# Message from the Chair

## *Why build a plan together?*

The District has been delivering services across Muskoka for more than 50 years.

We were formed in 1970 to connect Muskoka's communities and provide services that bring more value and efficiency when they are delivered at a regional level. Our role and responsibilities have evolved over time—expanding services to meet new needs and taking on the big challenges our communities are facing—to benefit Muskoka as a whole.

A lot has changed in 50 years—and even more so in the last three years. Muskoka is facing new challenges, and it feels like the right time for us to connect.

We asked you to help us build a new strategic plan for Muskoka together. A plan that looks at where we started, where we are today, and where we need to go next. Your input will shape a better future for Muskoka together—Council, Staff, and the Community.

We asked you to:

- ✓ Review the District's vision, mission and values
- ✓ Look at regional services that will best connect our communities and bring value to residents
- ✓ And look at new priorities—initiatives that can bring value and connect Muskoka in different ways than we have considered before

*Jeff Lehman, Muskoka District Chair*

# District Planning Framework

## DISTRICT PLANNING FRAMEWORK

The Strategic Plan and Action Plans 2023-2026 reflect what our communities and residents have told us are more important to them. The plan sets the objectives that will help achieve our vision for Muskoka. The strategic planning process connects Council priorities and regional plans and strategies with our corporate and department planning, processes, budget, and business plan.

### HOW WILL THIS STRATEGIC PLAN BE USED?

- ✓ Define the District's priorities to guide Council and senior leadership decision-making
- ✓ Prioritize budget and resource allocations
- ✓ Provide context for staff reports to Council
- ✓ Inform the District's communication, customer service and public engagement strategies
- ✓ Evaluate corporate performance

### HOW WILL WE MEASURE SUCCESS?

Staff will provide a Progress Report every year for Council and the community's review. These annual progress reports will highlight progress on the action plans and measure outcomes to date for each objective. It will also showcase some key council, staff, and service achievements from the year in review.

### MID-TERM ACTION PLAN REVIEW

The Action Plan outlined on the pages that follow was developed by staff to realize the Strategic Plan's Priorities and Objectives. A full review of the action plans will be completed mid-term, and we expect some action areas and measures to be adjusted at that time.

**Why?** The priorities and objectives identified in the strategic plan are very important to Council, staff, and our residents. The action plans reference several strategies that will be updated or to be developed, and new tools that will be created to measure progress. Reassessing the action plans mid-term will allow staff to adjust action areas or measures where there is an opportunity to improve intended outcomes and meet the strategic plan's objectives.
