sizzle). The proposed renovation auditorium is a weak effort as presented. | 1/20/2023 7:49 PM |
| 284 | Family change room for the pool | 1/20/2023 7:43 PM |
| 285 | Gender neutral bathrooms are ridiculous | 1/20/2023 7:08 PM |
| 286 | This survey is flawed. No "Don't know" or "Don't care" options. You expect us to judge based solely on a too small picture. | 1/20/2023 6:56 PM |
| 287 | If you are going to create more program rooms I suggest you move the weight room to a new space and expand the women's pool change room into the existing weight room space. | 1/20/2023 5:52 PM |
| 288 | Putting a retractable stage in a gym environment is not conducive to the demands (lighting, sound, acoustics, on and off stage spaces, a fly gallery etc) for a real theatre space. You need to build a dedicated, separate theatre - a multipurpose room won't cut it. | 1/20/2023 5:08 PM |
| 289 | Please ensure there's an area where people can sit on simple (indestructible, relatively speaking), seating while they use their phone, or when they're seeking a temporary space to warm-up (in the winter), or cool-off (in the summer), while passing-through the area on a neighborhood walking trail. It would also be nice if there were a snack/coffee bar that sold just a few HEALTHY food items, such as big, dense high-quality muffins made by hand in a neighborhood bakery — NOT chips, chocolate bars and the typical unimaginative unhealthy crap that we can buy anywhere. | 1/20/2023 4:32 PM |
| 290 | The building does not need to be grandiose. FUNCTIONal, and CLEAN and easy to maintain, this includes snow removal in the parking lot for big equipment without curb barriers. | 1/20/2023 4:28 PM |
| 291 | The pool needs expansion as well. | 1/20/2023 4:22 PM |
| 292 | The front entrance is wheelchair accessible. The auditorium's stage could definitely be more accessible (zero wheelchair access to stage to watch power wheelchair hockey on the floor) | 1/20/2023 4:15 PM |
| 293 | Why isn't there a canteen here? That would be a great use of space since it's always packed with ppl here and a good revenue stream for the civic centre | 1/20/2023 4:14 PM |
| 294 | none of them are needed | 1/20/2023 3:28 PM |
| 295 | I would like to see larger change rooms for the pool | 1/20/2023 2:56 PM |
| 296 | Need more benches, hooks and lockers in the ladies swimming change room. | 1/20/2023 2:56 PM |
| 297 | The arena complex and auditorium area should be connected to the Curling Club next door. More emphasis should be place on the new 55 plus centre and perhaps day care center in the expansion. Needs to be able to handle bigger community events. And should be two stories. | 1/20/2023 2:39 PM |
| 298 | Spectators in the pool may not be necessary unless we plan to have serious swimming competitions there Lounge spaces are also going to encourage loitering as opposed to members being there for specific physical activities | 1/20/2023 2:33 PM |
| 299 | Do not expand this facility. | 1/20/2023 2:18 PM |
| 300 | I would like to see natural light (windows) introduced into the existing weight room. It is not a very welcoming space with cinder blocks and flourescent lighting. | 1/20/2023 1:54 PM |
| 301 | Please ensure handicapped peoples needs are exceeded | 1/20/2023 1:50 PM |
| 302 | My daughter, age 7, takes swimming lessons here. There is a major need for family change rooms as she is not comfortable going into the Men's change room if she is with her dad. The older kids would also like some privacy for changing and there is none. There are also a lot of families and their babies doing swimming here and there is a need for more facilities in the change rooms for babies. | 1/20/2023 1:35 PM |
| 303 | It would be nice to preserve the view, in the new interior space, of the old concrete exterior south wall, which is attractive. Similarly, it would great to move to the new front entrance the old sculptural entrance canopy. As well, the addition of the sauna would improve the pool and gym experience. | 1/20/2023 12:47 PM |

| | | |
|-----|--|--------------------|
| 304 | I was looking for more details about the proposed spaces in order to review properly and provide feedback. Also, I think adding a sauna to the plans would be beneficial and could be designed to connect to the existing swimming pool. | 1/20/2023 12:19 PM |
| 305 | The lack of a universal changeroom for the pool is a dire situation. In the current building there is no space for one, this expansion is a perfect time rectify this by moving the first aid room to the new expansion and putting a universal change room where the first aid room is now. | 1/20/2023 11:35 AM |
| 306 | It would be good to, on the interior, expose the original (and attractive) pre-cast concrete of the older part of the building. | 1/20/2023 11:01 AM |
| 307 | lack of improvement to swimming pool. no family change rooms. lack of accessibility to pool area. | 1/20/2023 10:40 AM |

Q7 Who would likely go with you to St. James Civic Centre? (check all that apply)

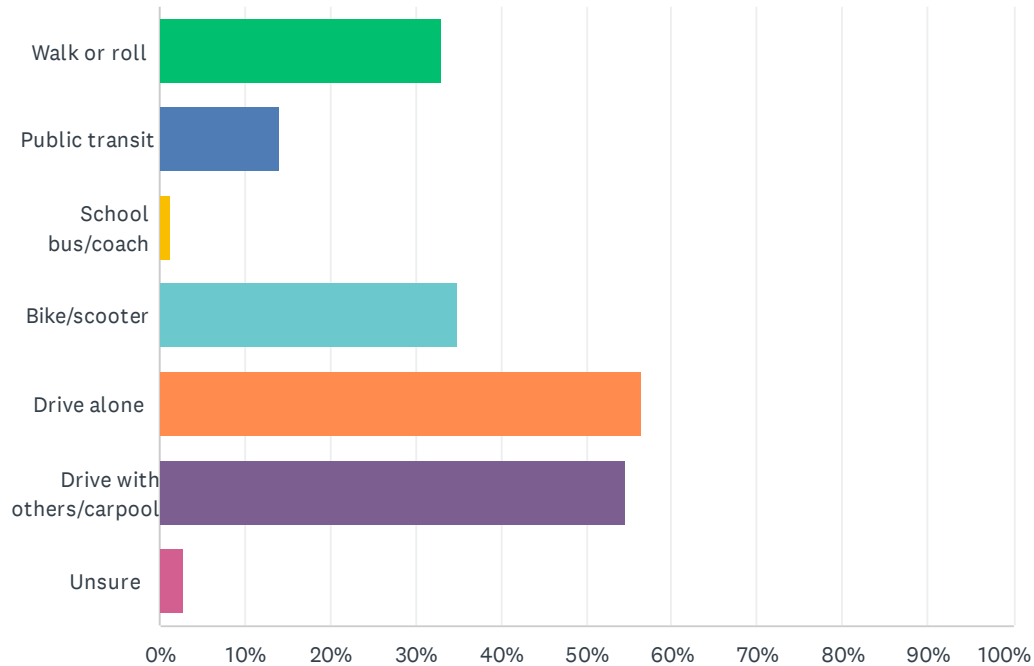

Answered: 1,376 Skipped: 178

| ANSWER CHOICES | RESPONSES | |
|--------------------------|-----------|-----|
| No one, I go alone | 24.20% | 333 |
| Spouse/partner | 61.99% | 853 |
| Children | 56.25% | 774 |
| Parents/guardians | 15.99% | 220 |
| Friends | 45.20% | 622 |
| Sports teammates | 15.84% | 218 |
| Community group members | 15.84% | 218 |
| Unsure | 4.22% | 58 |
| Total Respondents: 1,376 | | |

Q8 How would you like to travel to the St. James Civic Centre in the warmer months? (check all that apply)

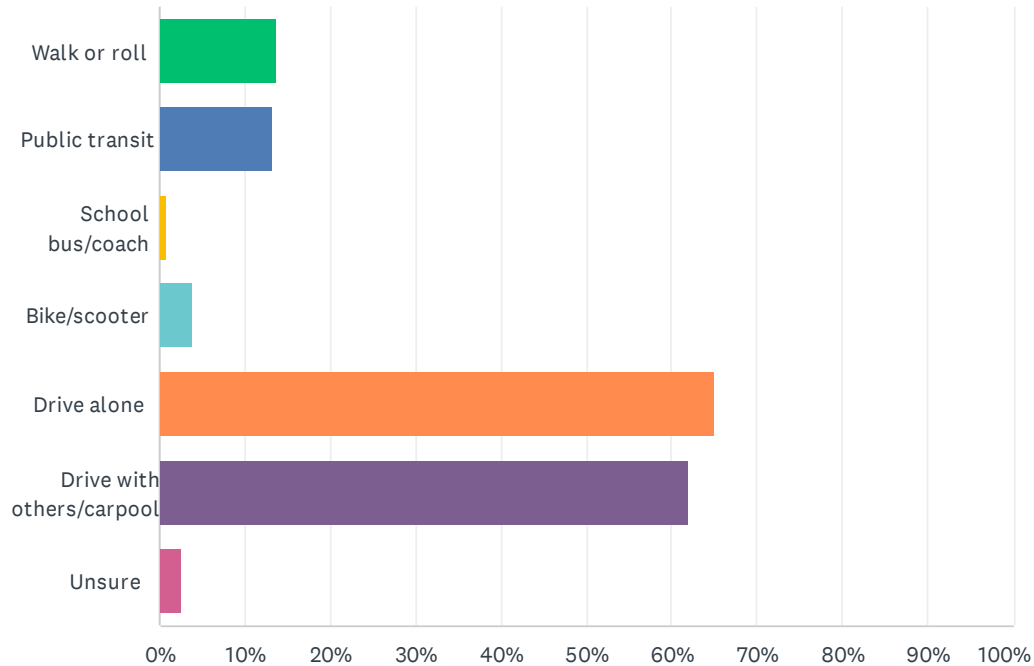

Answered: 1,376 Skipped: 178

| ANSWER CHOICES | RESPONSES | |
|---------------------------|-----------|-----|
| Walk or roll | 33.14% | 456 |
| Public transit | 14.10% | 194 |
| School bus/coach | 1.24% | 17 |
| Bike/scooter | 34.96% | 481 |
| Drive alone | 56.54% | 778 |
| Drive with others/carpool | 54.51% | 750 |
| Unsure | 2.76% | 38 |
| Total Respondents: 1,376 | | |

Q9 How would you like to travel to the St. James Civic Centre in the winter months? (check all that apply)

