Will you visit the RDOS Regional Connections public engagement website to learn about this and other projects	14 (93%)	0 (0%)	1 (7%)

Public Comments:

- 1) We are concerned about wildlife and wetland impacts
- 2) We are in support of organic facility but not biosolids facility
- 3) Biosolids needs to be dealt differently, possibility of incineration
- 4) There are too many developments taking place in the neighbourhood
- 5) Consider possibility of accessing the composting facility from Greyback Road
- 6) Reservoir Road is too narrow for trucks
- 7) Consider the setbacks between the facility and nearest properties
- 8) How can you guarantee that there will not be any leachate
- 9) Please have better advertisements for future sessions