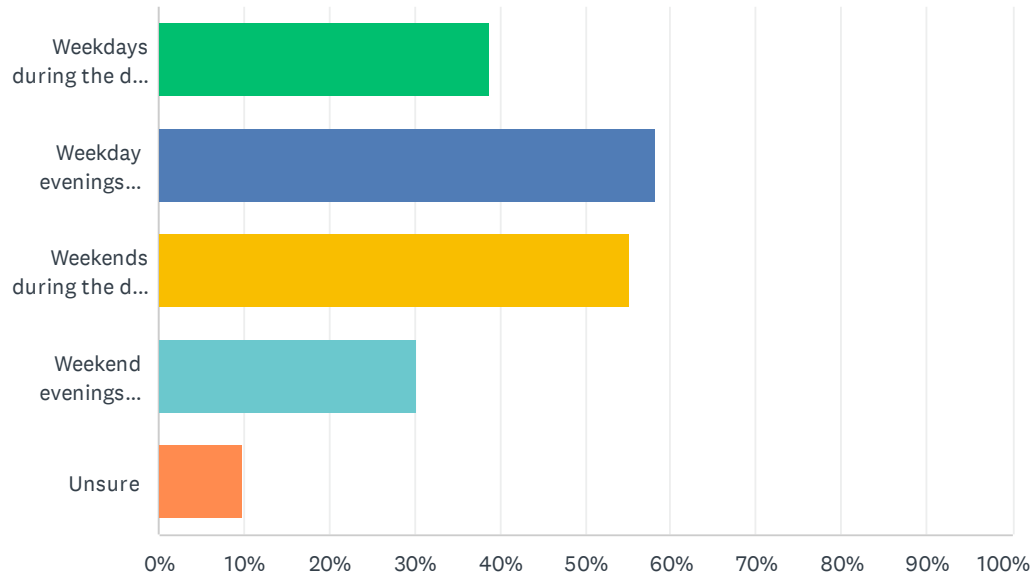

Answered: 1,376 Skipped: 178

| ANSWER CHOICES | RESPONSES | |
|---------------------------|-----------|-----|
| Walk or roll | 13.66% | 188 |
| Public transit | 13.15% | 181 |
| School bus/coach | 0.80% | 11 |
| Bike/scooter | 3.85% | 53 |
| Drive alone | 64.97% | 894 |
| Drive with others/carpool | 62.14% | 855 |
| Unsure | 2.47% | 34 |
| Total Respondents: 1,376 | | |

Q10 When do you think you will most often visit St. James Civic Centre? (check all that apply)

Answered: 1,376 Skipped: 178

| ANSWER CHOICES | RESPONSES | |
|---|-----------|-----|
| Weekdays during the day (between 7am and 4pm) | 38.74% | 533 |
| Weekday evenings (between 4pm and close) | 58.21% | 801 |
| Weekends during the day (between 7am and 4pm) | 55.31% | 761 |
| Weekend evenings (between 4pm and close) | 30.38% | 418 |
| Unsure | 9.74% | 134 |
| Total Respondents: 1,376 | | |

Q11 Is there anything else you would like to add?

Answered: 294 Skipped: 1,260

| # | RESPONSES | DATE |
|----|--|-------------------|
| 1 | After it was closed for so long during the past renovation, could we keep it open during the next phase. We had such a loss of space for the pool- lessons, club swimming, it a hurting the youth who are working hard in sport as there is never enough pool space elsewhere! | 2/9/2023 6:41 AM |
| 2 | I'd love to have gym times for my young children (under 5) with access. If I decide to homeschool perhaps it would be useful to have gym time for older children. I'm hoping these expansions would result in availability of more leisure guide programming. It is difficult to get into programs because there aren't enough spaces. Finally, what is the timeline for the expansion? | 2/9/2023 12:57 AM |
| 3 | Family change rooms for pool - people in wheelchairs or who need extra gender different assistance will go where to change? More of a leisure pool concept - if you are going to break a wall to create a viewing area, why not add on deck zones - hot tub, relaxing area for families taking a break from swimming, but not yet finished or a nice gathering area for people waiting for their classes to start that is not in the direct path of people exiting pool to change rooms. | 2/8/2023 7:04 PM |
| 4 | A running track | 2/8/2023 12:03 PM |
| 5 | Walking Path, Sauna for afterworkouts, Handicap w/r beside pool | 2/8/2023 11:05 AM |
| 6 | I don't think the outdoor seating is needed - I don't see us using it as everything is inside so we would wait at the indoor lounge | 2/8/2023 12:44 AM |
| 7 | The civic centre is extremely important for the St James Seals swim team. To close it down for renovations AGAIN majorly affects the club. The swim athletes won't have a space to practice. If renovations can be done during the summer months when the swim club is not active then it would be a great idea. But to keep the civic centre closed for a longer period of time is detrimental to the young swimmers. Also the bathrooms do not have private change areas for individuals without being in a bathroom stall with a toilet taking up most of the space. This is a big reason why we don't go swimming here for leisure and chose other pools instead | 2/7/2023 9:00 PM |
| 8 | As a member of the St. James 55+ Senior Centre I would be there most days from M-F. I would like to see us sign a 30 lease agreement with 10 year reviews. | 2/7/2023 4:21 PM |
| 9 | Please don't close the St James Civic Center again. It was just renovated and is functional. We need it open to be able to use it. Please keep it open! | 2/7/2023 2:01 PM |
| 10 | PLEASE keep the pool open. The past 2.5 year closure was detrimental to the community and its programming. Another extended closure will crush the community's swim development. We know that you can't work on the walls and have the pool open at the same time, but another 2 year project will leave the building closed for 4 of the last 5 years. How does that help the community when they can't rely on a space to be open. | 2/7/2023 1:03 PM |
| 11 | Parking is going to turn into huge problem. It can already be a problem on weekends when you have 4 hockey teams and 2 swimming groups all doing a change. | 2/7/2023 11:15 AM |
| 12 | Don't take parking spaces away. If it's difficult, especially when they are coming to play sports most won't go. | 2/6/2023 8:45 PM |
| 13 | This city needs more active transportation accessibly locations and more 3rd places to hang out with other community members. | 2/6/2023 7:52 PM |
| 14 | Very good plan. | 2/6/2023 5:06 PM |
| 15 | Yes please have indoor tennis court for the seniors. And an indoor soccer field or mini soccer field with turf would be a godsend for the kids in the area and many teams would rent it out. | 2/6/2023 3:05 PM |
| 16 | Just because funds are in the budget does not mean it needs to be spent. How about carrying some of these funds forward. Don't try to fix something that's not broken | 2/6/2023 12:37 PM |

| | | |
|----|--|-------------------|
| 17 | Add Tennis Courts | 2/6/2023 10:56 AM |
| 18 | I like to go right at 6:30 am. | 2/6/2023 8:02 AM |
| 19 | Very excited to see this long-awaited addition come to fruition! | 2/6/2023 1:49 AM |
| 20 | I do not like the large SJCC as shown on the design for the front of the building. | 2/5/2023 11:25 PM |
| 21 | I hope that the pool will remain open during the expansion | 2/5/2023 9:02 PM |
| 22 | I look forward to using the space set aside for the St.James Seniors. | 2/5/2023 9:01 PM |
| 23 | Private change rooms for pool. Family change rooms for pool. We no longer sign our oldest for swimming lessons at this facility ad he is too young to dress himself independently but too old in women's open change room. My husband is away for work and can not routinely bring him. Private and family change rooms are a must. | 2/5/2023 11:49 AM |
| 24 | Need a gate to go through, once entrance to swim change rooms has been verified by staff. | 2/4/2023 6:42 PM |
| 25 | I would like to see a filtered water dispenser for people to fill water bottles (standard at most gyms and activity areas) Hopefully the sound system gets upgraded so we can have our music and microphone use the speakers through a bluetooth connection (and I do not have to continue to haul my personal speaker every time) I am guessing that the plan is to shut down the facility during renos which is at least 2 years. I would like to see the city relocate us to another large space - a small studio is not going to work. I do have confirmation that we will continue our classes until June 2023. Karen | 2/4/2023 1:44 PM |
| 26 | Earlier access to workout facility and pool for the working crowd. (6:00 am lap swim) | 2/4/2023 1:19 PM |
| 27 | We are a senior couple who live within a 2 block walk, and only 1 drives. Easy access is important. | 2/3/2023 2:41 PM |
| 28 | the last time I brought my kids swimming they ended up with red sore eyes. Apparently this is caused by a lot of urine in the pool. | 2/3/2023 10:14 AM |
| 29 | It is hard to get into classes and activities due to limited spaces. Dedicate additional resources to having more participation since the demand is evident | 2/2/2023 8:52 PM |
| 30 | I live very close to the Civic Centre and have started going to the lap swim regularly. It is only about a five minute walk or a 1 minute bike ride. | 2/2/2023 7:48 PM |
| 31 | None. | 2/2/2023 6:40 PM |
| 32 | Brenda MacAulay's Trimfit and Resistance Training for seniors is excellent. I will keep attending as long as I am able. Please ensure that these programs continue. Many thanks to all concerned. | 2/2/2023 6:25 PM |
| 33 | thank you for allowing input - hope someone takes the time to share the information received in these surveys. | 2/2/2023 4:46 PM |
| 34 | There is an opportunity to incorporate a skate-dot element in this build for the civic centre. A skate-dot is a skateboarding friendly physical element (like a bench, railing, ledge, planter) that is developed to active and animate a micro space in an already established property. Skateboarding happens through out the city, often with skaters looking for curbs, stairs and ledges to skate on. A proactive move by PW and COW would be to start incorporating micro elements on new projects to give added use and animation to the city. Other cities across NA have already started doing these types of projects as the benefits of skateboarding are understood more in recent years. Please contact me for more info on this. | 2/2/2023 10:43 AM |
| 35 | Dont waste money on making it look too pretty at the expense of functionality. Do not whatever you do, cut down parking spaces- and dont make it such a finicky way to park. Just drive in and park. We dont need a oarking lot like Bridgewater where you drive around in circles to get to where you want to be. The joy of the civic centre is easy in and easy out for people and cars. You don't want to add a maze to get to the front door. Less is better. New parking lights- great! Better lines- great! Fancy bushes and trees- poor. They will get destroyed by carrying equipment and snow and vehicles. Kitchen- great! Small rooms- poor- won't find the right activity for them. | 2/1/2023 8:07 PM |
| 36 | A better sound system would be great, as well as having better air conditioning (it was really hot in the auditorium last fall). | 2/1/2023 5:50 PM |

| | | |
|----|--|--------------------|
| 37 | As we already went through one renovation with no classes I hope the gym and pool will still be available for existing classes during the renovations. | 2/1/2023 4:34 PM |
| 38 | Seating in the area for taking boots off. People can't be expected to stand while removing boots. Water dispenser for filling water bottles, most other gyms, activity areas have them. The current sound system does not function properly. | 2/1/2023 11:04 AM |
| 39 | Give us a speciality change room for the pool area. If families want to change children of opposite gender they have to use the universal washrooms in the lobby and walk there child through the lobby to the pool. That is unacceptable!!!! As a senior there is not enough accessibility to the pool change rooms. What a waste of money to add a new hole expansion but keep a pool that is beyond its years. | 2/1/2023 10:00 AM |
| 40 | Please update pool change areas. Create specialty change rooms. Create accessible change spaces. | 2/1/2023 9:50 AM |
| 41 | the latest renovation was underwhelming and lament the loss of a cafeteria/concession | 2/1/2023 9:16 AM |
| 42 | Have family days, carnival days, have wedding socials | 1/31/2023 9:34 PM |
| 43 | Please add a hot tub and sauna to the building | 1/31/2023 7:51 PM |
| 44 | I am very excited that the Civic Centre will be getting a re-haul. It could be made into a much more dynamic hub for community learning, activity and socializing. It has a great location and, hence, is able to cater to a good portion of the St.James area and beyond. i.e. Tuxedo and River Heights. | 1/31/2023 5:29 PM |
| 45 | A few parking spots (equipped with EV charging) adjacent to the transit stop on Ness Avenue should be designated to accommodate a car share program! | 1/31/2023 5:07 PM |
| 46 | This plan looks great! The improved pool viewing area will be awesome. The only thing I can reiterate is the noise proofing of the studio and multi-purpose rooms from hallway noise. | 1/31/2023 4:12 PM |
| 47 | Totally out of my area and have all those faciities close by. | 1/31/2023 2:57 PM |
| 48 | Parking lot is massive. Make this more inviting for walking, rolling, cycling and scooting. | 1/31/2023 2:40 PM |
| 49 | This recreation Centre was closed for renovations for too long in the past. Will these new renovations require the facility to be closed again for a long time. A recreation centre should provide recreational opportunities for more than children, the needs of active seniors are not being addressed. Seniors don't sit around, play cards and have coffee, they are looking for active and safe recreation activities that are available all year long. The centre should provide entertainment and education programs throughout the day -- a speakers series or a music performance. I am disappointed that an indoor or sheltered outdoor walking track was not incorporated into the design -- especially because there are few activities other than walking, snow shoeing or cross country skiing that any age can do. The adjoining golf course could provide a groomed walking, shoeing or ski area, in close proximity to the Centre. The Centre could rent equipment (like tandem bikes, skis and snow shoes).They could even provide wind shelters along a trail to the bike path using hay bales or warming huts. The St James Recreation Centre attracts hockey players from across the City, and serves families in St. James - it neglects seniors, the low income and people with disabilities that need safe walking or rolling spaces (wheelchair, walkers) to promote active lifestyle four seasons of the year. The Centre is so close to the bike path, it should be connected - it would allow people using the path to drop in at the Centre, for a rest, a visit etc. This would promote the Centre as a destination for residents of the community. | 1/31/2023 1:48 PM |
| 50 | Will there be more renovations done to existing pool washrooms to increase their accessibility (ie accessible toilets, higher benches in the entry way, grab bars on showers, etc.) | 1/31/2023 12:23 PM |
| 51 | Fix floors in hockey dressing room | 1/31/2023 9:40 AM |
| 52 | The addition of an infrared sauna would be a nice touch. | 1/31/2023 9:24 AM |
| 53 | Good luck with this project! | 1/31/2023 8:32 AM |
| 54 | will the pool be closed again? why not spend money to improve existing space before adding new space? i appreciate the greening of the area. what attempts are being made to make the building energy efficient? | 1/30/2023 8:53 PM |
| 55 | Yes, I would like to know why actual users of the facilities weren't considered when | 1/30/2023 8:07 PM |

renovations were done. Often, those in charge of the planning have limited information as to the "grass roots" needs! Case in point ~ pool change rooms! Penny 204~885~5559

| | | |
|----|---|--------------------|
| 56 | Have a coffee machine/water fountain/vending machine would be good | 1/30/2023 7:29 PM |
| 57 | "Close" during weeknights would be nice if it was later (for weight room) | 1/30/2023 4:16 PM |
| 58 | Pried sound system, change rom in the auditorium like you used to have. | 1/30/2023 4:09 PM |
| 59 | NO | 1/30/2023 4:08 PM |
| 60 | I am not young so maybe my input should not be weighted. | 1/30/2023 3:28 PM |
| 61 | A connection to the existing multi-use trail system north of the centre would be great for those of use who cycle. | 1/30/2023 3:08 PM |
| 62 | glad to see our tax dollars finally going to something worthwhile in my part of the city.... | 1/30/2023 2:37 PM |
| 63 | There is a need for programs for the working community. I would like a place I can go after my work day to recharge and meet with friends and family. We need a place for the whole community. | 1/30/2023 1:47 PM |
| 64 | There needs to be seating for the swimming, it is terrible right now | 1/30/2023 1:39 PM |
| 65 | Checked out the latest renovation and both my husband and myself were not happy with the gender neutral washrooms. How about a survey on this one?? We've been attending hockey events here for 50 yrs and have yet to find anyone accepting of that move. You change this to satisfy 1 in a million people? Even our millennial children don't approve. | 1/30/2023 1:25 PM |
| 66 | It is not clear to me why these changes weren't done when the centre was already closed for so long. What are the plans for programming when the centre is again closed for these renovations? | 1/30/2023 12:09 PM |
| 67 | The designs look great and especially loving the trees, greenery | 1/30/2023 12:02 PM |
| 68 | can't think of anything at moment | 1/30/2023 11:55 AM |
| 69 | No seating for swimming | 1/30/2023 11:52 AM |
| 70 | Tell the city to make a dedicated turn lane from Ness into the parking lot. So many close calls at that intersection. The median isn't large enough to duck into, there's always cars/trucks with their back end sticking out. We all can't take transit with huge hockey bags. | 1/30/2023 10:38 AM |
| 71 | SJCC has already been closed for an extremely long time. It just re-opened. Do these renovations mean we will again be without the SJCC for a very long time? | 1/30/2023 9:25 AM |
| 72 | More lap swimming times in the evening (for 1 hour minimum) and Saturday and Sunday mornings (7 am to 9 am) | 1/30/2023 7:35 AM |
| 73 | Again, let's work on maintaining existing facilities in good stead before beginning new construction | 1/30/2023 6:29 AM |
| 74 | No | 1/29/2023 10:58 PM |
| 75 | Hopefully it'll open up very soon for use | 1/29/2023 9:50 PM |
| 76 | The renovations should NOT impact access to the community centre. It should be done in a way to continue to allow activities. | 1/29/2023 9:42 PM |
| 77 | Looks great. Thanks. | 1/29/2023 9:19 PM |
| 78 | The new washrooms will need to be replaced with more privacy features. | 1/29/2023 9:05 PM |
| 79 | Please add drop in classes at reasonable hours. Cindy Klassen has zero weight training classes now. Prior to covid many seniors classes were available. The Civic Centre only has 7:30 a.m and one single 8:30 am drop in weight training available. Very few drop in availability.This is extremely frustrating to seniors who pay for full passes and need classes to work on and maintain their health. Particularly after working hard in the community throughout their working lives. | 1/29/2023 8:21 PM |
| 80 | The upgrades should have been done with the millions they got. | 1/29/2023 7:42 PM |

| | | |
|-----|---|--------------------|
| 81 | safer (pool) change room floors. current floors are very slippery. choice of floor material is very important. | 1/29/2023 7:31 PM |
| 82 | I was very surprised to receive this survey. My son was registered for evening floor hockey at SJCC and it was cancelled because the City could not find an instructor. I'm not sure if improved space will help if there is not enough staff to run the programming. | 1/29/2023 7:26 PM |
| 83 | Family change room. | 1/29/2023 6:18 PM |
| 84 | Allcommunity spaces should have a gym area so that multiple sports can we play as well as a track area, but can be used during a long winter months. | 1/29/2023 5:17 PM |
| 85 | They need to have Family Friendly Bathrooms available inside building. | 1/29/2023 4:39 PM |
| 86 | Programs for toddlers would be fabulous | 1/29/2023 4:02 PM |
| 87 | It would be important to consider adding a family change room for dads with young daughters or moms with young boys. Preschool swimming lessons would be beneficial | 1/29/2023 1:52 PM |
| 88 | We would love to see a pre school program offered. | 1/29/2023 1:41 PM |
| 89 | The pool area or change rooms need any one of the following three: hot tub, sauna or steam room. | 1/29/2023 12:29 PM |
| 90 | Since I only used the St James Civic Centre a handful of times for swimming in the last 29 years, I don't imagine using it much in the future. | 1/29/2023 11:47 AM |
| 91 | Outdoor splash pad like the one at centennial pool would be a nice addition. | 1/29/2023 10:52 AM |
| 92 | Programming for toddlers or an area to take your toddler/young children to play. Either through groups or if there was an indoor or outdoor play area. Preschool programs would be a great addition to the community! | 1/29/2023 10:46 AM |
| 93 | Have evening and/or weekend programs to accommodate people who work during the day and offer exercise programs for people who have arthritis. | 1/29/2023 10:24 AM |
| 94 | Please add change rooms for families and special needs! | 1/29/2023 10:16 AM |
| 95 | I would like to see the expansion of the swimming pool and an indoor track included | 1/29/2023 10:09 AM |
| 96 | I would love it if the cross country ski trail at Assiniboine golf club connected to the Civic Centre and also the airport field | 1/29/2023 10:06 AM |
| 97 | It's wonderful that upgrading is being considered. Remember that we have to plan for maximum usage - especially with regards to the rink as it is significantly impacted by teams with spectators. If the building is expanded to accommodate more programs there will be more people there at any given time - coming and going. The parking lot has to accommodate that as well as the building. Is the kitchen accommodating a canteen? It doesn't show that with any clarity. | 1/29/2023 9:07 AM |
| 98 | Travel with handi transit | 1/28/2023 10:27 PM |
| 99 | Cafe with healthy food/ snacks. That is modern and attractive. | 1/28/2023 8:46 PM |
| 100 | Will the pool be closed again for 2 years or more during these improvements? If so I am against the entire project. | 1/28/2023 8:09 PM |
| 101 | New facilities in south east winnipeg | 1/28/2023 7:59 PM |
| 102 | no | 1/28/2023 7:56 PM |
| 103 | Need a pool and/or upgraded active indoor facility in River East | 1/28/2023 5:41 PM |
| 104 | Please fix the power outlets in the arena area. None of them work, which is problematic, and embarrassing, for setting up shot clocks. Actually, permanent shot clocks should be considered. | 1/28/2023 4:32 PM |
| 105 | Fix change rooms | 1/28/2023 4:23 PM |
| 106 | I would love special seniors classes without other groups in pool . It is hard to try to work out while balls or random toys hit your head while working out in aqua sizes or being splashed and kids screaming. | 1/28/2023 4:21 PM |

| | | |
|-----|---|--------------------|
| 107 | Nope | 1/28/2023 3:41 PM |
| 108 | When is the proposed new opening date for use? | 1/28/2023 2:46 PM |
| 109 | Thanks for the survey, exciting time for St James! | 1/28/2023 2:27 PM |
| 110 | Things look great. Once you re-open I might be involved in more than I was. Really missing pickleball !!! | 1/28/2023 2:13 PM |
| 111 | SJC just reopened after two plus years. I hope you aren't planning another protracted closure while this second round of construction is underway. Also. It seems silly that you wouldn't have planned and executed all this work at the same time. The ladies' changing room is pretty shabby. | 1/28/2023 2:08 PM |
| 112 | Need excellent parking | 1/28/2023 2:07 PM |
| 113 | More swim and weight classes for seniors. Aqua sizes and better time slots | 1/28/2023 2:03 PM |
| 114 | The free skating programs although wonderful, are not welcoming to less adept skaters. In the last years, I would skate Monday at 11. I am a beginner to intermediate skater. The ex-hockey players would power skate around us, doing power stops, etc. Before 20 minutes had passed, the ice was gouged and chipped. The last 2 times I skated, I hit the broken areas and fell very badly, hitting my head and requiring assistance to regain my feet. My request is that an extra hour be added before the free skate just for beginners. (not just a small fenced off area for toddlers). I spoke to staff at SJCC and they said they were there from 9 a.m. to 5 so an extra session would not increase any wage costs. I am begging the city to provide safer skating before someone really gets injured. Asking the ex-hockey players to slow down did not change anything. And they have the right to skate how they like. Just that older/less skilled skaters do need a safe area to skate in. | 1/28/2023 2:00 PM |
| 115 | I would like to see more free skating during the day during the week. I believe more seniors would make free skating a part of their exercise routine if it was available more than just Mondays 11-12. | 1/28/2023 1:43 PM |
| 116 | Bigger pool! | 1/28/2023 1:38 PM |
| 117 | Disabled parking needs to be for multiple places- the worst is all full with other disabled people - nothing left | 1/28/2023 1:12 PM |
| 118 | Keep working at the renovation | 1/28/2023 1:10 PM |
| 119 | Regular scheduled pickle ball day and night | 1/28/2023 12:50 PM |
| 120 | Did I mention steam room or sauna? Improved showers for the pool area? | 1/28/2023 12:40 PM |
| 121 | Great to see the improvements. | 1/28/2023 12:30 PM |
| 122 | Not at this time. | 1/28/2023 12:27 PM |
| 123 | Seniors programs should run in the afternoons - 11 am until 4pm? | 1/28/2023 12:23 PM |
| 124 | warmer pool temperature please - we would use city pools so much more often if we didn't all end up shivering with cold while there | 1/28/2023 12:21 PM |
| 125 | Handitransit seems to be missing from the options | 1/28/2023 12:09 PM |
| 126 | Change rooms need upgrading and expansion | 1/28/2023 11:56 AM |
| 127 | Private change stalls please! | 1/28/2023 11:46 AM |
| 128 | I think an online capacity checker that shows what areas are booked, or in use would be helpful so people can check to see how busy the center is before they make their way over or so they can see how full it is on the day they want to book an activity. This can influence if/ when a person wants to go | 1/28/2023 11:42 AM |
| 129 | Upgrade swimming change areas. | 1/28/2023 11:38 AM |
| 130 | If you could improve the parking lot to better surround the building that would be great. | 1/28/2023 11:33 AM |
| 131 | Leave the pool alone. Still need coat rack outside change rooms as lockers are short and no where to hang them. No hooks in lockers, not enough bench space on women's side.,all of that should have been done before you opened this past September. Still not done or fixed. | 1/28/2023 11:31 AM |

| | | |
|-----|--|--------------------|
| 132 | More availability for swimming lessons need to be created. If this required a bigger pool then that needs to be included. | 1/28/2023 11:29 AM |
| 133 | Would be major but add a kiddie pool area shallow with activity centre in it, slides etc. would make more attractive option for young families. | 1/28/2023 11:21 AM |
| 134 | I was really hoping to see a walking/running track in the new facility. | 1/28/2023 11:21 AM |
| 135 | It's important to think of Accessibility when making improvements to an existing public space. The Accessibility for Manitobans Act describes this in more detail, as does Inclusion Winnipeg. | 1/28/2023 11:21 AM |
| 136 | Great idea to renovate old building. Why not move parking to back of building and make the rink in front? Changes vehicle flow, isn't an eye sore (who wants to see cars and no need to "beautify" parking lot if at back), seeing outdoor ice sports playing is nicer aesthetically, can incorporate more green space in front for lawn games in summer and outdoor curling ice for winter. | 1/28/2023 11:07 AM |
| 137 | Great idea to enhance recreation. Maybe out door splash pad. | 1/28/2023 10:59 AM |
| 138 | Kiosks for food or seasonal food kiosks(indoor and outdoor), outdoor exercise machine just like in Japan both for kids and adults. | 1/28/2023 10:58 AM |
| 139 | A long survey like this with little detail might not give the quality of fees back you need. With the Civic Centre being closed for so long it is difficult for people to imagine how they will use the space. More spaces like this are desperately needed in our community. Thank you for embarking on the project. | 1/28/2023 10:38 AM |
| 140 | I think this is wonderful. That area of st James needs improved community facility. I would mention MOVING (not removing) the recycling depot to a more secure monitored spot, perhaps a 4R depot for the west side of the city? Something that just focuses on recycling and yard waste? But is staffed to prevent illegal dumping? | 1/28/2023 10:31 AM |
| 141 | Please do not miss an opportunity to upgrade the pool, change rooms and weight/exercise room!!! These should be renovated and expanded. Why add all this new stuff when these existing well used features I mention above are not in great shape? | 1/28/2023 10:30 AM |
| 142 | Please don't overlook basketball needs. Apparently high school basketball gets such a good turnout at competitions that a ton of kids get rejected (survey schools, ie Ecole Ness). It's expensive and far to go to the downtown sports centre. The new upcoming needs for the future community are basketball for teens and young adults and pickleball for retirees. | 1/28/2023 10:24 AM |
| 143 | I dont think it is necessary to put bunch of money into greenspace. Put it inside the building and dont even try to lose it for another two years like you did last time. Put money into the pool and change rooms. We need privacy for changing. Washrooms should be wheelchair accessible inside change room | 1/28/2023 10:19 AM |
| 144 | DO NOT CLOSE THE RINK WHILE IN CONSTRUCTION FOR HOCKEY | 1/28/2023 9:55 AM |
| 145 | I would like the beginner yoga classes to start again at this location. | 1/28/2023 9:53 AM |
| 146 | Please don't close the facility again! The pool is so great for children learning to swim because it's warm. It would be a shame to have the best learn to swim facility in st james closed for years again. | 1/28/2023 9:52 AM |
| 147 | What do you mean walk or roll. All I am picturing is someone rolling down the street. Who designed this survey? | 1/28/2023 9:38 AM |
| 148 | Stop the proposal it's unaffordable and unacceptable | 1/28/2023 9:33 AM |
| 149 | Make more senior programs . And at a reasonable cost. | 1/28/2023 9:28 AM |
| 150 | There should be a coffee/snack shop that offers healthy options for all ages. Not vending machines with junk in them. | 1/28/2023 9:23 AM |
| 151 | Add an indoor track and I'd love to come there | 1/28/2023 9:22 AM |
| 152 | More secure bike parking | 1/28/2023 9:18 AM |
| 153 | It would be so nice if you could add an "indoor park" (ie. indoor play structure) where people | 1/28/2023 9:17 AM |

could bring their families to play. Being that's it's cold for so long in Winnipeg, this would be an amazing addition that would be so useful to the community!!! It could also be incorporated into a meeting area for people if you added some picnic tables/ table & chairs

| | | |
|-----|---|-------------------|
| 154 | Can this be a happy, welcoming space? Smiling, understanding staff , a clean and safe environment? If so, you have it made. | 1/28/2023 9:12 AM |
| 155 | What space is dedicated solely to use by St J 55+ centre? | 1/28/2023 9:11 AM |
| 156 | Upgrades to pool | 1/28/2023 9:01 AM |
| 157 | I would like to see a walking path outside or a walking track inside. Our aging population like to walk and socialize and at the moment only the shopping mall offers this in our area | 1/28/2023 8:57 AM |
| 158 | Ensure there are working and clean water bottle refill stations. It would be nice to have safe/secure cell phone recharge stations as well. | 1/28/2023 8:57 AM |
| 159 | I would consider the bus/walking, but not with the area crime. I do not feel safe, therefore I drive most places. | 1/28/2023 8:52 AM |
| 160 | My children cannot get access to swimming lessons due to more need than availability. A larger, or secondary pool would help with capacity | 1/28/2023 8:46 AM |
| 161 | Please add an indoor playground even if it's a small one!!!! Please!!! | 1/28/2023 8:45 AM |
| 162 | its a great rink but really a pretty mediocre pool, a lost opportunity to turn this site into a regional centre families can count on to have a good quality of life. | 1/28/2023 8:30 AM |
| 163 | No | 1/28/2023 8:26 AM |
| 164 | Make sure there is enough parking. Centennial does not have enough parking. If you cannot park your car there, people are not going to go there. Do not loose all the existing parking with beautification ideas. | 1/28/2023 8:16 AM |
| 165 | Locker/change rooms could be cleaner, in the past they have been dirty and unsecure | 1/28/2023 8:14 AM |
| 166 | Please consider extending weekday hours to 9 Monday to Thursday. | 1/28/2023 8:12 AM |
| 167 | I think this should have been done while the civic center was closed for 2 years. Also. The changerooms in the rink need to be modernized. | 1/28/2023 8:08 AM |
| 168 | I will never attend, Please do not use my tax dollars to expand this suburban amenity. Our city can't afford it. | 1/28/2023 7:59 AM |
| 169 | Please add ab indoor splash pad | 1/28/2023 7:54 AM |
| 170 | I am in the neighbourhood and go at different times depending on my schedule | 1/28/2023 7:48 AM |
| 171 | I've never used this building for anything, and probably won't. The city charges to much,... Just like the reno at Cindy Klassen. Alway's under construction and to expensive. I can go to Planet Fitness, for 10. a month! | 1/28/2023 7:43 AM |
| 172 | Outdoor playground | 1/28/2023 7:41 AM |
| 173 | Have a safe spot for bikes not to get stolen , and covered parking for vehicles . | 1/28/2023 7:20 AM |
| 174 | A concession space for the arena appears to be missing now. To me this is a big oversight. | 1/28/2023 7:12 AM |
| 175 | Weight classes that start at 8:30 am more days of the week | 1/28/2023 7:08 AM |
| 176 | A nice design. Getting staff input on functionality is the best way to make a building attractive AND functional. And I'm talking about the staff that work in the building every day, they are the ones that know what they need to provide excellent customer service. They are the ones that have to field all the complaints from the public. Ask them! They will have great ideas! | 1/28/2023 7:08 AM |
| 177 | I am shocked money is being spent on this when pools like Margaret grant and bonivital are falling down. A hot tub and slide would be a nice addition | 1/28/2023 6:53 AM |
| 178 | Splash pad!!!! | 1/28/2023 6:50 AM |
| 179 | Public swim should be daily just like pan am I would like to swim 2-4 days aweek and your pool doesn't offer that | 1/28/2023 6:47 AM |

| | | |
|-----|--|--------------------|
| 180 | Seating for the pool area! | 1/28/2023 6:44 AM |
| 181 | Canteen! Please please update the fitness facility!!! | 1/28/2023 6:36 AM |
| 182 | Appreciate the consultation. Just concerned with the increased traffic flow on Ness turning in/out of the parking lot as it is tight, and whether you have adequate parking. | 1/28/2023 6:30 AM |
| 183 | Please add more lockers in the female change room and we need full size to fit winter coats. And lockers that we can get our quarters back. | 1/28/2023 4:56 AM |
| 184 | Please include a child care facility so parents can use facilities | 1/28/2023 4:33 AM |
| 185 | Outdoor pool like Transcona. | 1/28/2023 1:08 AM |
| 186 | A walking track for seniors | 1/27/2023 11:32 PM |
| 187 | 1. WASHROOMS...DOORS!!!!... 2. CANTEEN FOLKS!!!! 3. Pickle ball / Pottery | 1/27/2023 10:53 PM |
| 188 | Early morning before work exercise classes | 1/27/2023 10:26 PM |
| 189 | The Center was already shut down for two years. My kids just started using it again every week. We missed it so much and if it is going to be closed again it will be such a pain. Please do not shut it down again. | 1/27/2023 10:11 PM |
| 190 | How often I will attend depends on what is being offered | 1/27/2023 10:02 PM |
| 191 | This is a beautiful facility. I wish the city would provide more of the same in the north end of the city where I reside. It's very frustrating to look in the leisure guide for classes for myself and my kids only to find that none of them are offered on the north side. Considering the cost for fuel, traveling across the city is not cost effective. You need to do better. | 1/27/2023 9:10 PM |
| 192 | This project seems like a dumb use of government spending | 1/27/2023 8:58 PM |
| 193 | Should start masters swimming and lane swim in. More hours during the day. Pickle ball would be great since Winnipeg West pickle ball is only for advanced it seems. There is a big demand but minimal lessons available in st James. | 1/27/2023 8:47 PM |
| 194 | Installing a hot tub would be wise, as there are only 2 city pools that have a hot tub | 1/27/2023 8:25 PM |
| 195 | Would like to see more family washrooms, it is hard dressing and undressing small children for swimming without your spouse | 1/27/2023 8:19 PM |
| 196 | Any money the city spends on site additions or improvements MUST take into account climate change and pandemics. Is the ventilation being upgraded? Will this community centre be able to easily pivot to serve the community in a heat wave? a blackout? a flood? does the community centre make it easy -- the natural choice -- to get there as a pedestrian, cyclist or bus rider? | 1/27/2023 8:18 PM |
| 197 | Family washrooms are essential for the pool, to help with single parents or parents that need to bring an older daughter into a male change room after swim class. There are also no private change rooms available for same issue and adults have to try and create privacy with a towel when both genders are using the same change room. | 1/27/2023 8:17 PM |
| 198 | Rock climbing, pickle ball, childcare with fun activities to keep the kids active. | 1/27/2023 8:04 PM |
| 199 | The change rooms need major attention. It should be a priority. Complaints have been rising and no changes have been made. | 1/27/2023 7:32 PM |
| 200 | This is a well used and well loved space. Please do the best that can be done to not close it for several years again. Also some natural light in the gym would be spectacular. | 1/27/2023 6:47 PM |
| 201 | Please turn the seating facing into the bathroom to face the ice surface. It is very off putting as is (whoever designed this mess?). | 1/27/2023 6:30 PM |
| 202 | A Sauna Please! | 1/27/2023 6:21 PM |
| 203 | Listen to all comments given and discuss them | 1/27/2023 6:19 PM |
| 204 | I really thought this would already be done by now. It's so long overdue. | 1/27/2023 5:53 PM |
| 205 | Enhance the swimming space however you can. It's a great pool and would be ideal to have better change rooms and a sauna. | 1/27/2023 5:46 PM |

| | | |
|-----|---|--------------------|
| 206 | 1. Sensory room accessible by children with disability such as autism to enhance experience Cameras in parking lot to enhance safety. | 1/27/2023 5:03 PM |
| 207 | This is a much-needed expansion! Thank you! | 1/27/2023 4:46 PM |
| 208 | I think the pool area needs to be redone and the pool made larger to allow the volumes seen during public swim times | 1/27/2023 4:21 PM |
| 209 | I am so stoked about the idea of a community kitchen that I could cook in or teach classes from! | 1/27/2023 4:00 PM |
| 210 | A sauna would be a nice addition to the plans. | 1/27/2023 3:37 PM |
| 211 | I live far away and very unlikely to do to the Civic Centre | 1/27/2023 3:19 PM |
| 212 | Think of locked in over .55 people | 1/27/2023 3:17 PM |
| 213 | Keeping the look of the existing building entry facade. | 1/27/2023 2:45 PM |
| 214 | why isn't anything being done for the people in East Kildonan Transcona | 1/27/2023 2:15 PM |
| 215 | Please make lap swimming available on the weekdays from 4 to 8pm, adults would like to use the pool too. It shouldn't be available to organized/kids lessons only. As for now adults are being highly discriminated. At least one, if not two lines, should be available in the evenings. | 1/27/2023 2:09 PM |
| 216 | Need a walking track | 1/27/2023 2:05 PM |
| 217 | no keep doing what you plan you seem to be going in the right direction | 1/27/2023 1:46 PM |
| 218 | For as long as I have attended the Civic Centre for our dancing programs (many years), there has been difficulty with the sound systems. It would be nice to have a system that worked well without the ladies having to fight with them. | 1/27/2023 1:43 PM |
| 219 | I would like to see more programs for seniors later in the afternoon or early evening. It takes a long time to get ready to leave the house physically. Early classes are impossible. | 1/27/2023 1:34 PM |
| 220 | I wish the new mayor was from my area of Wpg --> as it currently stands, the SJCC ALREADY surpasses the offerings of most neighborhood recreational facilities...and rather than an upgrade...I strongly believe that this \$\$ should be redistributed to other rec centres that are more in need. (Why markedly revamp a rec centre that only 1/4 of city residents will access....when redistribution of this chunk of \$\$ could be distributed more evenly bc almost EVERY rec centre in Wpg would benefit from a biiiiiiiiiiiiiiiit of an upgrade.) | 1/27/2023 1:33 PM |
| 221 | Just that we need more indoor pickleball courts. Thanks. | 1/27/2023 1:21 PM |
| 222 | running/walking indoor track | 1/27/2023 1:03 PM |
| 223 | Please warm the finishes up. The bright white and grey at the new reception is horrible. Revisit the existing change rooms too. | 1/26/2023 11:18 PM |
| 224 | Comfortable benches to watch hockey. | 1/26/2023 10:48 PM |
| 225 | I SINCERELY hope there will be minimal impact on the pool. The Seals swim club has been severely impacted as a result of the last closure, and is a vital part of youth swimming sports in this community. I would hope every effort to accommodate access to the pool is being considered. | 1/26/2023 8:49 PM |
| 226 | Please include basketball facilities — indoors and out. | 1/26/2023 6:49 PM |
| 227 | It will be great to see this place brought back to life. It was a big part of my families life as my children were growing up. I would love to take my grandson and as we head into senior life, participate in activities somewhere close to home | 1/26/2023 6:16 PM |
| 228 | I think it's great this renovation is happening and I am really looking forward to using this new space with my family. We recently moved to the area and I'm so happy we have a facility like this we can walk to. | 1/26/2023 4:25 PM |
| 229 | A coffee shop, better restaurant experience | 1/26/2023 10:59 AM |
| 230 | Need to ensure that there is proper seating for ALL spectators - not just able-bodied or wheelchair bound. Many users of the facilities fall between the two extremes. Currently, there is no accommodation for those with limited mobility but do not have/need wheelchair or walker. | 1/26/2023 10:49 AM |

| | | |
|-----|---|--------------------|
| 231 | Save money on unnecessary expenses like trees in the parking lot and give it to a cc like Allard which is falling apart and freezing cold. | 1/25/2023 6:40 PM |
| 232 | Coat room for aerobic classes and new lockers in change room | 1/25/2023 4:30 PM |
| 233 | I enroll for the Leisure Guide programs Trim Fit and Line Dancing which are held in the Auditorium. A new sound system is needed. The people in front are blasted by the music and people in back can't hear the music. New system with multiple speakers is needed. | 1/25/2023 3:06 PM |
| 234 | Please have a coat room for boots and coats etc. | 1/25/2023 11:00 AM |
| 235 | The key amenity that would bring us to the community center is an expanded/improved exercise room. | 1/24/2023 10:09 PM |
| 236 | There's a gender neutral washroom in the main area now. Awesome. That doesn't allow accessibility to non-binary individuals to enter the pool. They still have to choose one or the other to enter and therefore may or will avoid using the facilities. Of which, why are the changerooms not getting an update? There's no privacy in the women's, no stalls other than the tiny washroom stalls, no full size lockers we can bring our own lock for, not enough bench seating or safe places to put boots in winter without bathing suits and towels dripping down onto them. There's bench space for maybe 4 people comfortably before/after a swim, and no options but to shower in front of everyone, and again no gender neutral entrance to the pool. | 1/24/2023 9:53 PM |
| 237 | The new fence along Ness adds to obstruction of oncoming traffic. Is there a purpose for this fence? | 1/24/2023 9:16 PM |
| 238 | Concerned about how long the facility will be closed this time and pool time and programs not increased elsewhere | 1/24/2023 9:02 PM |
| 239 | Lighten and brighten the existing space. I am a senior that uses the facility for senior programs but spaces are too dim for an old lady like me. LOL | 1/24/2023 8:46 PM |
| 240 | Parking will likely be a problem if reduced from what is presently there. | 1/24/2023 7:11 PM |
| 241 | Please focus more on making the Civic Centre accessible by active transit than worrying about having a giant parking lot | 1/24/2023 6:54 PM |
| 242 | Accessibility, EV charging, greenery, and an appealing front look great from the outside. Curious what tenant offices are | 1/24/2023 6:24 PM |
| 243 | Na | 1/24/2023 1:07 PM |
| 244 | Make space for a community garden to help address the issue of food security in our community! | 1/24/2023 12:23 PM |
| 245 | I will try to avoid this center. The plan is not practical and should focus on its original sports focus. | 1/24/2023 12:10 PM |
| 246 | designated smoking areas, inside being smoke/vape/fragrance free, designated areas where food can or can't be consumed, safer bathrooms with monitoring, sharps containers, community liaison worker to welcome and direct ppl and distribute basic resources and info to those in need | 1/24/2023 11:48 AM |
| 247 | During the summer I would be looking to visit during weekdays when school is out. | 1/24/2023 9:10 AM |
| 248 | Please add a family change room! I take my boys to swim club there and as a female parent it's hard having to navigate the change room situation. St. James Civic is the only pool we go to without a family change room and I would avoid this pool for this reason if I had a choice, unfortunately our swim club is there so I have to be there with my boys. | 1/24/2023 6:09 AM |
| 249 | St. James is a profoundly car-centric part of Winnipeg as it is. This is an opportunity to begin moving St. James forward to a more sustainable future with a better quality of life. | 1/24/2023 1:27 AM |
| 250 | More greenery in public areas. | 1/23/2023 11:19 PM |
| 251 | As mentioned, pickleball is the fastest growing sport in North America. The city lacks sufficient facilities to meet the needs of participants. Efforts have been made to provide outdoor courts, but in St. James indoor facilities are sorely lacking. | 1/23/2023 8:43 PM |
| 252 | I am interested only in the pickleball courts being expanded for indoor play and at less cost for | 1/23/2023 8:12 PM |

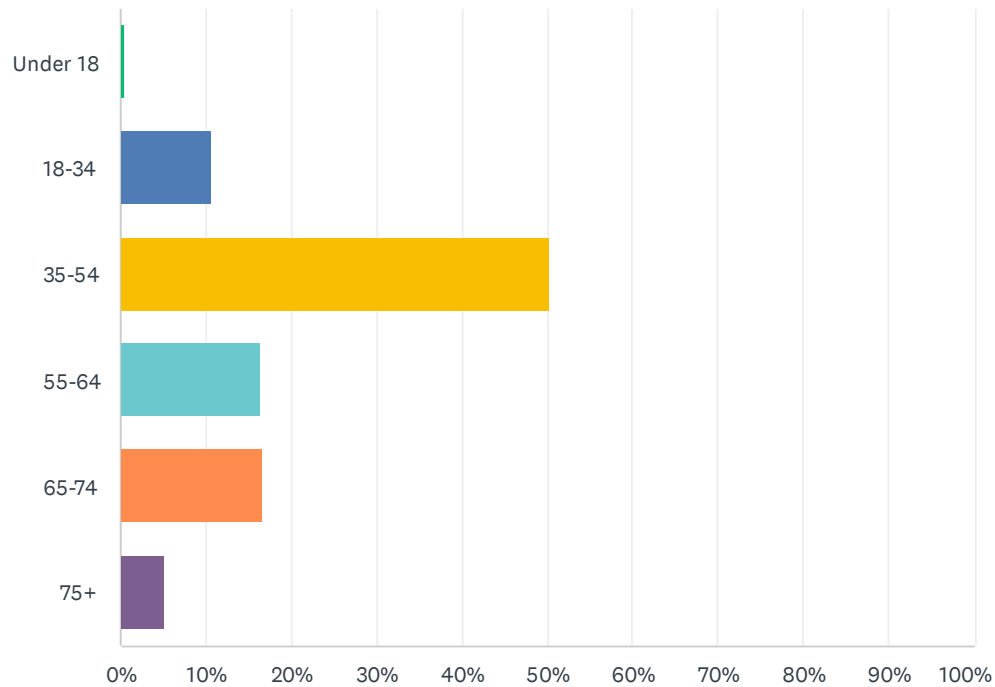

drop in than at the other facilities in the area. The indoor courts at Norberry Comm Centre and Lindenwoods Comm Centre are good examples of what I would prefer at St James Comm Centre for indoor play.

| | | |
|-----|---|--------------------|
| 253 | You have to provide better pool observation. The current situation is terrible. | 1/23/2023 7:51 PM |
| 254 | Would be nice to have a change room for people using the auditorium for sports/exercise programs etc. Rather than leaving shoes/boots/coats along the perimeter. | 1/23/2023 4:44 PM |
| 255 | I would like to see the addition of sauna or steam room facilities. | 1/23/2023 1:03 PM |
| 256 | No | 1/23/2023 12:50 PM |
| 257 | public sauna rentable ½ sized ice sheet. | 1/23/2023 9:52 AM |
| 258 | | 1/23/2023 9:36 AM |
| 259 | Why is there not turning lanes on Ness into the Civic Centre? | 1/23/2023 8:45 AM |
| 260 | Yes, a track and improved weigh room with natural lightning is a must | 1/23/2023 2:11 AM |
| 261 | Security within the building. Somewhere to dry off umbrellas and rainwear. Somewhere to clean off dirty autumn,winter,spring boots. If I walk my dog to the library to drop books or pick up books, where do I leave my dog? | 1/22/2023 7:05 PM |
| 262 | Sauna! | 1/22/2023 3:01 PM |
| 263 | Our community can not go through having this community centre closed down again. Please ensure there is a penalty clause for not completing the work on schedule. Allow centre to be open during construction if possible. | 1/21/2023 11:35 PM |
| 264 | Indoor splash pad with a couple of waterslide, hot tub, along with a diving board at the indoor pool | 1/21/2023 10:44 PM |
| 265 | Remove recycling and GARBAGE from this parking lot please. Any plans for a canteen? Get a few TVs for existing lobby - the dry erase board is pathetic! Do all these renos and then have a dry erase board in the middle of arena entrance to tell kids what rooms to go to - pathetic! | 1/21/2023 9:46 PM |
| 266 | Would love to see more trees in the landscape, reduce the heat dome affect and shade for cars in the parking lot. It would also give an even more rewarding view from the building itself. | 1/21/2023 4:56 PM |
| 267 | During this construction, please allow use of the pool! A financial penalty clause in the construction contract for not completing this project on time! | 1/21/2023 1:20 PM |
| 268 | Civic opens at 6:00 am and I usually go early in the morning or late at night. So I like that Civic is open late on some days. | 1/21/2023 10:48 AM |
| 269 | A family change room so that parents with children of the opposite gender can get their children changed. | 1/21/2023 10:17 AM |
| 270 | I think a sauna would be an excellent addition to the complex | 1/21/2023 10:08 AM |
| 271 | Very pleased to see the centre being upgraded to meet community needs. It has the potential to be a top notch facility. Have you considered acquiring or partnering with the Assiniboine Golf Club and making it part of the overall experience? | 1/21/2023 9:14 AM |
| 272 | I would like to see a small "coffee/tea/treats" area where people who attend and/ are or dropping off/watching participants can sit relax and visit . It would make the SJCC a meeting place where folks would walk/bike down for a "visit" . Could be city run or privately run. | 1/21/2023 6:41 AM |
| 273 | Please add aquafitness classes for people with Fibro and arthritis in the evenings at SJCC. Not all can attend during the day but need the classes still. | 1/20/2023 10:37 PM |
| 274 | Add more swimming classes! You can never get your kids in. Most parents I talk to feel this way! I would rather another pool than all the other spaces! Swimming is a life skill and we frequently cannot even get our kids into classes. | 1/20/2023 10:22 PM |
| 275 | The pool change rooms need major renovations. Poorly designed: gets very crowded, locks broken, no place for boots & winter parkas, not enough showers, no privacy rooms so some people change in the toilet stalls, limited seating, benches. | 1/20/2023 10:04 PM |
| 276 | Please never get rid of your free swim and \$2 swim. | 1/20/2023 8:13 PM |

| | | |
|-----|--|--------------------|
| 277 | My answer to Q4 is tied into much more programming being offered than presented in this survey thus far. Otherwise, I would not use the "reconstructed" centre at all. I would instead remain with other centres that offer the programming already in other parts of Winnipeg. I use those other locations very often since their programming is about the steak and not the sizzle of what it looks like. | 1/20/2023 7:53 PM |
| 278 | I would like a coffee shop/small restaurant to offer snacks and drinks | 1/20/2023 7:14 PM |
| 279 | Seriously reduce the size of the parking lot | 1/20/2023 6:15 PM |
| 280 | Please enlarge and improve the women's pool changeroom space. I'm sure the city knows the numbers of people who regularly do the aqua classes, both regular and aqua-lite/seniors. The numbers definitely warrant expanding the women's changeroom, especially given that we have entered a new era when everyone is concerned about spacing themselves at a distance from others. | 1/20/2023 5:58 PM |
| 281 | I'm excited about these improvements!! Please ensure there's an area where people can sit on simple (indestructible, relatively speaking), seating while they use their phone, or when they're seeking a temporary space to warm-up (in the winter), or cool-off (in the summer), while passing-through the area on a neighborhood walking trail. It would also be nice if there were a snack/coffee bar that sold just a few HEALTHY food items, such as big, dense high-quality muffins made by hand in a neighborhood bakery — NOT chips, chocolate bars and the typical unimaginative unhealthy crap that we can buy anywhere. | 1/20/2023 4:33 PM |
| 282 | These improvements are impressive however I hope not at the cost of smaller CC. | 1/20/2023 4:30 PM |
| 283 | Handi Transit/Winnipeg Transit Plus is a travel option | 1/20/2023 4:17 PM |
| 284 | More parking is needed. | 1/20/2023 4:15 PM |
| 285 | Pool locker rooms are a disgrace. Small lockers are inadequate to hold coats, clothes and bags. Floor is old and stained. No privacy areas. No space suitable for transgender people. | 1/20/2023 3:49 PM |
| 286 | The improvements made recently are very nice, but I would like to see the seniors center and other family oriented and event oriented space developed and improved, and concessions should be added and improved. | 1/20/2023 2:42 PM |
| 287 | I have no use for this facility. | 1/20/2023 2:18 PM |
| 288 | Would be nice if transit routed into parking lot like Grace Hospital bus. Old 55 Seniors is right on Portage so easier to get to for walking and transit. | 1/20/2023 2:03 PM |
| 289 | I would like to see natural light (windows) introduced into the existing weight room. It is not a very welcoming space with cinder blocks and fluorescent lighting. | 1/20/2023 1:55 PM |
| 290 | Make the gym wheelchair hockey and other handicapped activities easy to use AND TO STORE EQUIPMENT goal posts etc | 1/20/2023 1:53 PM |
| 291 | Will the expansion be accompanied with an increase in Community Services' operating budget? There is no point expanding facilities if we don't have the staff to accommodate it. | 1/20/2023 1:35 PM |
| 292 | I would like the evening weekday and weekend hours of operation expanded. | 1/20/2023 12:20 PM |
| 293 | why have a new building when the arena and pool deck need updating and improvements? | 1/20/2023 10:41 AM |
| 294 | An additional hockey rink is needed at the St. James Civic Centre. | 1/20/2023 10:28 AM |

Q12 What is your age?

Answered: 1,340 Skipped: 214

| ANSWER CHOICES | RESPONSES | |
|----------------|-----------|-------|
| Under 18 | 0.52% | 7 |
| 18-34 | 10.75% | 144 |
| 35-54 | 50.37% | 675 |

| 18 | I attend the Trim-Fit classes; but have been snowbirding for the month of January. So I was most grateful that the wonderful instructor Barb reached out with an email and a link to the survey. Otherwise, I would not have been aware of this attempt to secure public input in the planning. | 1/31/2023 5:32 PM |
| 19 | This e mail and the previous one | 1/31/2023 2:58 PM |
| 20 | I have driven past it everyday for more than 23 years. I moved to this neighbourhood because it had a recreation centre, but it seems like it is always closed for repair or they are hosting hockey events. It lacks programming of interest to residents that don't have children. I was | 1/31/2023 2:03 PM |

optimistic the Centre would be modernized and it would become more accessible to serve older adults. Sadly its primary focus still seems to be to serve children and hockey players. The following comment is off topic, but I would like to know if the Centre is a designated safe place if there was a tornado or other emergency. What is the role of the centre in a disaster, weather or other emergency?? If it is a safe place during a disaster like a massive power outage etc shouldn't it be promoted as such to the residents of the community?

| 147 | When the Civic Centre closes again for renovations, I hope there will be a plan in place to accommodate some of the activities. Our line dance class requires a large room, such as a gymnasium in order to continue. Dropping classes entirely for two years is too much, especially following a two year closure for Covid. | 1/27/2023 1:46 PM |

Site design

Building design

Love the trees & surrounding area. Make 5 trees more prominent.

Need extra chairs changing station.

Love the trees! I don't think!

Good Sauna

Indoor walking path

Love the trees & surrounding area. Make 5 trees more prominent.

Good Saunas for women

Put bench back into change area. (be long one!)

Good room for 60-70.

Good room for 60-70.

Don't like the large sofa. Better to have a sofa.

The patio area needs to be more visible.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Sauna & Hot Tub for Health Reasons

More chairs in change rooms or bench.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

Put hand dryer back beside sinks.

Fix automatic sink traps to work longer & individually. (Send the about to work)

Why the name of this room during the night? It's a good idea. But the name of the room is not very clear.

Good room for 60-70.

Good room for 60-70.

Good room for 60-70.

St. James Civic Centre Expansion

**Phase 1 Public Engagement
Winter 2023**

Background

Project overview & scope

The St. James Civic Centre was built in 1967. It features an indoor arena, a swimming pool, a fitness room and an auditorium.

Critical upgrades to the building began in 2020 to ensure the building could remain open.

In July 2021, the Government of Canada, Province of Manitoba and City of Winnipeg announced \$14M in funding to expand the St. James Civic Centre.

The St. James Civic Centre Expansion project will ensure the center continues to meet the community's recreation needs into the future.

Background

Building Upgrades (2020-2022)

Critical upgrades happened in 2020-2022 that were necessary for the facility to remain open. The upgrades were planned to accommodate the currently planned St. James Civic Centre expansion.

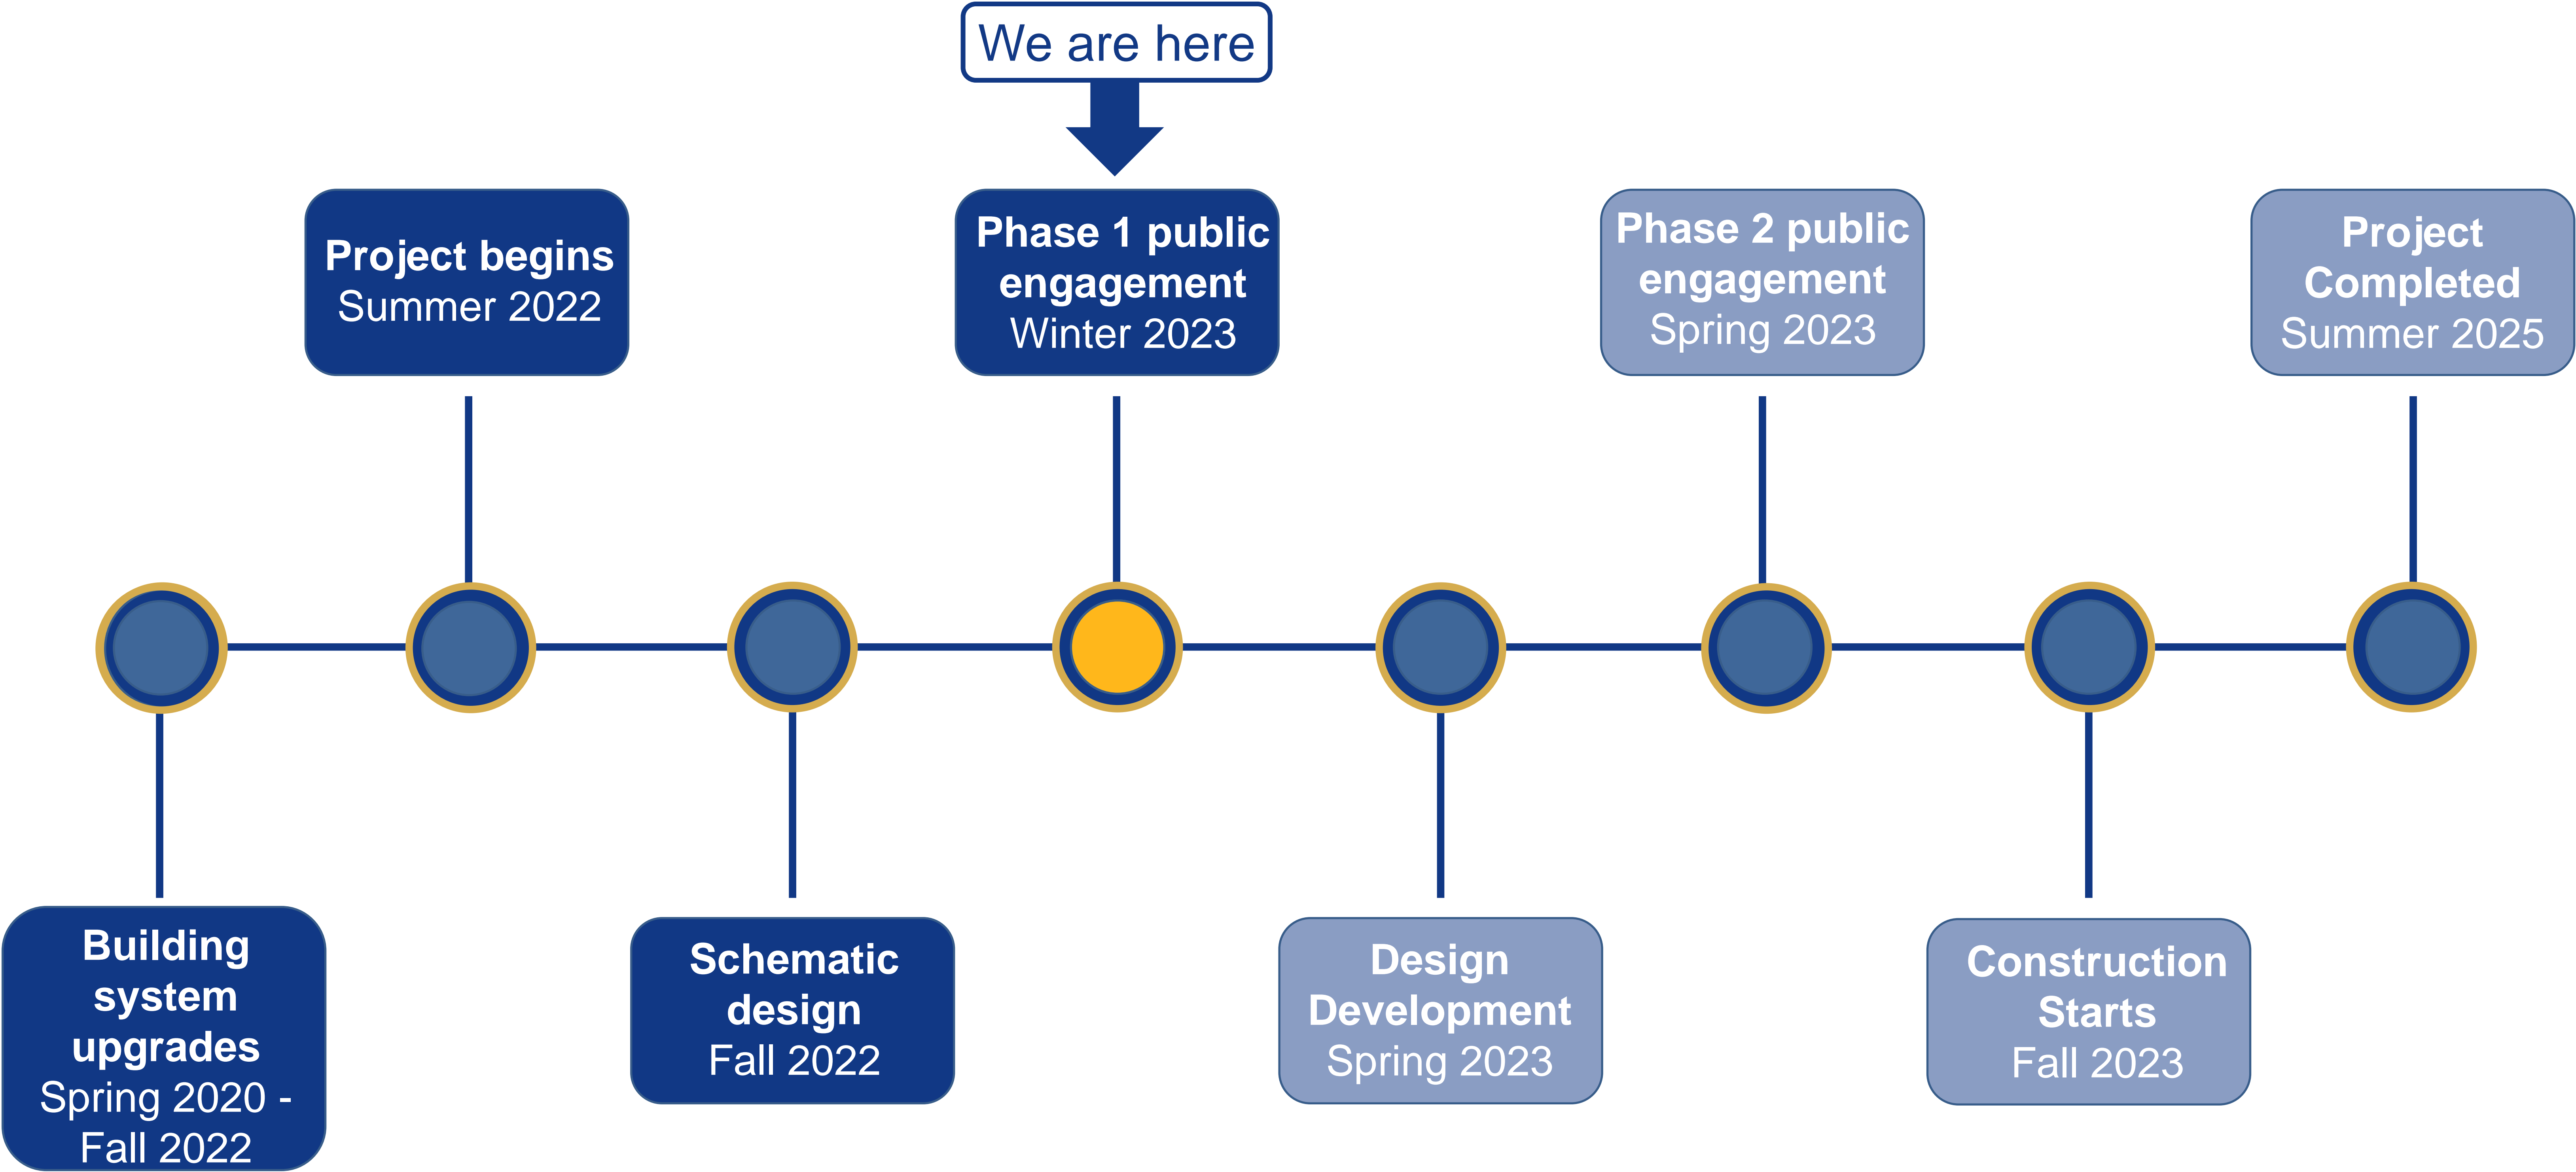

Upgrades included:

- Replacement of all heating, cooling and ventilation systems
- Upgrade and replacement of the electrical service and system
- Building code upgrades, including fire suppression system
- Lobby and washroom renovations including new front desk and accessible gender-neutral washrooms
- Structural repairs to the arena rink slab
- A new lift for moving equipment between the main floor and basement
- General painting and refurbishment of the facility

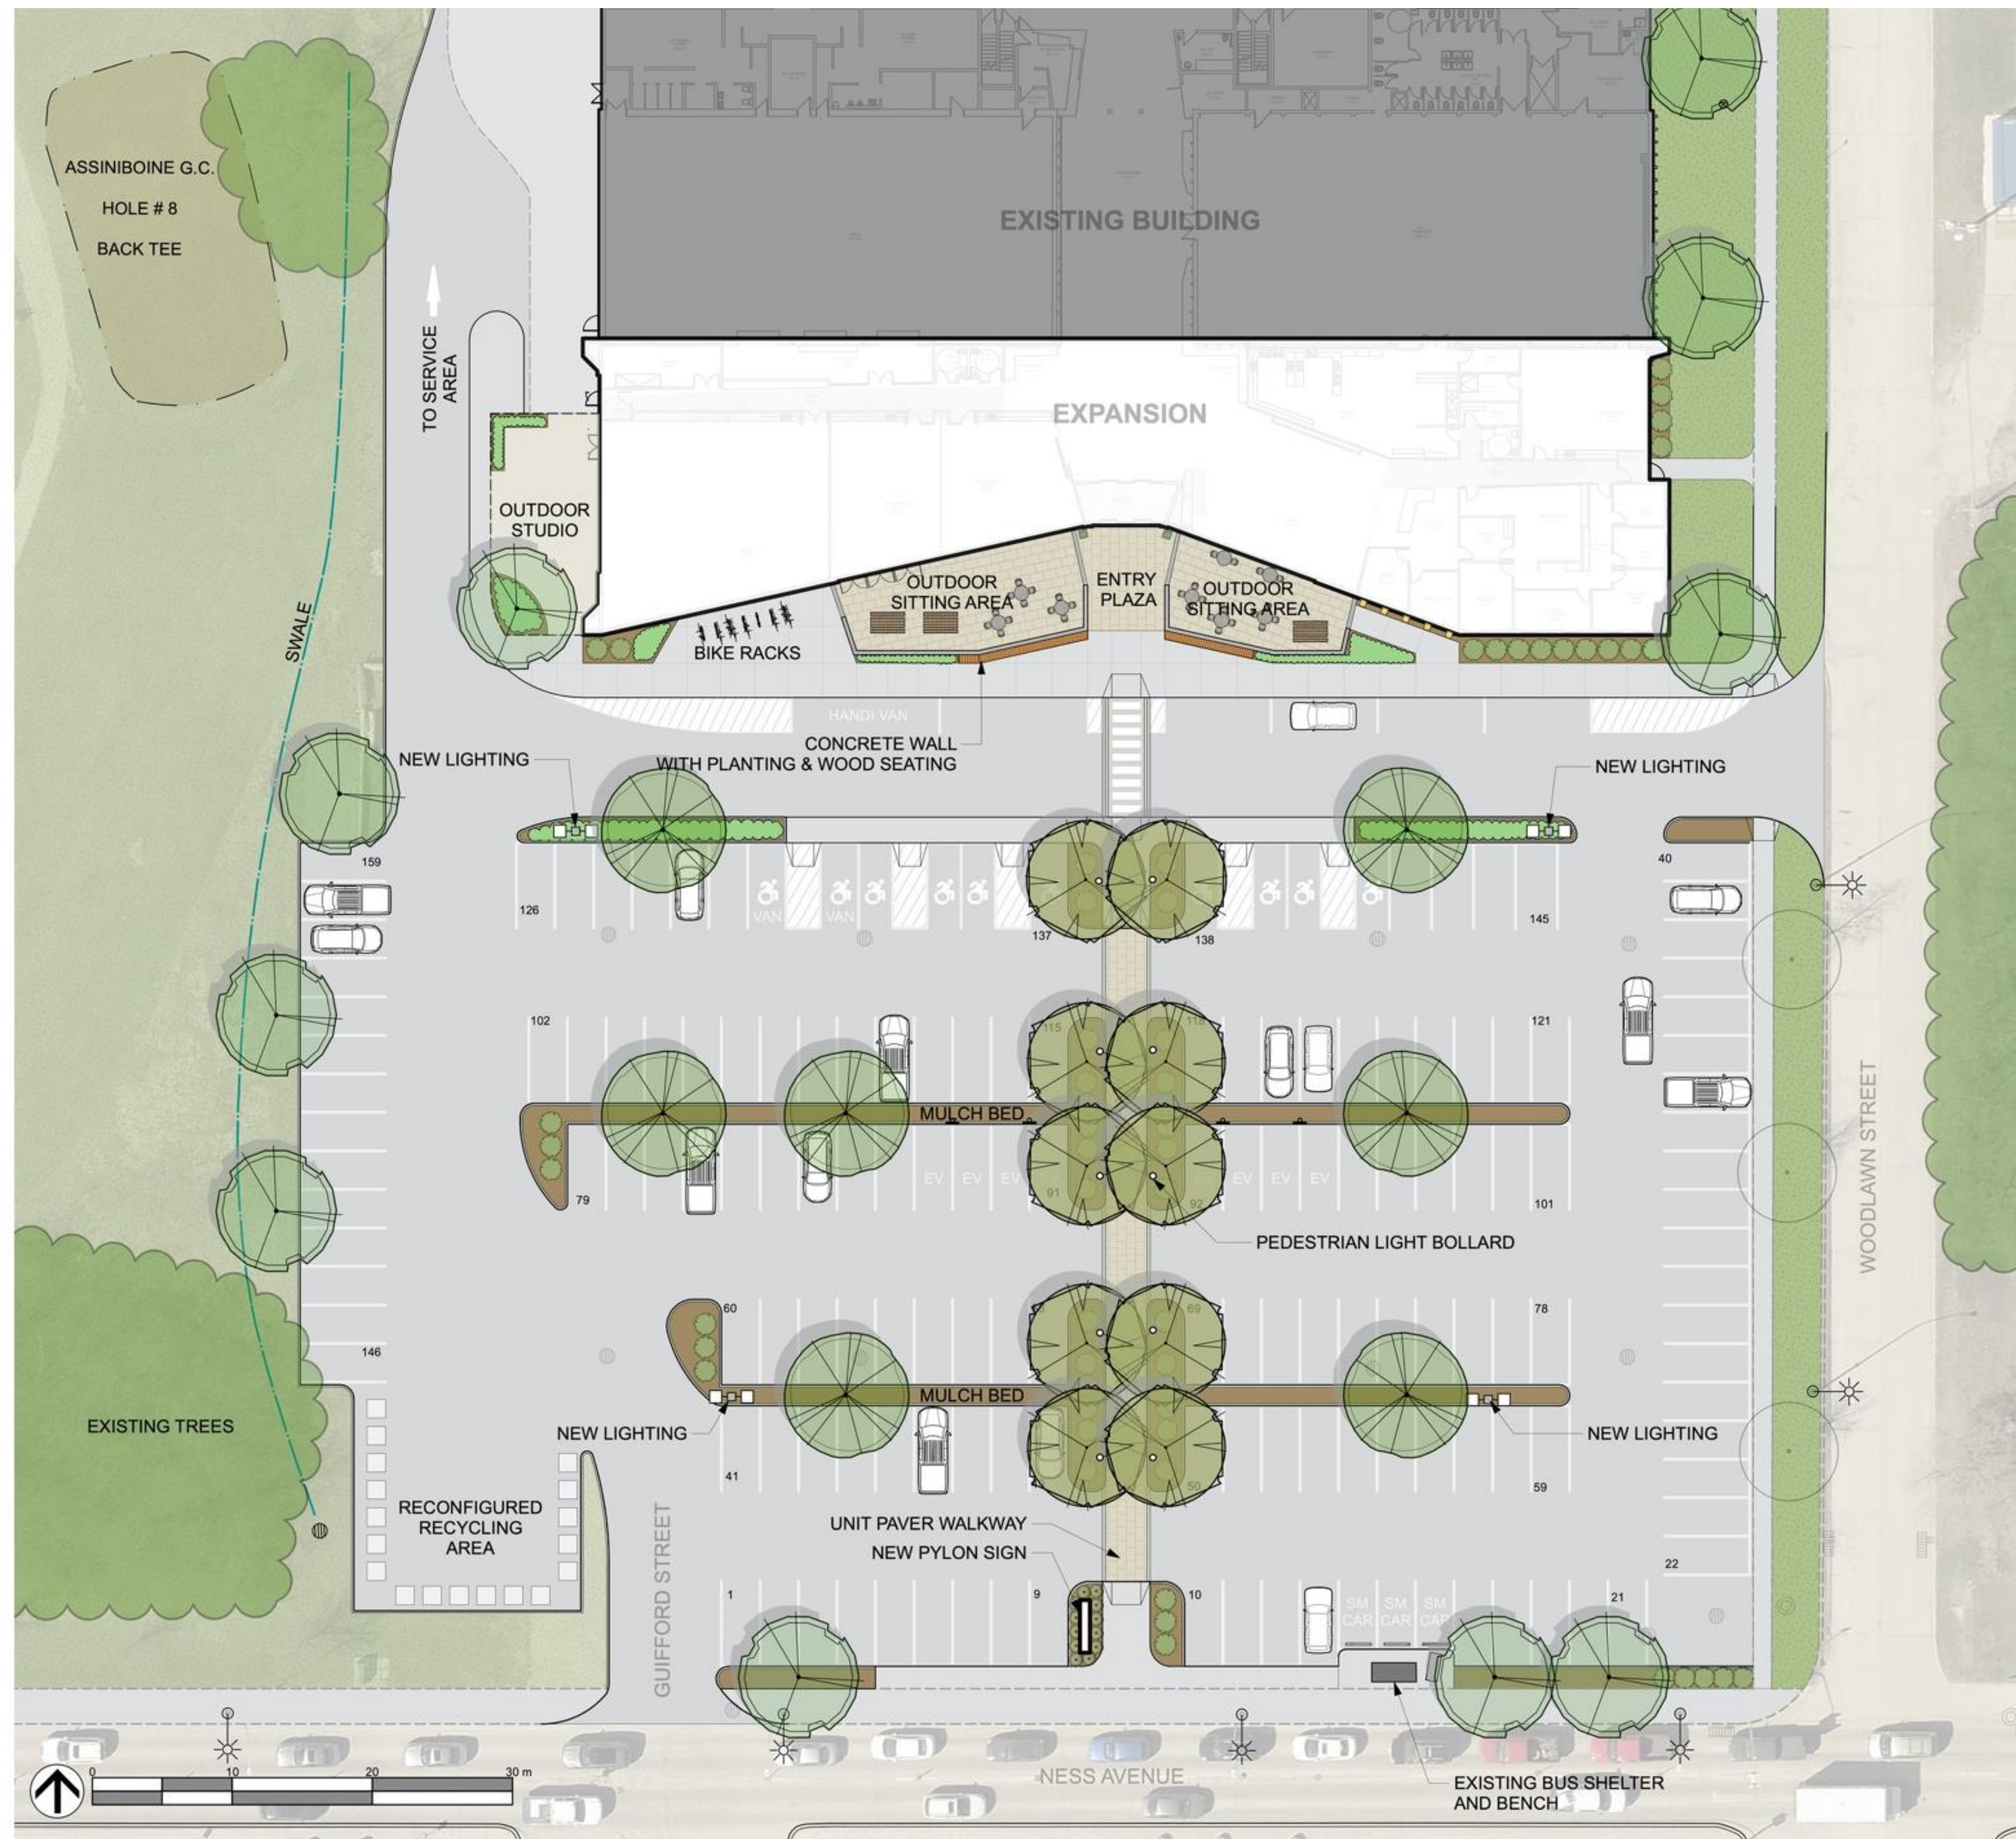

Where we are

Project timeline

Proposed Expansion Project

Site design

winnipeg.ca/stjamescivicexpansion

The following improvements to the parking lot and site are proposed:

- A safe and accessible walkway from Ness Avenue
- New trees and landscaping
- Access to the public transit stop
- Outdoor seating and gathering spaces
- Bike parking
- Accessible parking spaces near the entrance
- EV charging stations
- A drop-off loop for cars and buses
- Improved recycling drop off area
- New facility sign, including digital reader board with program information

Note: The design is subject to change as design and costing progresses, and as public feedback is considered.

Proposed Expansion Project

Site & building entrance design

Note: The design is subject to change as design and costing progresses, and as public feedback is considered.

Proposed Expansion Project

Building design

The following improvements to the building are proposed:

- A new, welcoming entrance to the building
- A variety of flexible, multi-use program and studio rooms
- A lounge space for socializing in small groups
- Improved spectator viewing for the swimming pool
- Dedicated office and wellness program space for St. James Assiniboia 55+ Centre
- A new kitchen to support programs, community events and rentals
- A renovated auditorium providing more flexible program options

Note: The design is subject to change as design and costing progresses, and as public feedback is considered.
